Certain References and Information

This is an English translation of the Annual Securities Report ("Yukashoken Hokokusho") submitted to the Director of the Kanto Local Finance Bureau via Electronic Disclosure for Investors' Network ("EDINET") on June 25, 2021, pursuant to the Financial Instruments and Exchange Act of Japan.

In this document, "fiscal 2021" refers to the year ended March 31, 2021. All information contained in this document is as of March 31, 2021 or for fiscal 2021, unless otherwise indicated.

Disclaimer Regarding Forward-Looking Statements

This report includes forward-looking statements about Panasonic and its Group companies (the Panasonic Group). To the extent that statements in this report do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Panasonic Group in light of the information currently available to it, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Panasonic Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Panasonic undertakes no obligation to publicly update any forward-looking statements after the date of this report. Investors are advised to consult any further disclosures by Panasonic in its subsequent filings under the Financial Instrument and Exchange Act of Japan (the FIEA) and other publicly disclosed documents.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the Americas, Europe, Japan, China and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; the possibility that the spread of the novel coronavirus infections may adversely affect business activities of the Panasonic Group; the possibility that excessive currency rate fluctuations of the U.S. dollar, the euro, the Chinese yuan and other currencies against the yen may adversely affect costs and prices of Panasonic's products and services and certain other transactions that are denominated in these foreign currencies; the possibility of the Panasonic Group incurring additional costs of raising funds, because of changes in the fund raising environment; the possibility of the Panasonic Group not being able to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the possibility of not achieving expected results or incurring unexpected losses in connection with the alliances or mergers and acquisitions; the possibility of not being able to achieve its business objectives through joint ventures and other collaborative agreements with other companies, including due to the pressure of price reduction exceeding that which can be achieved by its effort and decrease in demand for products from business partners which Panasonic highly depends on in BtoB business areas; the possibility of the Panasonic Group not being able to maintain competitive strength in many product and geographical areas; the possibility of incurring expenses resulting from any defects in products or services of the Panasonic Group; the possibility that the Panasonic Group may face intellectual property infringement claims by third parties; current and potential, direct and indirect restrictions imposed by other countries over trade, manufacturing, labor and operations; restrictions, costs or legal liability relating to laws and regulations or failures in internal controls; fluctuations in market prices of securities and other financial assets in which the Panasonic Group has holdings or changes in valuation of non-financial assets, including property, plant and equipment, goodwill and deferred tax assets; future changes or revisions to accounting policies or accounting rules; the possibility of incurring expenses resulting from a leakage of customers' or confidential information from Panasonic Group systems due to unauthorized access or a detection of vulnerability of network-connected products of the Panasonic Group; as well as natural disasters including earthquakes, prevalence of infectious diseases throughout the world, disruption of supply chain and other events that may negatively impact business activities of the Panasonic Group. The factors listed above are not all-inclusive and further information is contained in the most recent English translated version of Panasonic's securities reports under the FIEA and any other documents which are disclosed on its website.

3. Description of Business

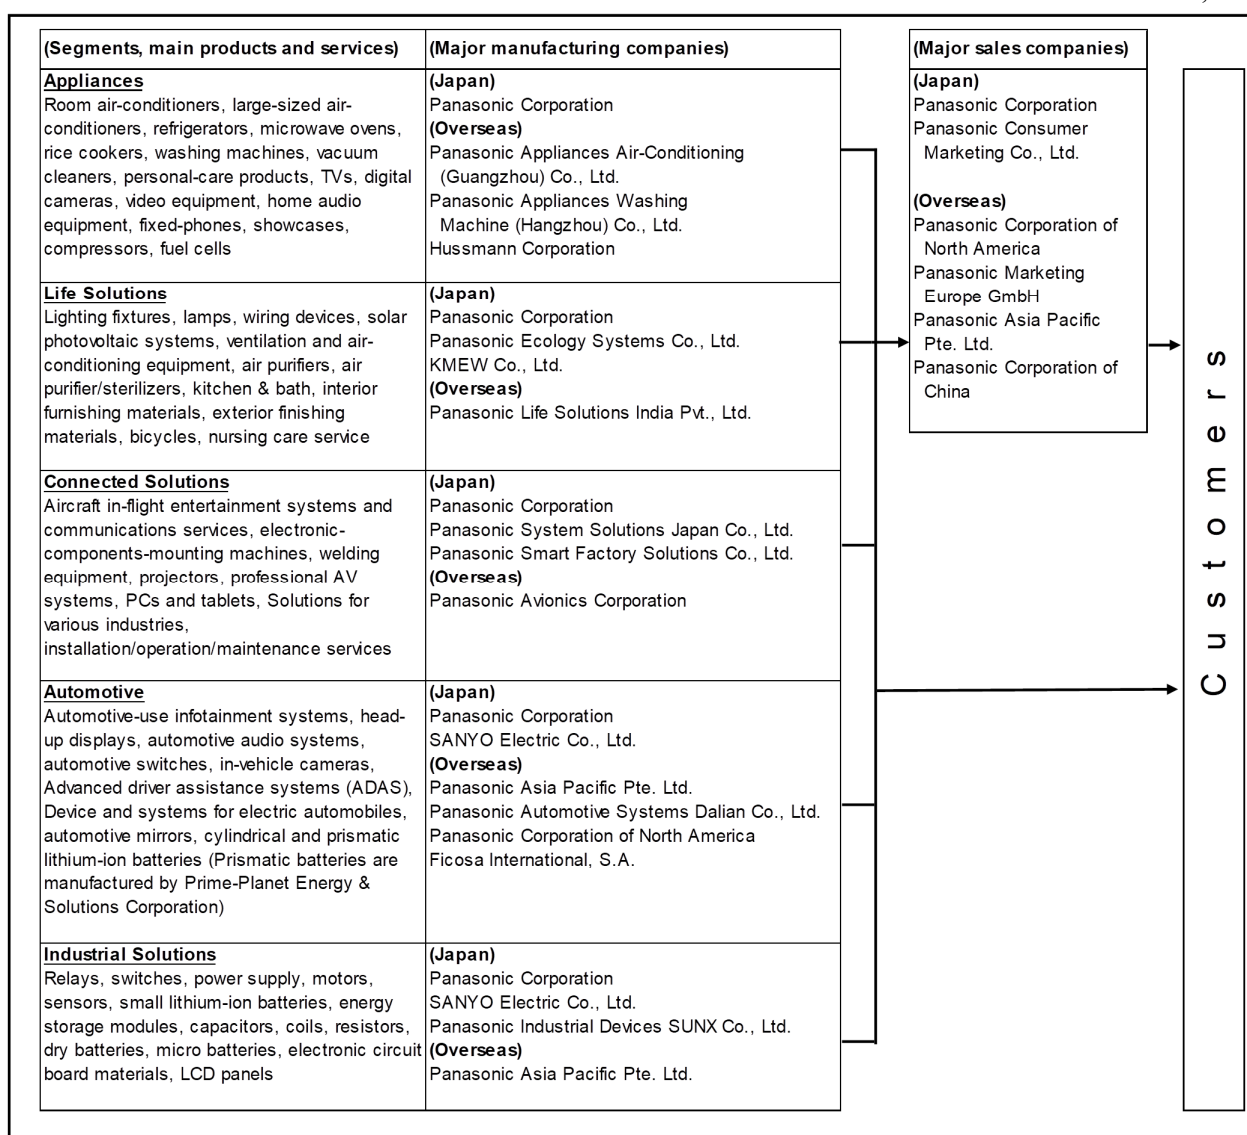

The Panasonic Group is comprised primarily of the parent Panasonic Corporation and 522 consolidated subsidiaries in and outside of Japan, operating in close cooperation with each other. As a comprehensive electronics manufacturer, Panasonic is engaged in development, production, sales and service activities in a broad array of business areas.

The Company supplies a full spectrum of electric/electronic equipment and related products, which is categorized into the following five reportable segments, "Appliances," "Life Solutions," "Connected Solutions," "Automotive," "Industrial Solutions," and other business activities which are not included in the reportable segments. For further details about each segment, please refer to "V Consolidated Financial Statements, Note 4."

The Company's consolidated financial statements have been prepared in conformity with IFRS, and the scopes of affiliates are also disclosed based on the definition of those accounting principles. The same applies to "II Business Overview" and "III Property, Plants and Equipment."

(Panasonic Group)

As of March 31, 2021

(Notes)

1. A number in the parenthesis represents the ratio of indirect voting rights, which is a part of the ratio of voting rights.
2. The column "Principal businesses" indicates the segment in which the subsidiaries are classified. For subsidiaries that do not belong to any segment, the segments handling the products are described if it is a sales company, and "Corporate" is described otherwise.
3. Regarding the interlocking directorate, etc., other than what is disclosed above, the Company's employees concurrently hold position of directors or officers in the most of the consolidated subsidiaries or companies under the equity method.
4. Subsidiaries that meet the criteria of the specified subsidiaries or "Tokutei Kogaisya" defined in Cabinet Office Ordinance on Disclosure of Corporate Affairs, etc. of Japan.
5. Subsidiaries in the list above with insolvency

The amount of liabilities in excess of assets as of March 31, 2021 are shown below:

Panasonic Liquid Crystal Display Co., Ltd. 576,163 million yen

SANYO Electric Co., Ltd. 502,144 million yen

6. Although the ratio of voting rights is 50.0%, KMEW Co., Ltd. is treated as a consolidated subsidiary because the Company controls it by involving in its manufacturing and sale activities.
7. Although the ratio of voting rights is 15.1%, Sumitomo Mitsui Trust Panasonic Finance Co., Ltd. is treated as a company under the equity method because the Company holds significant influence over its decision on operating and financial policies. Sumitomo Mitsui Trust Panasonic Finance Co., Ltd. issues the annual securities report.
8. Sales of the following subsidiaries excluding internal sales in the Panasonic group account for more than 10% of the consolidated sales:

million yen	Panasonic Consumer Marketing Co., Ltd.	Panasonic Corporation of North America
Sales	969,038	765,869
Profit before income tax	5,861	331,322
Net profit	3,679	256,406
Equity	52,455	884,174
Total assets	205,731	1,286,342

The financial data are based on each local GAAP (JAPAN and U.S.).

9. Common stock of Hussmann Corporation is zero.

10. On April 23, 2021, the Board of Directors of Panasonic has resolved the additional acquisition of 80% shares of Blue Yonder Holding, Inc. making it as a wholly-owned subsidiary.

5. Employees

(1) Consolidated basis

As of March 31, 2021

Segment	Number of employees
Appliances	66,054
Life Solutions	47,400
Connected Solutions	25,192
Automotive	25,909
Industrial Solutions	63,138
Other	12,967
Corporate	2,880
Total	243,540

(Notes)

1. The number of employees refers solely to full-time employees of the Company on a consolidated basis.
2. The number of employees decreased by 15,845, compared with the end of last fiscal year.

(2) Parent-alone basis

As of March 31, 2021

Number of employees	Average age	Average tenure (years)	Average annual salary (yen)
59,006	45.8	22.7	7,439,769

Segment	Number of employees
Appliances	12,492
Life Solutions	12,270
Connected Solutions	9,144
Automotive	8,282
Industrial Solutions	12,409
Other	1,529
Corporate	2,880
Total	59,006

(Notes)

1. The number of employees refers solely to full-time employees of the parent company.
2. Average annual salary includes bonuses and extra wages.

(3) Relationship with labor union

The total number of union members of the federation of Panasonic group labor union is 92,568 as of March 31, 2021, and most of the labor unions belong to the Japanese Electrical Electronic & Information Union except some labor unions.

The followings are main labor unions which belong to federation of Panasonic group labor union.

Panasonic Life Solutions labor union (Belongs to the Japanese Electrical Electronic & Information Union)

Panasonic Industrial Devices labor union (Belongs to the Japanese Electrical Electronic & Information Union)

Panasonic Connected Solutions labor union (Belongs to the Japanese Electrical Electronic & Information Union)

The relationship between management and labor unions is quite stable and smooth.

II Business Overview

1. Management Policy, Business Environment and Challenges of Panasonic Group

Future expectations included in this section are as of June 25, 2021, the filing date of this annual securities report.

(1) Basic Management Policy

Based on the Basic Management Objective set by the founder Konosuke Matsushita, the Company has committed itself to making contributions to the progress and development of society and the well-being of people worldwide through our business activities over a long period of time. Inheriting this philosophy as the Company's unchanging *raison d'être*, we commit ourselves to making further contributions through delivering excellent products and services more rapidly and to many more customers, toward realization of ideal lifestyles and society along with solving such social issues as conservation of the global environment.

(2) Management Strategy and Challenges of Panasonic Group

1) Main initiatives for fiscal 2022

In the management environment of fiscal 2022, the international economic outlook remains unclear, given growing uncertainty over political and financial circumstances in other countries and stagnation of trade, along with COVID-19 situation which is dependent on vaccine dissemination. The Company projects that these events in the global economy will not have a small impact on Japan.

Under such management conditions, the Panasonic Group will continue to manage fixed costs in line with business conditions and make continuous efforts to capture new business opportunities reflecting social changes brought by COVID-19. Through all those efforts, the Company will continue to execute portfolio management and enhance its management structure in the final year of the Mid-term strategy that started in fiscal 2020. Accordingly, in all of our businesses, the Company will identify the areas in which the Company should be aggressive and thoroughly enhance the competitiveness in those areas.

The Panasonic Group is scheduled to implement the transition to a holding company system from April 2022. In preparation for the transition, in October 2021, the current Divisional Company system is scheduled to be terminated and the business structure to be reorganized. Under the new structure, the Company will steadily execute the Mid-term strategy and prepare for the smooth operation of each operating company to be established on April 1, 2022.

Under the holding company system, each operating company will accelerate efforts to significantly enhance its business competitiveness through wide-ranging autonomous management. This will lead to swift decision-making in response to changes in external conditions and flexible development of systems in accordance with business characteristics. The holding company will proactively support each operating company enhance its competitiveness, as well as promote growth strategies from a Group-wide perspective, striving to enhance the corporate value of the entire Group.

At the Board of Directors' meeting held on April 23, 2021, the Company resolved to make the U.S. company Blue Yonder Holding, Inc. ("Blue Yonder"), which is the leading end-to-end, digital fulfillment platform provider, a wholly owned subsidiary by additionally acquiring 80% of the shares. The Company reached a final agreement with Blue Yonder and its substantial shareholders. As a result, together with the 20% of Blue Yonder's shares already acquired in July 2020, the Company will acquire all the shares of Blue Yonder.

In the field of the Gemba (operational frontlines) Process business in the supply chain area, which is one of our business pillars, there are many issues to be addressed, such as extreme fluctuations in demand caused by COVID-19, increased burden on logistics, responding to changes in consumer needs, labor shortages, conserving resources and elimination of carbon. The Company, through its knowledge and expertise gained as

a manufacturer for 100 years, can visualize the movement of people, objects, and equipment at actual sites as digital data and analyze them in cyberspace. By linking this information to management decisions, and shortening lead times globally, reducing inventories, eliminating bottlenecks, etc., the Company aims to solve the business issues facing our customers while protecting the global environment and realizing a sustainable society through energy conservation and effective use of resources.

In order to provide services with higher added value for our customers, the pressing issues are the deepening of hardware products available, shift toward solutions business, expansion of recurring (Note) business and innovation through software. Through this investment, the Company will gain Blue Yonder's state-of-the-art artificial intelligence (AI) and machine learning (ML) technologies and its expertise in the supply chain package software business and recurring business as a world class supply chain software specialist, enabling the Company to further accelerate its Gemba (operational frontlines) Process business. In addition, the Company will strengthen the operations of its own supply chain (including increasing cost competitiveness, etc.) and accelerate its transformation by incorporating and combining Blue Yonder's agile corporate culture.

Note: Recurring: a system that continuously generates revenue

2) Major initiatives in each segment

Appliances

The area of air-conditioning and home appliances is expected to continue to grow driven by increasing awareness of environment, energy saving, health and hygiene, as well as shifts in lifestyles and values. However, in the AV area such as TVs and home audio equipment, growth is expected to decelerate as technological evolution slows and commoditization advances further.

For the air-conditioning business, which is considered a growth area, Panasonic will build a competitive advantage by focusing on the combination of "products and regions" where its strengths lie, and by differentiating from competitors, leveraging its proprietary technologies (e.g. nanoe™) and products. For the Smart Life Network business in which products such as TVs have struggled, the Company will strive to improve profitability through continued business restructuring. For the home appliances business consisting primarily of home appliances, Panasonic will develop products and services centered on customers' behaviors and activities, standardize designs and products by deepening collaboration between Japan and China, and create new customer values through more efficient use of development resources, to expand the business globally.

Life Solutions

A global shift in lifestyle and workstyle is expected to drive people's growing awareness about health, hygiene, and especially Indoor Air Quality (Note) as well as workplace diversity. In Japan, demand for lifestyle solutions has remained affected by a decline in new construction starts amid the COVID-19 pandemic. Meanwhile, demand overseas is expected to recover/expand especially in India and South East Asia.

In Japan, mostly in the non-residential field, Panasonic will provide a wider variety of offerings, spanning from data analyses for addressing customers' issues, consulting based on such analyses to maintenance and customer services after delivery, in addition to sales and installation of systems linking multiple products. Overseas, especially in India, Turkey, and Vietnam, the Company will work on efforts to strengthen the structure of its project business and to launch new businesses, which help address each customer's specific needs, while enhancing its sales and production structure and expanding the electrical construction materials business, to ultimately expand business abroad. Through these efforts, Panasonic will engage in businesses that take the customers' viewpoint in realizing better and more comfortable lives globally.

Note: Indoor Air Quality (IAQ): the quality of air in a space in terms of ventilation, humidity control, air flow and other air quality attributes

Connected Solutions

As the labor force declines, customers' personal preferences diversify further, and adaptation to "New Normal" advances, markets are expected to continue growing in the business areas of manufacturing, logistics, and distribution. Recently, demand for solutions to problems especially in supply chain has been growing worldwide.

In the Gemba (operational frontlines) Process business, Panasonic will contribute to resolving a variety of business challenges of customers through the innovation of operational processes primarily of "produce," "transport," and "sell." In the supply chain area centered on logistics and distribution, the Company will help customers expand sales and reduce costs by modeling and implementing solutions that provide high added value to customers, such as solutions to streamline warehousing, transport and delivery operations, as well as optimize inventories. Panasonic will also accelerate the realization of Autonomous Supply Chain™ jointly with Blue Yonder, with which the Company has enhanced a strategic partnership through capital alliance. In the area of fine processing (manufacturing), Panasonic will maximize the value of production activities with the control of machining process at the core, and deal with customers throughout the entire set of processes from development, manufacturing, sales to services, continuously delivering value to customers in every process, to ultimately expand sales of solutions.

Automotive

In the automotive industry, initiatives to address the evolution of CASE (Note 1) have gained traction, although the COVID-19 pandemic has affected the industry. Needs for more comfortable mobile space and for driving safety support have further increased.

For the automotive solutions business, Panasonic will contribute to improving the comfort and safety of vehicles by focusing on the following fields where the Company can leverage its existing strengths: cockpit systems (Note 2), HUD (Note 3), and ADAS (Note 4). The Company will establish its competitive advantage in cockpit systems, leveraging its proprietary know-how on how to achieve high operational performance and optimal information display, as well as its strong software development capability that supports rapidly evolving in-vehicle information systems which have become more complex and larger in recent years. The Company also seeks to raise the operational performance, visibility, and safety of vehicles to maximize customer value. In particular, it will strengthen development of HUD (allowing bright and clear display with less distortion in a small-sized monitor), as well as ADAS (integrating competitive devices such as in-vehicle cameras and advanced technologies such as image recognition). For the automotive batteries business, Panasonic has achieved higher battery capacity of cylindrical lithium-ion batteries, while making investments to expand production capacity of the North America factory. Panasonic aims for continued growth through developing new types of batteries and exploring the possibility of European business. We also expect commercialization of cobalt-free batteries in two to three years.

- Notes 1. CASE: Connected (Connected to a telecommunications network to enjoy services, such as infotainment including driving support information), Autonomous (Autonomous driving), Shared & Services (Services for car-sharing), and Electric (Electrification)
2. Cockpit systems: In-vehicle systems that provide audible/visual support for safe (information essential to driving) and comfortable (entertainment) driving
3. HUD: Head-Up Display (a display device that supports safety driving by projecting essential driving information in the field of view of the driver so that he or she does not have to take his or her eyes away from the road ahead)
4. ADAS: Advanced Driver Assistance Systems (safety-driving support systems, including automatic braking and automatic parking, take over control of the vehicle to avoid an accident when a danger is detected)

Industrial Solutions

Amid the advancement of IoT society and mobility, and declining labor force, in the areas of information- and communication-infrastructure, automotive CASE, and labor-saving at factories, which Panasonic has positioned as key areas, demand is expected to grow, while continuing to evolve over the medium- to long-term in line with rising needs for stability, safety, automation and networking.

Panasonic will concentrate its management resources on these high-growth areas and contribute to resolving social issues through delivery of value to customers with "competitive devices" and "systems with competitive devices as the core." These include: low-loss and longer-guaranteed devices and systems for 5G base stations and data centers in the information-and communication-infrastructure category, small-sized high-efficiency and high-reliability devices and systems for electrification and xEV (Note) in the automotive CASE category, and package products combining devices with software and support services to production facilities etc. for labor-saving at factories. Panasonic will strengthen its device products with technologies essential to these products and enhance the attraction of system products through co-creation with customers, to achieve growth outpacing industry peers' over the medium to long term.

Note: xEV: electric vehicle [generic name for electric vehicles, hybrid electric vehicles, plug-in hybrid (electric) vehicles, and (hydrogen) fuel cell vehicles]

3) Foundations toward sustainable growth

Corporate Governance

Panasonic recognizes that its corporate governance practices constitute the key foundation in its efforts to enhance its medium- to long-term corporate value. As such, the Company promotes efforts to strengthen the effectiveness of its corporate governance structure under the Board of Directors and the Audit & Supervisory Board Member / Audit & Supervisory Board structure. The Board of Directors enhances the effectiveness of its supervisory functions and corporate decision-making functions through discussions on the vision of the Group towards the transition to a holding company system, and thorough deliberations leading up to the resolution of the replacement of the head of the optional Nomination and Compensation Advisory Committee. In addition, using the framework to evaluate the effectiveness of the Nomination and Compensation Advisory Committee and the Board of Directors, Panasonic is committed to activities for enhancing management flexibility and transparency.

Environment

Looking toward the "Panasonic Environment Vision 2050" which was formulated with the aim of helping to realize both better lifestyles and sustainable global environment, Panasonic is taking steps to promote efforts that involve reducing energy used, while generating energy in excess of such amounts consumed, by developing products, technologies and solutions relating to creation, storage, and conservation of energy and energy management. Towards realizing carbon neutrality, Panasonic also has been striving to "create circular-economy (Note 1) business" to accommodate changes in lifestyles and values of customers, having recognized that making effective use of resources as well as energy is an important challenge for the Group. Furthermore, in view of the TCFD (Note 2) Recommendations, the Company identifies risks and opportunities, including businesses determined as vulnerable to climate change, to analyze scenarios and assess measures.

Notes 1. Circular economy: an economic strategy aiming at sustainable growth without dependence on resource consumption

2. TCFD: Task Force on Climate-related Financial Disclosures, set up by the Financial Stability Board

Human Resources Strategy

The Panasonic Group, aiming for both profit growth and improved profitability, is committed to creating an organizational climate where each individual can take on challenges and fully deploy one's talents. To build a flexible and robust business structure resilient to drastic changes in business conditions, the Company has clarified the roles and responsibilities of the management by categorizing them into "executive officers" who will lead the structural reform of business for group-wide optimization, and "those in business execution layer" who are responsible for strengthening and transforming respective businesses, to drive motivation towards business transformation. Furthermore, for the business execution layer, a core part of Panasonic's business management, tasked with improving profitability and generating future competitive advantage in their respective businesses, in fiscal 2021 we introduced a compensation system that rewards results,

demands clearer accountability, and further encourages them to take up the challenge of instigating change for the future.

The Group has also constructed a global talent platform, as a way to strengthen the development of people who can play global roles, regardless of age, years of service, or nationality. Using a global talent database, which allows talent management information to be made visible and to be utilized, will allow postings or appointments and career or skill development beyond the boundaries of nations, regions, and Group companies, aiming to standardize talent management at a high level globally and improve its organizational abilities.

2. Risk Factors

Panasonic has established the "Global & Group Risk Management Committee" to promote overall risk management in order to accurately understand risks and reduce their impacts on our business management by implementing its countermeasures. This committee consists of members from the Corporate as well as Divisional companies and Regional headquarters and the corporate-wide risk management officer will be assigned from the group management as its chairman. Panasonic shall perform risk management that we comprehensively identify risks based on external and internal factors that may affect our business activities, and appoint the department in charge of risk owners. We evaluate such risks according to the common criteria (degree of impacts on the business management and to the society, and likelihood of occurrence, etc.) and determine the risks that should be prioritized when taking measures. With regard to risks that we judge as important based on the assessment, the committee in charge of those risks plays a central role in formulating and executing countermeasures, monitoring the status of such countermeasures, and implementing activities for improvement on an ongoing basis. The Global & Group Risk Management Committee regularly reports elements of important risks, countermeasures and monitoring results to the Board of Directors according to this management cycle.

Described below are some of the potential risks to its business activities that may have a material impact on investors' decisions. However, this is not an exhaustive list of all risks to Panasonic, and there can be unforeseeable risks that are not described below. These risks may substantially and adversely affect Panasonic's business, operating results, and financial condition.

Among the matters related to the business as well as accounting status stated in the securities report, below are the risks that the management recognizes that they may have a significant impact on the financial status, business performance and cash flow status of the consolidated companies. This section includes forward-looking statements and future expectations as of June 25, 2021, the filing date of this annual securities report.

(1) Risks Related to Economic Conditions

Changing economic conditions

Demand for Panasonic's products and services may be affected by economic conditions in the countries or regions in which its products and services are offered. Economic downturns and resulting demand shrinkage in its major markets worldwide may thus adversely affect its business, operating results, and financial condition. In fiscal 2022, the global economy is highly uncertain due to the global political and financial conditions in addition to the spread of protectionism, the novel coronavirus infection and the progress of vaccination. Japan is not an exception and its economy is likely to be affected by these global factors to a certain extent.

Regarding the impact of the spread of the novel coronavirus infection in the first quarter of fiscal 2021, the economic impact of sluggish markets resulted from the lowered demand in all segments, mainly automobile, but it has been recovering since then. In the second half of fiscal 2021, the adverse impact on demand was largely eliminated, with the exception of Connected Solutions business for the aviation industry and some of our business. In the aviation industry business, the recovery in passenger demand for air travel in fiscal 2022 is expected to be limited, and the adverse impact on the aviation industry business is expected to continue. If it becomes necessary to implement new business structural reforms in order to deal with these situations, there is a possibility that costs will increase as a result. In addition, if the global economy deteriorates more than expected, and a sudden structural change in society or a change in consumer behavior occurs, the business environment surrounding will be more severe than currently expected. As a result, Panasonic's business, business performance and financial position may be adversely affected.

Based on this situation, we have been striving to strengthen our business structure, including portfolio management based on our mid-term strategy that started in fiscal 2020 and to reduce fixed costs. In addition, in light of mid-to long-term social changes triggered by the spread of novel coronavirus infection, we are implementing initiatives to resolve social issues through Panasonic business.

Taking look at the "living" area of appliances and life solutions, we are strengthening the value appeal of our core devices, "Nanoe" and "Ziaino", in response to growing demand for air-conditioning and air quality. We aim to further popularize related products by raising awareness of our technological capabilities and their value.

With respect to "field processes" of Connected Solutions, there are many issues in the supply chain area, such as extreme demand fluctuations due to the spread of the novel coronavirus infection and an increase in the burden on logistics. We will accelerate the growth strategy with Blue Yonder Holding, Inc. ("Blue Yonder"), solve the management issues of our customers, strengthen our operational capabilities, reduce energy consumption and effectively utilize resources. Through this, we will contribute to the realization of a sustainable society.

As for the automotive "vehicle-mounted batteries," we will continue to expand the production capacity of our North American factories and utilize domestic factories in order to respond to growing EV demand and contribute to a sustainable world from the perspective of responding to climate change.

Looking at the "devices" of Industrial Solutions, we will concentrate on three core businesses (capacitors, electronic materials, FA solutions), and prepare for the future and expand our investment, in the high-growth area of in-vehicle CASE, information and communication infrastructure, and factory labor saving.

Currency exchange rate fluctuations

Foreign exchange rate fluctuations may adversely affect Panasonic's business, operating results, and financial condition because the costs and prices of its products and services and certain other transactions that are denominated in foreign currencies are affected by foreign exchange rate changes. In addition, foreign exchange rate changes also affect the yen value of Panasonic's overseas assets and liabilities denominated in local currencies because their amounts are translated and presented in Japanese yen in its consolidated financial statements. Generally, the appreciation of the yen against the local currencies of the countries in which Panasonic operates may adversely affect Panasonic's operating results. A weaker yen against a local currency, on the other hand, may have a favorable impact on Panasonic's operating results. However, the depreciation of the yen against certain currencies such as the RMB may adversely affect operating results in certain business sectors on a Japanese yen basis due to the price increase of imported products. In fiscal 2021, the euro and RMB depreciated compared to the previous year, but the dollar and some emerging market currencies moved to a stronger yen, which had a negative impact on overall performance. Excessive foreign exchange rate fluctuations may adversely affect Panasonic's business, operating results, and financial condition. With respect to these risks, we are working to reduce the impact on our business by using the foreign currency "Marie" allocating foreign currencies gained through our business activities to spending in the same foreign currencies, or "forward exchange contract transactions" designed to predetermine the selling or purchase price as well as the quantity of foreign currencies on a future date. We are also aiming to mitigate the impact on our business through the "local production for the local consumption type manufacturing", producing products in locations close to where they are consumed.

Interest rate fluctuations

Panasonic is exposed to interest rate fluctuation risks that may affect its interest expenses, interest income, or the value of its financial assets and liabilities. Consequently, interest rate fluctuations may adversely affect its business, operating results, and financial condition. In addition, our group raises business funds in the form of interest-bearing debt in yen and other currencies, and if interest rates rise due to changes in economic conditions and/or monetary policy by novel coronavirus infection, our funding costs may increase. As a consequence, this could have a negative impact on our group's business, as well as business performance and financial status.

Changing fund-raising environment

Panasonic raises funds for its business in various forms, such as bonds and commercial paper issued and borrowings from financial institutions. If the financial market becomes unstable or deteriorates, due to various external factors such as the impact of the spread of the novel coronavirus infection, financial institutions reduce lending to Panasonic, or rating agencies downgrade Panasonic Corporation's credit ratings, Panasonic's fund-raising ability may be reduced to levels at which it is not able to raise the necessary funds at the

necessary times under appropriate conditions, and Panasonic may have to incur additional costs in raising funds. This may adversely affect its business, operating results, and financial condition. In response to these risks, we are striving to strengthen our ability to generate funds, by improving the ability to generate sufficient cash flow coming in from businesses through measures such as strengthening business profitability and reducing working capital, and to strengthen our ability to generate funds through balance sheets by thoroughly looking into the assets held. In June 2018, we signed commitment line contract (Note) with a total of 700 billion yen with multiple financial institutions for a period of three years, but in June 2021, the contract expires. We have signed a new commitment line contract with a total of 600 billion yen for a period of 3 years. We are ensuring to secure sufficient liquidity, including the balance of cash and cash equivalents to mitigate adverse impact on management.

(Note) Commitment line contracts: A contract that allows us to receive a loan within the scope of the predetermined contract period and credit line that we have agreed with a financial institution.

Decreases in the value of stocks

Panasonic's financial assets include stocks of other companies around the world including Japan. A shrinkage in their value due to stock price declines or otherwise may reduce Panasonic Corporation stockholders' equity.

(2) Risks Related to Panasonic's Business Activities

Competition in the industry

Developing, producing, and selling a broad range of products and services, Panasonic faces many different types of competitors, from large international companies to small but rapidly growing specialized enterprises. Panasonic is strengthening its investments in strategically important businesses, but there may be business sectors in which its investments may not be as large or timely as competitors' or may not happen at all. These competitors may have greater financial strength, technological capabilities, and marketing resources than Panasonic in the respective competitive business sectors.

Product price declines

Being subject to intense competition worldwide, Panasonic may have difficulties setting product prices at levels at which it can secure sufficient profit. Although Panasonic makes efforts to reduce costs and develop high value-added products, greater downward price pressure than it can cope with through such efforts seriously affects Panasonic's ability to maintain or secure profits, especially when product demand is lower. In business-to-consumer (B to C) areas, amid accelerating changes in the structure of markets, such as a demand shift to emerging markets and lower-priced products, Panasonic's product prices in digital electronics and other business areas may decline. In business-to-business (B to B) areas, on the other hand, in spite of Panasonic's efforts, its business, operating results, and financial condition may be adversely affected by downward price pressure, decrease in demand for products, or pressure for capital investment from business partners that Panasonic highly depends on.

Barriers in international business activities

One of Panasonic's business strategies is business expansion in overseas markets. In these markets, Panasonic may be exposed to various risks other than foreign currency exchange risks, such as political instability (including wars, civil disturbances, conflicts, riots, and terrorist attacks), economic uncertainty, cultural and religious differences, and labor issues. Panasonic may also face barriers in the form of local commercial customs overseas that may make it difficult for Panasonic to collect accounts receivable in a timely manner or build or expand its relationships with business partners. Panasonic may also experience various political, legal, or other barriers, including restrictions on foreign investment or profit repatriation, the nationalization of local industries, changes in export or import regulations or foreign exchange controls, and changes in the tax system, including tax rate changes, and transfer pricing and other international taxation risks. With respect to products exported overseas, tariffs or other barriers or shipping costs may make Panasonic's products less price-competitive. Overseas business expansion may require significant investments that may not yield returns in the short term, and expenses involved in such investments may grow at a faster rate than the returns. In addition, the state of emergency, lockdown, and restrictions on going out in each country at the beginning of

the spread of the novel coronavirus infection last year had adverse impact on our business. Restrictions have already been relaxed in some countries, however, infection still spreads and lockdown continues in some countries and regions, and future spreads of infection may tighten restrictions on economic activities again, affecting our business, operating results and financial position.

Competition for innovation and de facto industry standards

Panasonic must develop and provide new products and services in a timely manner. In Panasonic's core businesses in both B to C and B to B areas, technological innovation is the central competitive factor. In cases where Panasonic fails to read future market needs and predict with reasonable accuracy and develop new technologies that will meet such needs, or technology developed or provided by Panasonic does not lead the market and, instead, one developed by a competitor is recognized as the de facto standard, Panasonic may lose its competitive position in new markets.

Competition in recruiting and retaining skilled employees

Panasonic's future success depends largely on its ability to attract and retain talented personnel in such fields as research, development, technology, manufacturing, and management. However, the number of qualified personnel in each field is limited and Japan's working population is on the decrease; therefore, competition for such resources is intensifying. In this context, an attractive corporate culture must be developed and continuously pursued. If Panasonic is not able to retain its existing personnel and attract additional qualified staff, its business, operating results, and financial condition may be adversely affected.

Alliances with other companies and corporate takeovers

Panasonic has formed strategic alliances such as business partnerships or joint ventures with, made strategic investments in, and also purchased other companies in order to introduce new products and services. Furthermore, the importance of such strategic alliances as well as corporate takeovers is increasing. In the strategic alliances, Panasonic conducts prescribed deliberation according to the stage of consideration, where we verify the consistency with the business strategy, omissions in consideration, the validity of prices and contract details, identification of risks and the integration plan. Panasonic may not be able to successfully collaborate or achieve expected synergies with its alliance partners, or recover some or all of its respective investments.

Furthermore, the alliance partners may make decisions regarding their business undertakings for Panasonic that may be contrary to Panasonic's interests. In addition, if such partners change their business strategies, then Panasonic may find it difficult to maintain these collaborative relationships. With respect to corporate takeovers, Panasonic may have to incur substantial expenses in relation to such takeovers, or may not be able to fully achieve expected results or may have to incur unexpected losses in connection with business integration or restructuring after such takeovers.

At the board of directors meeting on April 23, 2021, Panasonic resolved to acquire an additional 80% of the stakes of Blue Yonder, a company specializing in supply chain software in the United States, and make the company a wholly owned subsidiary. We have announced that we have reached a final agreement with Blue Yonder and its substantial shareholders. Through this transaction, all shares will be acquired together with the 20% shares acquired in July 2020.

Through this transaction, Panasonic will accelerate the realization of on-site process innovation and maximize the synergies between the two companies by incorporating the capabilities of Blue Yonder in various cyber fields. However, there is a possibility that these expected effects may not be fully obtained, if we cannot retain talented people, including key management members, or maintain employee morale, if the competitiveness of Blue Yonder is significantly reduced due to changes in the business environment or competitive situation or if we cannot maintain good relationships with important customers and other stakeholders. In addition, with the execution of this transaction, a considerable amount of goodwill and intangible assets will be recorded in the consolidated statements of financial position, but if it is judged that the expected effect will not be obtained due to changes in the business environment and competitive situation, and the recoverable amount falls below the carrying amount, an impairment loss may occur, which may affect our operating results and financial position. (For details, see "(7) Other risks Impairment of non-financial assets".

The Group will steadily promote PMI (Post Merger Integration) with the aim of growing Blue Yonder's business and maximizing synergies between the two companies. Specifically, the two companies will promote preparations for the execution of a new management system and collaboration plan to reduce risk after the completion of the transaction.

Risks in the Result of Restructuring

Panasonic owns a large number of subsidiaries and associated companies, etc., and may carry out group-wide restructuring (including transferring certain businesses or shares to other companies and restructuring organizations or sites within the group) in order to enhance its business management efficiency and competitive strengths. However, Panasonic may not be able to fully achieve the expected results from ongoing or future restructuring projects.

Panasonic is scheduled to implement a company split with the current Panasonic Corporation as the split company in order to strengthen the competitiveness of each operational company business from a medium- to long-term perspective. We plan to shift to a holding company system with the current Panasonic Corporation as the parent company from fiscal 2023. Each operating company, which will be spun off due to the transition to a holding company system, will work to significantly strengthen its competitiveness through swift decision-making in response to changes in the external environment and flexible system design according to business characteristics. On the other hand, the holding company will actively support the strengthening of the competitiveness of each operating company, promote growth strategies from a group-wide perspective, and strive to increase the corporate value of the group. However, in the current and future reorganization, there is a possibility that the initially expected results may not be fully obtained due to the transition to the holding company system and post-transition business management issues, decrease in decision-making speed due to multi-layered organization, and the increase in costs for independent management operations at each company.

In response to such risks, the current company system will be abolished and new organization system will be launched in October 2021 with an eye on the structure of the holding company system from April 1, 2022. Through such reorganization, we will make necessary adjustments for group operations, identify issues in the transition, and implement countermeasures. We will make efforts to mitigate risks in the transition to a holding company system and business operations after the transition. Regarding governance, we will transfer necessary authority to operating companies and strengthen decision-making expertise and speed in order to thoroughly strengthen business competitiveness. We will continue to collect appropriate information and consider and build specific systems and institution for implementing governance based on it, without changing the perspective of strengthening governance for the entire group that we have implemented so far.

In addition, when shifting to the holding company system this time, we will eliminate the layering of indirect functions and the duplication of functions to downsize the indirect organization. We establish a new company to handle professional services (indirect department) (scheduled for fiscal 2023), visualize the value provided by indirect functions as professional functions and operation functions corporate-wide, and promote the efficiency and sophistication of indirect operations to improve the efficiency of indirect fixed costs.

Shortage of and price hikes for raw materials etc.

For Panasonic's manufacturing operations, the ability to obtain raw materials, parts and components, equipment, services, etc. in a timely manner in required quantities is essential, and Panasonic uses reliable suppliers. However, in the case of disasters, accidents, or supplier bankruptcies leading to temporary short supply or depleted stock, or increased industry demand, Panasonic may have difficulties finding alternative or additional suppliers or substitute parts. This may adversely affect Panasonic's business. Although Panasonic and its suppliers agree on purchase prices in contracts, the prices of raw materials, including iron and steel, resin and non-ferrous metals, and parts and components may increase due to changes in supply and demand conditions or the inflow of investment funds.

In response to the outbreak of the novel coronavirus infection, at the beginning of the epidemic in fiscal 2021, we conducted a simultaneous survey of all affected suppliers and items, including secondary suppliers, and implemented countermeasures. Through these efforts, we have identified potentially problematic customers and matters, and ensured to secure alternative suppliers and locations. As a result, we overcome those difficulties initially experienced in procuring parts and managed to return to near pre-coronavirus levels on

the supply side. On the other hand, due to the novel coronavirus infection, there is a possibility that the supply of some parts will be hindered due to rapid changes in the supply and demand environment in the world. We are working to reduce such risks responding to the risk of business interruption by building close relationships with suppliers, implementing BCP (Business Continuity Plan) at major domestic and overseas bases, and utilizing and strengthening procurement functions as whole group.

Customers' financial means and conditions

Some of Panasonic's customers may purchase products and services from it on credit. If customers who have substantial accounts payable with Panasonic encounter financial difficulties and are unable to make payments on time, Panasonic's business, operating results, and financial condition may be adversely affected.

(3) Risks Relating to the Result of Panasonic's Management Targets Achievements

Panasonic will promote specific measures to execute its mid-term strategy, starting in fiscal 2020. While these strategies are based on the information, analysis, and other factors that we deemed appropriate at that time when the strategy was formulated, there are still high uncertainties in the global economy in fiscal 2022 in the status of novel coronavirus infections, although it is depending on the vaccination status, and we may not be able to achieve expected results due to the adverse impact of the world economy and other factors. In order to press ahead with the mid-term strategy, we will make our best efforts to minimize the risk of failure to achieve these results by regularly monitoring the progress to identify issues, and reviewing those identified issues in light of trends in the global economy as well as business environment to come up with appropriate measures on a timely manner.

(4) Risks Related to Legal Regulations and Litigations

Direct or indirect costs resulting from product liability or warranty claims

Panasonic incorporates knowledge about unsafe events and prevention into corporate-wide safety design standards to thoroughly manage risks on a daily basis. However, if quality problems occur because of product defects (including safety incidents), Panasonic may be held liable for damage (including indirect damage) arising from such defects but not fully covered by product liability insurance and may have to incur significant expenses to handle such problems. Due to the occurrence of these problems, Panasonic may experience the deterioration of its image or reputation or may not be able to retain its customers. As a result, its business, operating results, and financial condition may be adversely affected.

Damage related to intellectual properties rights

Panasonic may not be granted patents for its patent applications and adequate protection in the form of intellectual property rights. In addition, intellectual property rights may be unavailable or limited in some countries in which Panasonic operates. Third parties may also develop technologies that are protected by intellectual property rights, and such technologies may be completely unavailable or available only on terms unfavorable to Panasonic. Panasonic has licenses for patents and other intellectual property rights from third parties. However, such licenses may be made unavailable or the license terms may be modified to Panasonic's disadvantage. In addition, Panasonic may be exposed to litigation etc. regarding intellectual property rights, or it may have to initiate litigation etc. in order to protect its intellectual property rights. In such cases, Panasonic may have to incur significant expenses and spend large management resources. Furthermore, if allegations of Panasonic's infringement of a third party's intellectual property rights are approved, Panasonic may be prohibited from using certain important technologies or held liable for heavy damages.

Changes, etc. in accounting standards and tax systems

The introduction of new accounting standards or tax systems, or changes thereof, which are applicable to Panasonic, may have adverse effects on its operating results and financial condition. In addition, if tax authorities have different opinions from Panasonic on its tax declarations, Panasonic may have to make larger tax payments than estimated.

Environmental regulations or issues

Panasonic aims to create a society where people can achieve a better and more comfortable life with clean energy in order to achieve both a "better life" and a "sustainable global environment". We are working to reduce the amount of energy we use and to create and utilize more energy than we use. However, Panasonic is subject to environmental laws and regulations such as those relating to climate changes, natural resources, water, biodiversity, chemical substances, waste materials, product recycling, and soil, groundwater and air contamination, and although we are aiming to comply with them, we may be held liable for certain related payments or compensation. Furthermore, if these regulations become stricter to provide for an additional duty to eliminate the use of environmentally hazardous materials etc., or if Panasonic decides to add to its ecological efforts in response to greater attention to corporate social responsibility, Panasonic's business, operating results, and financial condition may be adversely affected by the payment of compensation for the violation of these laws and regulations or investments in such efforts.

Information security risks

In the ordinary course of business, Panasonic may obtain information regarding customers' privacy and credit standing (including their personal information) and receive confidential information regarding other companies etc. In addition to information regarding customers and other companies etc., Panasonic also handles its own trade secrets (including Panasonic's technical information). This information may be leaked due to intentional acts such as unauthorized access to Panasonic's systems and cyberattacks or negligence. Furthermore, an increasing number of Panasonic's products, services, and production facilities are connected to the Internet, and Panasonic has been implementing security measures to protect them from external threats. However, Panasonic may be exposed to unexpected intrusions via networks to, or unauthorized operations of its products or services, which may lead to the leakage of personal information, the release of information to outside parties, the suspension of services, or adverse effects on the processes. Such events may result in Panasonic becoming liable to pay compensation to the damaged parties or result in significant expenses to manage these issues or otherwise negatively impact Panasonic's business and image.

Disadvantages and legal liability under other legal regulations etc.

Panasonic operates pursuant to the regulations of Japan and all other countries and regions of the world, including legal regulations regarding commercial transactions, antitrust rules, intellectual property rights, product liability, environmental protection, consumer protection, labor relations, financial transactions, internal control and business taxation, as well as government permission required for business operation and investment, legal regulations regarding telecommunications businesses and the safety of electric products, national security and import/export. If, due to the implementation of stricter legal regulations or the introduction of stricter interpretations by governmental authorities, Panasonic finds it difficult to comply with these legal regulations for technical or economic reasons and continues the relevant business, then such business will have to be limited. Panasonic may also have to incur additional expenses in order to ensure its compliance with these legal regulations etc. In addition, in the event that governmental authorities find or determine that Panasonic has violated such legal regulations or its internal controls for compliance are inadequate, Panasonic may be subject to regulatory sanctions, including monetary penalties, as well as criminal sanctions or civil lawsuits for damages, and may also suffer reputational harm.

"Panasonic Code of Conduct" stipulates that Panasonic should engage in fair business practices as a "company as a public entity of society", clearly states compliance with laws and corporate ethics, and shares the basic stance of the Company with all directors and employees. In addition, we are working to ensure thorough compliance based on global regulations against serious risks such as "violation of competition law" and "bribery / corruption." In addition, we are working to strengthen awareness of ethics and legal compliance by implementing compliance measures for employees throughout the year in response to various risks. Furthermore, as a centralized whistleblower contact point, we have established a global hotline that allows us to make reports from domestic and overseas bases and business partners, and we are working to detect and correct problems at an early stage through appropriate internal investigations.

(5) Risks Relating to Disasters, Accidents, and Unpredictable Events

Panasonic conducts manufacturing, sales, research and development, and other activities globally and has facilities all over the world. If an earthquake, tsunami, flooding or other natural disaster (including those caused by climate changes), fire, explosion, war, terrorist attack, epidemic, or the like occurs, Panasonic's employees, facilities, information systems, or other assets may be seriously injured or damaged and part of its operation may be brought to a halt, resulting in delays in production and shipment and repair expenses for damaged facilities etc. In addition, if such natural disasters or accidents or other unpredictable events occur in Panasonic's supply chain, including parts suppliers and product purchasers, Panasonic's production and sales activities etc. may be adversely affected by temporary short supply or depleted stock from suppliers or a temporary stoppage or limited production at the product purchasers.

To reduce these risks, we regularly review our BCP (Business Continuity Plan). In addition, we carry out training of "corporate-wide emergency response headquarters" every year in order to strengthen our ability to respond in emergencies. In particular, regarding the novel coronavirus infection, we are promoting telework to prevent infection of employees, and from fiscal 2021, this training also has been carried out at remote meeting, assuming that there are many teleworkers in the event of a disaster.

(6) Risks related to the novel coronavirus infections

Except for the impact of the aforementioned decline in demand in some industries, the novel coronavirus infection has not had a significant adverse effect on the entire Panasonic group. However, the spread of the infection still continues, and the infection may still affect its business, operating results, and financial condition. Panasonic has established the rules on corporate-wide emergency measures in preparation for events such as natural disasters and pandemics that could have a major impact on the continuation of our business management. Following the WHO declaration of global health emergency in response to the novel coronavirus outbreak, we set up the corporate-wide emergency response headquarters based on these rules on January 31, 2020. Subsequently, our Divisional companies established their own emergency headquarters in order to deal with the possible emergency situation in collaboration with the corporate-wide headquarters. From the perspective of maintaining employee health and business continuity, we are implementing measures such as giving detailed corporate-wide notifications based on the infection situation in Japan and overseas and the guidelines of the government of each country. Also, we have formed teams for management, procurement, public relations, etc. centered on functions within the corporate-wide emergency response headquarters, and are working to ensure stable business continuity by responding professionally to each issue. In addition, for employees, we thoroughly implement infection prevention measures inside and outside the workplace, and in the indirect department, we continue to implement infection prevention measures such as working from home as much as possible.

(7) Other Risks

Panasonic's pension plan benefit obligations

Panasonic has an externally funded retirement pension plan for employees in Japan who meet certain eligibility requirements. Panasonic and some domestic subsidiaries made transition from the defined benefit pension plan to a defined contribution pension plan for a portion of the reserve (future portion) after the transition date and a portion of the reserve (past portion) before the transition date. However, as for those portions that have not been transferred to the defined contribution pension plan, it may need to lower the discount rates applicable to the liabilities associated with the defined benefit pension plan due to a decline in interest rates, and may also lead to a decline in the fair value of plan assets due to a decline in stock prices. As a result, the retirement benefits liabilities may increase and the equity attributable to the owners of the parent company may decrease.

Impairment of non-financial assets

Panasonic has many non-financial assets, such as PPE (Property, Plant, and Equipment), goodwill, intangible assets and right-of-use assets. With regard to non-financial assets (other than inventories and deferred tax assets etc.), an assessment is made for any indications of impairment in each such asset or cash-generating unit ("Asset"). If any such indication exists, then the recoverable value of the relevant Asset is estimated and impairment tests are performed. For goodwill and intangible assets with indefinite useful lives, impairment tests are performed annually, regardless of whether or not there are indications of impairment. Depending on the results of impairment tests, it may be necessary to reduce the carrying amount of the relevant asset to its recoverable amount and recognize an impairment loss. The estimate of the recoverable amounts includes certain assumptions about the impacts of the novel coronavirus infections, but there is no precedent that can be used as a reference for accounting estimates, and there is significant uncertainty with respect to the overall severity and duration of the spread of the novel coronavirus disease in the future. Accordingly, actual results and outcomes in future reporting periods may differ materially from the Company estimates.

Recognition of deferred tax assets

With regard to deferred tax assets, Panasonic recognizes only those that are probable to be utilized against Panasonic's future taxable income. Recognized deferred tax assets are reviewed at the end of each period. Any reductions on account of the reduced probability of tax benefits being realized may result in greater corporate income tax expenses to Panasonic. The estimate of future taxable income includes certain assumptions about the impacts of the novel coronavirus infections, but there is no precedent that can be used as a reference for accounting estimates, and there is significant uncertainty with respect to the overall severity and duration of the spread of the novel coronavirus disease in the future. Accordingly, actual results and outcomes in future reporting periods may differ materially from the Company's estimates

Operating results and financial conditions of companies under the equity method

Panasonic Corporation has stocks in several companies to which the equity method applies. Each such company operates pursuant to its own business and financial policies. Panasonic Corporation has significant influence, but not control, over their policy making processes; therefore, Panasonic usually does not make policies for them. If these companies' business results and financial condition worsen, then Panasonic's operating results and financial condition may be adversely affected.

3. Management Analyses of Consolidated Financial Position, Operating Results and Cash Flows

(1) Significant Accounting Policies and Estimates

The Company's consolidated financial statements are prepared in conformity with IFRS. The preparation of consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates and assumptions are reflected in recoverability of deferred tax assets, measurement of defined benefit obligation and impairment of non-financial assets (including goodwill). Actual results could differ from those estimates.

The details of critical accounting policies and estimates are stated in "V Consolidated Financial Statements, Note 3. Significant accounting policies." Accounting estimates includes certain assumptions regarding the impact of the novel coronavirus infections, but there is no precedent that can be used as a reference for accounting estimates, and there is significant uncertainty with respect to the extent to which the novel coronavirus disease would spread in the future, and the duration of the pandemic. Under these circumstances, as accounting estimates are made based on available information, actual results and outcomes in the future reporting periods may differ materially from the Company's estimates.

(2) Production, Orders Received and Sales

The Company's production and range of sales items is extensive and diverse. Even for the same type of products, their capacity, structure and format are not necessarily uniform. Due to the nature of the products, in principle, the Company adopts a production system that operates mainly based on projection.

Since the Company is engaged in production activities in a way that the product inventories are kept at a certain level, production results are generally similar to the sales performance.

(3) Analyses of Operating Results for Fiscal 2021, ended March 31, 2021

During the year ended March 31, 2021 (fiscal 2021) under review, the global economy saw a decline in consumption and investment due to the prolonged impact of COVID-19. Despite the economic measures taken in various countries and the recovery of share prices, the economic outlook remained difficult to predict, given the growing uncertainties over the political and financial circumstances as well as the risk of trade stagnation. Japan was also affected by these global conditions to no small extent.

Under such a management environment, the Company has been capturing opportunities reflecting changes in society brought about by COVID-19 and promoting measures for solutions. At the same time, initiatives such as reducing fixed costs have been taken in line with business conditions. In addition, based on the Mid-term strategy started from fiscal 2020, the Company continued to execute portfolio management in "Core growth business," "Co-creation business," and "Revitalization business" as well as to enhance its management structure.

More specifically, with regard to the investment for growth in the Gemba (operational frontlines) Process business, the Company made a strategic equity investment obtaining 20% of the voting rights in Blue Yonder Holding, Inc. ("Blue Yonder"), a U.S.-based specialized supply chain software provider, in July 2020 (Note 1). This investment aims to enhance the Company's solution capabilities and accelerate its business model transformation through acquiring innovative solutions and business model that Blue Yonder provides globally.

With regard to the enhancement of competitiveness through collaboration and co-creation with external partners, in the automotive prismatic battery business, Prime Planet Energy & Solutions, Inc. which is a joint venture with Toyota Motor Corporation, has started its operation since April 1, 2020. The joint venture is

working to develop highly competitive batteries that have excellent quality, performance and cost effectiveness, and to provide a stable supply of batteries.

With regard to the improvement of profitability, in the semiconductor business, the Company completed the transfer of its semiconductor business to Nuvoton Technology Corporation, a Taiwan-based semiconductor company in September 2020. Also, in the solar business, for the purpose of optimization in the development and production capability, the Company ceased its U.S. production of photovoltaic cells and modules at the plant in Buffalo (New York, U.S.) in June 2020. The withdrawal was completed in September 2020. Additionally, the Company announced in February 2021 to withdraw from its in-house photovoltaic production for residential, public and industrial-usage during fiscal 2022. (Note 2).

Furthermore, in November 2020, the Company resolved to transition to a holding company system scheduled for April 2022. The aim of the transition is to strengthen the competitiveness of its business from a medium- to long-term perspective. As a result, each operating company will work to significantly enhance its business competitiveness through swift decision-making in response to changes in the external environment and flexibly develop systems in accordance with business characteristics. On the other hand, the holding company will continue to support the business growth of each operating company and define growth areas from the perspective of optimizing the group as a whole, thereby striving to enhance the corporate value of the entire group.

Notes 1. At the Board of Directors' meeting held on April 23, 2021, the Company resolved to acquire additional 80% of the shares of Blue Yonder to make it a wholly owned subsidiary.

2. The Company will continue the sales of photovoltaic modules under the Panasonic brand in Japan by subcontracting production to its manufacturing partners. For the global market outside Japan, the Company will also continue to sell outsourced photovoltaic modules as it has been doing in North America and other regions.

1) Sales

The Company's consolidated group sales for fiscal 2021 decreased by 11% to 6,698.8 billion yen from a year ago. Domestic sales decreased due mainly to the impact of the spread of COVID-19 as well as the impact of deconsolidation in housing related businesses, despite increased sales in products such as air purifiers. Overseas sales decreased due largely to the impact of the spread of COVID-19, despite increased sales in products such as mounting machines at Process Automation, power storage systems for information- and communication-infrastructure as well as industrial-use motors.

2) Operating Profit

Operating profit decreased by 12% to 258.6 billion yen from a year ago. Adjusted operating profit (Note) increased due to fixed cost reductions for management structure enhancement as well as increased sales for business such as air-conditioning and indoor air quality, automotive batteries and information- and communication-infrastructure, which capture business opportunities reflecting changes in society from a medium- to long-term perspective. Operating profit decreased due largely to the impact of gain from business transfer in the previous year.

Note: Adjusted operating profit: sales - cost of sales - SG&A

3) Profit before Income Taxes

Finance income decreased from 31.4 billion yen the previous fiscal year to 20.8 billion yen. Finance expenses decreased from 34.1 billion yen to 18.6 billion yen. As a result, profit before income taxes was 260.8 billion yen, compared to 291.1 billion yen the previous fiscal year.

4) Net Profit attributable to Panasonic Corporation Stockholders

Income taxes were 76.9 billion yen, compared to 51.0 billion yen a year ago. As a result, net profit attributable to Panasonic Corporation stockholders totaled 165.1 billion yen, compared to 225.7 billion yen a year ago.

Also, net profit attributable to Panasonic Corporation stockholders per share was 70.75 yen, against 96.76 yen the previous fiscal year.

5) Operating Results by Segment for Fiscal 2021

The Panasonic Group is divided into seven companies for business management, and they support the autonomy of each business division and execute businesses in their respective areas on a global scale. The results of their performance are classified, evaluated and disclosed in the five reporting segments of "Appliances," "Life Solutions," "Connected Solutions," "Automotive," and "Industrial Solutions."

a. Appliances

Sales decreased by 4% to 2,494.4 billion yen from a year ago.

This is due mainly to the impact of deteriorating market conditions during the first half as well as the impact of streamlining in product lines for TVs and digital cameras, despite continued steady sales in products such as room air-conditioners, refrigerators and washing machines in Japan and China, and other regions saw signs of recovery.

Looking at the main Business Divisions (BDs), sales in the Heating & Cooling Solutions BD decreased due to struggling sales of mainly room air-conditioners in Asia and India, despite steady sales of room air-conditioners in China and Northeast Asia, as well as heat pump water heaters in Europe.

In the Kitchen Appliances BD, sales increased due to steady sales of refrigerators and cooking appliances in Japan, China, and Northeast Asia.

In the Laundry Systems and Vacuum Cleaner BD, sales increased due to brisk sales of drum-type washing machines in Japan, China, and Northeast Asia.

In the Smart Life Network BD, sales dropped as a result of streamlining product lines for TVs and digital cameras, particularly in Europe.

Operating profit increased 48.6 billion yen to 104.3 billion yen from a year ago, as a result of the effect of improved profitability outside Japan and fixed cost reductions and sales promotion expenses reductions in addition to solid performance of domestic businesses, especially of the home appliances business.

b. Life Solutions

Sales decreased by 21% to 1,507.3 billion yen from a year ago, because, in addition to the deconsolidation of the housing related businesses, sales of wiring devices and lighting fixtures decreased in the domestic non-residential market, while overseas sales also declined due to lockdowns in India and Malaysia, despite strong performance of the IAQ (Indoor Air Quality) business.

Looking at the main BDs, sales in the Lighting BD dropped due to the business transfer in Europe and weak demand.

In the Energy Systems BD, although overseas sales in the electric materials business recovered, especially in India, domestic sales of wiring devices, etc. were weak as a result of the delays in non-residential construction and renewal projects. Accordingly, overall BD sales decreased due not only to the reasons given above, but also to other reasons such as sales reductions inside and outside Japan and withdrawal of a production site in North America in the solar cell business.

At Panasonic Ecology Systems Co., Ltd., sales increased due to a significant sales increase of air purifier/sterilizers "Ziaino" in the IAQ business as well as strong sales of air purifiers in Japan and China.

In the Housing Systems BD, sales decreased due to such reasons as deterioration in market conditions and loss of recruitment opportunities caused by the spread of COVID-19.

Operating profit decreased 110.9 billion yen to 69.2 billion from a year ago, because favorable effects of higher profit from sales in the IAQ business and fixed cost reduction were offset by a reaction to the gain from business transfer etc. in the housing business in the previous fiscal year, in addition to losses on lower sales due to weak overall demand and recording of restructuring expenses.

c. Connected Solutions

Sales decreased by 21% to 818.2 billion yen from a year ago, declining overall because strong sales in the process automation business fell short of offsetting the adverse impact on other businesses of the market downturn caused by the spread of COVID-19.

Looking at the main BDs, Panasonic Avionics Corporation saw a decrease in sales due to a substantial sales decline in the in-flight entertainment and communication systems business and repair & maintenance services triggered by a major reduction in aircraft production and significant decrease in the number of flights.

In the Process Automation BD, sales of welding equipment decreased due to sluggish demand. However, overall BD sales increased as a result of strong sales of mounting machines for 5G equipment and ICT (Information and Communication Technology) devices.

In the Media Entertainment BD, sales of remote cameras were strong due to growing demand. However, overall BD sales dropped with decreased sales of projectors and other products resulting from event cancellations worldwide.

In the Mobile Solutions BD, sales decreased as a result of a reactionary drop in sales after the exceptional demand related to the discontinuation of Windows 7 (Note) support in the previous fiscal year and deterred investments by companies.

Panasonic System Solutions Japan Co., Ltd. saw a decline in sales, affected by the postponement of Tokyo 2020 Projects and deferred investments by leading companies.

The segment recorded an operating loss of 20.0 billion yen, 112.0 billion yen down from a year ago, mainly because of a reaction to recording a gain on the transfer of the security systems business in the previous fiscal year and the recording of impairment losses, in addition to sales decline in the avionics and other businesses.

Note: Windows is a trademark of Microsoft Corporation in the U.S. registered in the U.S. and other countries.

d. Automotive

Sales decreased by 10% to 1,339.4 billion yen from a year ago.

Both the automotive solution business and the automotive batteries business saw a decline in sales on a full year basis as a result of a significant decrease in automotive production in the first half of the fiscal year due to the spread of COVID-19, despite a rapid recovery in demand thereafter.

In the automotive solution business, steady progress has been made in portfolio replacement with sales growth of cockpit systems, on which Panasonic focuses its resources.

In the automotive batteries business, Panasonic has endeavored to promote further technological innovation to meet customers' needs by introducing a new high-capacity cylindrical lithium-ion battery product with improved energy density. Through the introduction of this technology, the production capacity of the North America factory for batteries has reached its target of 35GWh.

The segment recorded an operating profit of 10.9 billion yen, 57.5 billion yen up from a year ago. There was the impact of decreased sales due to the spread of COVID-19.

On the other hand, the automotive solutions business saw a significant increase in profit from a year ago, as a result of a rebound from the recognition of impairment losses on goodwill in the previous fiscal year, in addition to a substantial reduction in fixed costs by accelerating measures to enhance the management structure.

Meanwhile, the automotive batteries business also saw an increase in profit because of the rationalization of materials for cylindrical lithium-ion batteries and effects of introducing a new high-capacity product, as well as the recording of profits from the establishment of a joint venture engaged in the prismatic lithium-ion battery business. Furthermore, the automotive cylindrical battery business recorded a profit on a full year basis for the first time since the establishment of the North America factory for batteries.

e. Industrial Solutions

Sales decreased by 2% to 1,255.5 billion yen from a year ago, mainly due to the effects of the transfer of the semiconductor business, although the adverse impact of the spread of COVID-19 in the first half of the fiscal year was made up for by the recovery in market conditions in the second half.

Looking at the main businesses, sales of industrial motors expanded in the systems business, reflecting a strong semiconductor production equipment market and recovery in demand for production facilities in China. Moreover, the systems business saw an increase in sales due to robust sales of power storage systems for data centers, supported by growing data traffic volume along with the further advancement of informatization, as well as a recovery in sales of automotive components such as relays and switches in the second half of the fiscal year.

In the devices business, sales of capacitors for environmentally friendly vehicles recovered early, and capacitors for data centers also sold well. However, overall sales decreased due to weaker sales of micro batteries resulting from stagnant industrial activities caused by the spread of COVID-19, in addition to struggling sales of substrate materials for base stations following the U.S.-China trade dispute.

The semiconductors, LCD panels, and other businesses recorded lower sales, affected by the business transfer and business contraction.

Operating profit increased 61.6 billion yen to 66.2 billion yen from a year ago, mainly due to a rebound from the recording of restructuring expense in the previous fiscal year, in addition to increases in sales and profit of industrial motors, as well as of capacitors and power storage systems, especially for data centers, and efforts to reduce fixed costs and promote the rationalization of materials.

(4) Risks Materially Affecting Panasonic's Business, Operating Results and Financial Conditions

Refer to "2. Risk Factors."

(5) Financial Conditions and Liquidity

1) Liquidity and Capital Resources

The Panasonic Group's basic policy is to generate necessary funds for its business activities through its own efforts. The generated funds are utilized efficiently through internal Group finance operations. In cases when it becomes necessary to secure funds for purposes such as for working capital or business investments, corporate financing is secured from an external source by appropriate means after due consideration of the Group's financial standing and financial market conditions.

(Cash)

Cash and cash equivalents as of March 31, 2021 were 1,593.2 billion yen, increased by 576.7 billion yen compared with the end of the previous fiscal year.

During fiscal 2021, the Group raised working capital, etc., mainly by issuing commercial papers (CPs). The Group has secured cash and cash equivalents over one trillion yen as a reserve for risks of aggravating financial economy environments, etc. The Group issues the unsecured straight bonds of 200.0 billion yen in December 2020 and allots redemption flows from the CPs to ensure medium- to long-term financing.

As a result, the balance of unsecured straight bonds was 880.0 billion yen, the balance of unsecured USD - denominated straight bonds was USD 2.5 billion as of March 31, 2021.

(Interest bearing debt)

Interest-bearing debt decreased to 1,447.4 billion yen as of March 31, 2021 from 1,471.3 billion yen at the end of the previous fiscal year. This is due to the repayments of Commercial Paper (CP) and other factors despite the issuance of unsecured straight bonds. Panasonic entered into three-year commitment line agreements (Note) with several banks in June 2018 to prepare for financing risk in the precarious financial and economic environment. The upper limit for unsecured borrowing based on the agreements is a total of 700.0 billion yen, but there is no borrowing under this agreement.

Note: Commitment line agreements: contracts made with financial institutions to secure financing subject to pre-agreed limits on the time period and commitment line

(Ratings)

The Company has obtained credit ratings from Rating and Investment Information, Inc. (R&I), S&P Global Ratings Japan Inc. (S&P), and Moody's Japan K.K. (Moody's). The Company's credit ratings as of March 31, 2021 are as follows.

R&I: A (Long-term, Outlook: Stable), a-1 (Short-term)

S&P: A- (Long-term, Outlook: Stable), A-2 (Short-term)

Moody's: Baa1 (Long-term, Outlook: Negative)

2) Cash Flows

The Company recognizes the importance of increasing free cash flow by strengthening business profitability and developing businesses over the mid- to long-term. The Company also works simultaneously to create cash flows through continuous reductions of working capital, revisions of asset holdings and other measures.

Net cash provided by operating activities for fiscal 2021 was 504.0 billion yen and net cash provided by investing activities was 176.6 billion yen. Free cash flow, the total of the two, improved by 456.4 billion yen from the previous year to an inflow of 680.6 billion yen,

A detailed analysis of cash flows is as follows.

(Cash flows from operating activities)

Net cash provided by operating activities for the year ended March 31, 2021 amounted to 504.0 billion yen, compared with an inflow of 430.3 billion yen a year ago. This is due mainly to one-off payment a year ago.

(Cash flows from investing activities)

Net cash provided by investing activities amounted to 176.6 billion yen, compared with an outflow of 206.1 billion yen a year ago. This is due mainly to capital investment controls, proceeds from the establishment of a joint venture in the automotive prismatic battery business as well as transfer of assets, despite an equity investment in Blue Yonder.

(Cash flows from financing activities)

Net cash used in financial activities amounted to 177.7 billion yen, compared with an inflow of 48.2 billion yen a year ago. This is due mainly to a decrease in balance of short-term bonds during fiscal 2021 as well as the issuance of U.S. dollar-denominated senior notes a year ago, despite the issuance of domestic straight bonds during fiscal 2021.

Taking factors such as exchange fluctuations into consideration, cash and cash equivalents totaled 1,593.2 billion yen as of March 31, 2021, increased by 576.7 billion yen, compared with a year ago.

3) Capital Investment and Depreciations

The Panasonic Group makes capital investment based on a policy of steady investments primarily in key businesses for future growth. Capital investment in fiscal 2021 (tangible assets only) decreased 37.9 billion yen to 231.0 billion yen from 268.9 billion yen a year ago. The main capital investments have been made in production facilities in the U.S. for lithium-ion batteries, etc. for automotive use in the Automotive segment, in production facilities for electronic components, control equipments, etc. in the Industrial Solutions segment, and in production facilities for electric appliances for home use in the Appliances segment.

Depreciation (tangible assets only) decreased 25.6 billion yen to 179.4 billion yen from 205.0 billion yen a year ago.

4) Assets, Liabilities and Equity

The Company's consolidated total assets of March 31, 2021 were 6,847.1 billion yen, an increase of 628.6 billion yen from March 31, 2020. This is due mainly to an increase in cash and cash equivalents as well as an equity investment in Blue Yonder, despite decreased assets as a result of the establishment of a joint venture in the automotive prismatic battery business and the transfer of Company's semiconductor business.

The Company's consolidated total liabilities were 4,078.6 billion yen, an increase of 15.9 billion yen from March 31, 2020. This is due mainly to an increase of income taxes payable.

Panasonic Corporation stockholders' equity increased by 595.7 billion yen to 2,594.0 billion yen, compared with March 31, 2020. This is due mainly to recording of Net profit attributable to Panasonic Corporation stockholders and Other comprehensive income. With non-controlling interests added to Panasonic Corporation stockholders' equity, total equity was 2,768.5 billion yen.

As a result, the ratio of Panasonic Corporation stockholders' equity was 37.9%, increasing from 32.1% on March 31, 2020.

4. Material Agreements, etc.

(1) Cross License Agreement

Party	Country	Contract description	Contract period
Koninklijke Philips Electronics N.V.	Netherlands	Cross license of patents relating to mobile phone and AV products	From March 2007 to the expiration of the patents under contracts

(2) Conclusion of Stock Trading Contract and Others Regarding Investment in a U.S. Software Company

The Company resolved at the Board of Directors meeting held on May 18, 2020 to make a strategic equity investment obtaining 20% of the total voting rights of Blue Yonder, Inc. group, specialized in end-to-end supply chain software, and concluded the stock purchase contract with shareholders on May 20, 2020.

In accordance with the above, the Company has acquired approximately 20% of the shares of Blue Yonder Holding, Inc. (the parent company of Blue Yonder, Inc.), and obtained one seat of its nine-member board of directors on July 20, 2020.

(3) Cancellation of Joint Collaboration in the Photovoltaic Business

The Company resolved at the Board of Directors meeting held on July 30, 2020, to cancel the joint collaboration in the photovoltaic business with GS-Solar (China) Company Ltd. ("GS-Solar"), which had been resolved at the Board of Directors meeting held on May 9, 2019.

In accordance with the above, the Company notified the cancellation of the joint collaboration to GS-Solar on the same day.

5. Research and Development

The Panasonic Group concentrated on development of new technologies and new products to underpin its future based on the growth strategies for the major business fields. In addition, the Group developed technologies such as IoT (Note) and artificial intelligence (AI), solved social issues in the new normal era, and contributed to sustainable energies.

R&D expenditures totaled 419.8 billion yen in fiscal 2021.

Key development themes and achievement during fiscal 2021 were as follows:

- (1) Solving new social issues of public health, air conditioning and indoor air quality through evolving and applying our technologies cultivated in the appliance business

Panasonic has evolved the panel manufacturing technology that has contributed to energy saving in refrigerators and other products, and developed a unique processing technique to cast-mold a vacuum-insulated cubic product. The seamless box solves the issue of cold air leakage. The vacuum-insulated box called "VIXELL" is capable of holding the temperature in the box at $-75^{\circ}\text{C} \pm 15^{\circ}\text{C}$ for at most 18 days with refrigerant such as dry ice. The box enables to keep temperature ranges strictly required for transporting pharmaceutical products such as vaccines.

Through years of research on electrified microparticulate water (nanoe™ x) containing OH radicals generated by applying high voltage to water from the air for years, Panasonic has verified that the water controls bacteria, fungus, viruses and allergens. The world suffers from the pandemic of the novel coronavirus (SARS-CoV-2). Panasonic and a third-party laboratory tested the electrified microparticulate water (nanoe™ x) under certain conditions. The test result indicates that the water has the antiproliferative effect on the virus.

The Panasonic Group will apply its technologies cultivated in the consumer electronics business to solve new social issues of public health and air quality from air conditioners and contribute to building a society for people in the world to live in a healthy way.

- (2) Developing high capacity li-ion battery to meet expanding demand on EV against global warming

The Panasonic Group developed a new technology to drastically amplify "energy density," the amount of energy stored per battery cell. The energy density per volume has jumped 5% of the conventional company products without compromising safety. The energy density is likely to be up 20% compared to the conventional company products in the next five years. In addition, the Panasonic Group has already established a technology to remove a cost-consuming material cobalt from batteries. This technology is expected to go commercial in next two to three years.

Working on the worldwide movement on greenhouse gas reduction, the Panasonic Group will continue to help global warming prevention by developing lithium-ion batteries, a key device of electric vehicles.

- (3) Developing a robotic mobility solution toward the new normal era

The Panasonic Group developed an automatic guided vehicle system that fuses the safety and low-latency autonomous vehicle (AV) transmission technology with the anti-hacking security technology. This unique AI monitoring system realized the Japan's first remote monitor on two transportation robots in the transportation services on public roads. To translate the system into practical use earlier, residents and enterprises in the Fujisawa Sustainable Smart Town, and the Panasonic Group are demonstrating multiple service possibilities with the system.

The Panasonic Group will contribute to realizing convenient and lively lifestyles through meeting demands for addressing deepening labor shortage, reducing workloads, non-face-to-face, and non-contact technologies.

- (4) Developed contactless authentication solution centering on the face recognition technology to make it 10-times faster than conventional technology

The Panasonic Group has developed an authentication system through evolving the world's highest level face recognition technology. The system recognizes faces at most ten times faster than the conventional company system. The speed enables the system to check faces one hundred thousand times or more per hour.

Improvements of the matching algorithm increases the rate of recognizing faces wearing masks 2.2 times higher than the conventional company rate of recognition. Using these as a core engine, the Group has started providing the contactless authentication solution.

The recent spread of COVID-19 increased the need for contactless sensing technologies. On that, the Panasonic Group will accelerate revolving the face recognition technology.

Note: IoT: Internet of Things, which refers to the connection of many things, or devices, to the internet

III Property, Plants and Equipment

1. Summary of Capital Investment

Capital investment for the year ended March 31, 2021 is shown in the table below.

Segment	Amount (Billions of yen)	Change from last fiscal year (%)	Main purpose of investment
Appliances	40.1	-6.4	Production of new products and streamlining of electric appliances for home use and video and AV equipment
Life Solutions	81.1	+108.2	Production of new products and streamlining of electrical construction material, building material, and functional enhancement of headquarter and sales division, etc.
Connected Solutions	13.7	-27.7	Production of new products and streamlining of B2B solutions business related equipment, etc.
Automotive	35.3	-65.9	Production of new products and streamlining of rechargeable batteries, automotive electrical equipment and automotive infotainment-related equipment, etc.
Industrial Solutions	51.2	-5.3	Production of new products and streamlining of electronic components, etc.
Reportable segment total	221.4	-14.3	—
Other & Corporate	9.6	-8.1	Capital investment by head office and regional headquarter, etc.
Total	231.0	-14.1	—

(Notes)

1. Panasonic restructured its Group organization on April 1, 2020. In calculating the percentage of change from the last fiscal year, the prior year's figure has been revised to conform to the presentation for fiscal 2021.
2. "Other & Corporate" includes capital investments, recorded in the "Other" and "Corporate" which are not included in reportable segments, as shown above.
3. Amount shows investment in "Property, plant and equipment."

2. Major Property, Plants and Equipment

(1) Panasonic Corporation

(As of March 31, 2021)

Facility (Location)	Segment	Details of major facilities and equipment	Book value (Millions of yen)						Number of employees
			Buildings	Machinery and equipment	Land (Area in thousands of m ²)	Lease assets	Others	Total	
Kusatsu Plant (Kusatsu-shi, Shiga)	Appliances	Manufacturing facilities for air conditioners and refrigerators, etc.	15,588	9,878	5,941 (564)	700	591	32,698	4,918
Hikone Plant (Hikone-shi, Shiga)	Appliances	Manufacturing facilities for personal-care equipment and healthcare equipment	3,691	3,467	1,323 (89) [5]	65	29	8,575	937
Kobe Plant (Nishi-ku, Kobe-shi)	Appliances, Connected Solutions	Manufacturing facilities for cooking appliances and information equipment	2,046	1,765	4,924 (185)	27	209	8,971	629
Nara Plant (Yamatokoriyama-shi, Nara)	Appliances	Manufacturing facilities for meter devices	1,869	2,891	218 (128)	67	192	5,237	352
Niigata Plant (Tsubame-shi, Niigata)	Life Solutions	Manufacturing facilities for lighting fixture	1,658	2,488	2,035 (143)	—	—	6,181	543
Tsu Plant (Tsu-shi, Mie)	Life Solutions, Industrial Solutions	Manufacturing facilities for wiring devices and security equipment	3,115	2,962	2,088 (91) [9]	—	344	8,509	1,473
Ritto Plant (Ritto-shi, Shiga)	Life Solutions	Manufacturing facilities for rain gutters	2,085	1,410	1,429 (54)	—	43	4,967	194
Kadoma Plant (Kadoma-shi, Osaka, etc.)	Appliances, Connected Solutions	Manufacturing facilities for video and audio equipment	8,506	3,548	77 (215) [147]	106	276	12,513	5,921
Saedo Plant (Tsuzuki-ku, Yokohama-shi)	Connected Solutions, Automotive	Manufacturing facilities for car equipment, other facilities	6,808	6,647	12,530 (122)	288	885	27,158	3,328
Yamagata Plant (Tendo-shi, Yamagata)	Appliances	Manufacturing facilities for lens	758	3,346	735 (85)	652	36	5,527	522
Ise Plant (Watarai-gun, Mie)	Industrial Solutions	Manufacturing facilities for automation controls	2,661	3,367	555 (152)	—	875	7,458	1,266
Tsuyama Plant (Tsuyama-shi, Okayama)	Automotive, Industrial Solutions	Manufacturing facilities for input devices	1,812	2,679	78 (56) [8]	17	444	5,030	620
Uji Plant (Uji-shi, Kyoto)	Industrial Solutions	Manufacturing facilities for capacitors	2,092	4,568	359 (50)	26	857	7,902	712
Yamaguchi Plant (Yamaguchi-shi, Yamaguchi)	Industrial Solutions	Manufacturing facilities for capacitors	569	2,936	519 (48)	3	325	4,352	330
Osaka Plant (Moriguchi-shi, Osaka)	Industrial Solutions	Manufacturing facilities for batteries	3,178	1,610	93 (65) [3]	—	676	5,557	1,416
Suminoe Plant (Suminoe-ku, Osaka- shi)	Automotive	Manufacturing facilities for batteries	9,140	809	— (116) [116]	114	33	10,096	935

Facility (Location)	Segment	Details of major facilities and equipment	Book value (Millions of yen)						Number of employees
			Buildings	Machinery and equipment	Land (Area in thousands of m ²)	Lease assets	Others	Total	
Yokkaichi Plant (Yokkaichi-shi, Mie)	Industrial Solutions	Manufacturing facilities for electronic materials	3,078	2,938	4,196 (209)	—	156	10,368	433
Koriyama Plant (Koriyama-shi, Fukushima)	Industrial Solutions	Manufacturing facilities for electronic materials	2,400	4,794	1,284 (159)	—	1,908	10,386	531
Fukuoka Office (Hakata-ku, Fukuoka- shi)	Appliances, Connected Solutions	Other facilities	390	356	7,758 (54) [4]	—	40	8,544	1,269
Technology Innovation Division Keihanna Area (Soraku-gun, Kyoto)	Corporate, etc.	R&D facilities	1,933	104	3,706 (53)	—	1	5,744	43
Manufacturing Innovation Division, etc. (Kadoma-shi, Osaka)	Corporate, etc.	R&D facilities	2,990	1,886	708 (87)	131	24	5,739	1,076

Panasonic Liquid Crystal Display Co., Ltd.	(Himeji-shi, Hyogo)	Industrial Solutions	Manufacturing facilities for LCD panels, etc.	34,190	702	— (361) [361]	114	35,006	328
Panasonic System Solutions Japan Co., Ltd.	(Hakata-ku, Fukuoka- shi, etc.)	Connected Solutions	Manufacturing facilities for information communication equipment, etc.	4,776	1,201	1,899 (185) [50]	10,508	18,384	4,548 <2,568>
Panasonic Smart Factory Solutions Co., Ltd.	(Kadoma-shi, Osaka, etc.)	Connected Solutions	Manufacturing facilities for mounter, etc.	3,657	4,284	739 (108)	294	8,974	1,444

(3) Overseas subsidiaries

(As of March 31, 2021)

Company (Location)	Segment	Details of major facilities and equipment	Book value (Millions of yen)					Number of employees
			Buildings	Machinery and equipment	Land (Area in thousands of m ²)	Others	Total	
Panasonic Corporation of North America (New Jersey, U.S.A.)	Appliances, Life Solutions, Connected Solutions, Automotive, Industrial Solutions, Other, Corporate	Manufacturing and sales facilities for various electric and electronic products	4,215	9,555	2,120 (161)	27,962	43,852	14,349
Panasonic Avionics Corporation (California, U.S.A.)	Connected Solutions	Manufacturing facilities for aircraft-in-flight entertainment systems	2,328	7,685	— (7)	11,044	21,057	3,342
Husmann Corporation (Missouri, U.S.A.)	Appliances	Manufacture facilities of commercial-use refrigerated and freezer showcases	4,242	3,937	1,497 (624)	4,995	14,671	6,658
Panasonic do Brasil Limitada (Amazonas, Brazil)	Appliances, Automotive, Industrial Solutions, Other	Manufacturing and sales facilities for various electric and electronic products	1,498	2,751	211 (540)	571	5,031	2,189
Ficosa International S.A. (Barcelona, Spain)	Automotive	Manufacture facilities of automotive components such as electric mirrors	7,390	13,006	4,858 (1,061) [27]	8,023	33,277	7,588
Panasonic Asia Pacific Pte. Ltd. (Singapore)	Appliances, Life Solutions, Connected Solutions, Industrial Solutions, Other, Corporate	Manufacturing and sales facilities for various electric and electronic products	106	8,914	52 (209)	1,230	10,302	1,893
Panasonic Wanbao Appliances Compressor (Guangzhou) Co., Ltd.	Appliances	Manufacturing facilities of compressor	1,238	7,011	— (131)	67	8,316	2,161

(Notes)

1. The above amounts do not include the consumption tax, etc.
2. Some plants or offices are rented to affiliated companies. Regarding rented plants and offices to affiliated companies, the number of employees of the company, which rents the related plants or offices, are shown with parenthesis notation of < > in the "Number of employees" column.
3. Parenthesis notation of [] in the "Land" column shows the size of land rented from a party other than consolidated companies.
4. In addition to the above, the Company accounted for some machinery, etc. as finance leases as a lessor.
5. The Company includes the book value of right-of-use asset in "Others" except '(1) Panasonic Corporation'.

3. Plans for Capital Investment, Disposals of Property, Plants and Equipment, etc.

The planned capital investment for the fiscal year ending March 31, 2022 will be 235.0 billion yen, an increase of 2% compared with the actual capital investment for the previous fiscal year, and a breakdown by segment is as follows.

Segment	Amount planned for fiscal 2022 (Billions of yen)	Main purpose of investment	Capital source
Appliances	43.0	Production of new products and streamlining of electric appliances for home use and video and AV equipment	Own capital, etc.
Life Solutions	41.0	Production of new products and streamlining of electrical construction material, building material, etc.	Own capital, etc.
Connected Solutions	17.0	Production of new products and streamlining of B2B solutions business related equipment, etc.	Own capital, etc.
Automotive	62.0	Production of new products and streamlining of rechargeable batteries, automotive electrical equipment and automotive infotainment-related equipment, etc.	Own capital, etc.
Industrial Solutions	64.0	Production of new products, an increase in production capacity and streamlining of electronic components, etc.	Own capital, etc.
Reportable Segment Total	227.0	—	—
Other & Corporate	8.0	Capital investment by head office and regional headquarters, etc.	Own capital, etc.
Total	235.0	—	—

(Notes)

1. The above amounts do not include consumption tax, etc.
2. There is no plan of other material disposals or sales of principal facilities, with the exception of disposing and selling facilities due to routine upgrading.
3. Amounts show investment in "Property, plant and equipment."

IV Information on the Company

1. Information on the Company's Stock, etc.

(1) Total number of shares, etc.

1) Total number of shares

Class	Total number of shares authorized to be issued (shares)
Common stock	4,950,000,000
Total	4,950,000,000

2) Issued shares

Class	Number of shares issued as of the end of fiscal year (shares) (March 31, 2021)	Number of shares issued as of the filing date (shares) (June 25, 2021)	Stock exchange on which the Company is listed	Description
Common stock	2,453,563,397	2,453,563,397	Tokyo stock exchange (the first section) Nagoya stock exchange (the first section)	The number of shares per one unit of shares is 100 shares.
Total	2,453,563,397	2,453,563,397	—	—

(2) Information on the stock acquisition rights, etc.

1) Details of stock option plans

Resolution date of the Board of Directors	July 31, 2014	July 29, 2015
Category and number of persons granted	Directors of the Company (excluding Outside Directors) : 13 Executive Officers and certain other officers (excluding Directors who concurrently serve as Executive officers) : 14	Directors of the Company (excluding Outside Directors) : 13 Executive Officers and certain other officers (excluding Directors who concurrently serve as Executive officers) : 17
Number of stock acquisition rights Note 6	1,240 [1,236]	1,188
Class, details and number of shares to be acquired upon exercise of stock acquisition rights Note 6	Common stock of Panasonic 124,000 shares [123,600 shares] Note 1	Common stock of Panasonic 118,800 shares Note 1
Subscription amount to be paid upon exercise of stock acquisition	One (1) yen	One (1) yen
Exercise period of stock acquisition rights	From August 23, 2014 to August 22, 2044	From August 21, 2015 to August 20, 2045
Issue price for shares issued through the exercise of the stock acquisition rights and the amount capitalized as common stock	Issue price : 1,055 yen Note 2 Amount capitalized as common stock Note 3	Issue price : 1,125 yen Note 2 Amount capitalized as common stock Note 3
Conditions for exercise of stock acquisition rights	Note 4	
Matters regarding transfer of stock acquisition rights	The stock acquisition rights cannot be acquired through transfer, unless such acquisition is expressly approved by a resolution of the Board of Directors.	
Matters regarding grant of stock acquisition rights accompanying reorganization	Note 5	

(Notes)

1. The number of shares to be acquired upon exercise of each stock acquisition right (the "Number of Shares Acquired") shall be 100 shares (1 unit:100 shares); provided, however, that in the case that Panasonic conducts a share split (including an allotment without consideration (musho-wariate) of shares of common stock of Panasonic; the same shall apply to all references to the share split herein) or share consolidation on and after the date on which the stock acquisition rights shall be allotted, the Number of Shares Acquired shall be adjusted in accordance with the following formula, rounding down any fraction of less than one (1) share resulting from such adjustment.

$$\text{Number of Shares Acquired after adjustment} = \text{Number of Shares Acquired before adjustment} \times \text{Ratio of share split or share consolidation}$$

The Number of Shares Acquired after adjustment shall become effective, in the case of a share split, on and after the day immediately following the record date of the relevant share split (if the record date is not set forth, on and after its effective date) or, in the case of a share consolidation, on and after its effective date; provided, however, that, in the event that a share split is conducted on the condition that a proposal to increase the capital or reserves by reducing the amount of surplus is approved at a general meeting of shareholders and that the record date for such share split is prior to the date of closing of such general

meeting of shareholders, the Number of Shares Acquired after adjustment shall be applicable retroactively from the day immediately following the relevant record date, on and after the day immediately following the date of closing of the relevant general meeting of shareholders.

In addition to the above, in any event that makes it necessary to adjust the Number of Shares Acquired, including a merger and company split, Panasonic may make appropriate adjustment to the Number of Shares Acquired within a reasonable range.

When the Number of Shares Acquired is adjusted, Panasonic shall give notice of necessary matters to each holder of the stock acquisition rights registered in the register of stock acquisition rights (the "Holder") or give public notice thereof, no later than the day immediately preceding the date on which the Number of Shares Acquired after adjustment shall become effective; provided, however, that, if Panasonic is unable to give such notice or public notice no later than the day immediately preceding such applicable date, Panasonic shall thereafter promptly give such notice or public notice.

2. Issue price is the total of the fair value of the stock acquisition rights in allotment date and the subscription amount to be paid upon exercise of stock acquisition (one (1) yen per share).
3. The amount of capital to be increased due to the issuance of shares upon exercise of the stock acquisition rights shall be a half of the maximum amount of capital Increase, etc. which is calculated in accordance with Article 17, Paragraph 1 of the Ordinance on Company Accounting, and any fraction less than one (1) yen arising therefrom shall be rounded up to the nearest one (1) yen.
- 4.(i) During the period when the stock acquisition rights may be exercised, the Holder may exercise the stock acquisition rights on and after the day immediately following the date on which such Holder loses the status of Director, Executive Officer, Audit & Supervisory Board Member or any status equivalent thereto, of Panasonic.
- (ii) Notwithstanding (i) above, the Holder may exercise the stock acquisition rights within the respective periods prescribed below if either (a) or (b) below occurs (provided that the case mentioned in (b) below excludes where the allotment of stock acquisition rights by the reorganized company to the Holder in accordance with "Matters regarding grant of stock acquisition rights accompanying reorganization" above is stipulated in a merger agreement, a share exchange agreement, or a share transfer plan):
 - (a) If the Status Losing Date does not occur on or before the date that is one year prior to the expiration date of "Exercise period of stock acquisition rights":

From the next day of the date that is one year prior to the expiration date of "Exercise period of stock acquisition rights" to expiration date of "Exercise period of stock acquisition rights"
 - (b) If proposal for approval of a merger agreement under which Panasonic shall become a dissolving company or proposal for approval of a share exchange agreement or share transfer plan under which Panasonic shall become a wholly-owned subsidiary is approved at a general meeting of shareholders (or, if a resolution of a general meeting of shareholders is not required, is approved by a resolution of the Board of Directors):

During a 15 day-period commencing from the day immediately following the date (inclusive) when the proposal is approved.
- (iii) (i) and (ii) (a) above shall not be applicable to those who have succeeded to the stock acquisition rights by inheritance.
- (iv) If the Holder waives the stock acquisition rights, the relevant stock acquisition rights may not be exercised thereafter.
5. If Panasonic conducts a merger (limited to the case where Panasonic is dissolved due to the merger), an absorption-type or incorporation-type company split (both, limited to the case where Panasonic is split), or a share exchange or transfer (both, limited to the case where Panasonic becomes a wholly-owned subsidiary) (collectively, the "Structural Reorganization"), Panasonic shall, in each of the above cases, allot stock acquisition rights of any of the relevant companies listed in "a" through "e" of Article 236, Paragraph 1, Item 8 of the Companies Act (the "Reorganized Company") to the Holders holding the stock acquisition rights remaining at the time immediately preceding the effective date of the relevant Structural Reorganization (the "Remaining Stock Acquisition Rights") (the effective date of the relevant Structural Reorganization shall mean, in the case of a merger, the date on which the merger becomes effective; in the case of a consolidation, the date of establishment of a newly-incorporated company through consolidation; in the case of an absorption-type company split, the date on which such absorption type company split becomes effective; in

the case of an incorporation-type company split, the date of establishment of a newly-incorporated company through such incorporation-type company split; in the case of a share exchange, the date on which the share exchange becomes effective; and in the case of a share transfer, the date of establishment of a wholly-owning parent company through the share transfer; hereinafter the same shall apply). In this case, the Remaining Stock Acquisition Rights shall be extinguished and the Reorganized Company shall issue new stock acquisition rights; provided, however, that the foregoing shall be on the condition that transfer of such stock acquisition rights by the Reorganized Company in accordance with each of the following items is stipulated in a merger agreement, a consolidation agreement, an absorption-type company split agreement, an incorporation-type company split plan, a share exchange agreement or a share transfer plan.

(i) Number of stock acquisition rights of the Reorganized Company to be allotted:

A number equal to the number of the Remaining Stock Acquisition Rights held by the Holder shall be transferred to such Holder.

(ii) Class of shares of the Reorganized Company to be acquired upon exercise of stock acquisition rights:

Common stock of the Reorganized Company.

(iii) Number of shares of the Reorganized Company to be acquired upon exercise of stock acquisition rights:

To be determined in accordance with "Numbers of shares to be acquired upon exercise of stock acquisition rights" above, taking into consideration, among others, the conditions of Structural Reorganization.

(iv) Value of assets to be contributed upon exercise of each stock acquisition right:

The value of assets to be contributed upon exercise of each stock acquisition right to be allotted shall be the amount obtained by multiplying (x) the exercise price after reorganization set forth below by (y) the number of shares of the Reorganized Company to be acquired upon exercise of the relevant stock acquisition rights as determined in accordance with (iii) above. The "exercise price after reorganization" shall be one (1) yen per share of the Reorganized Company to be acquired upon exercise of each of its stock acquisition rights.

(v) Exercise period of stock acquisition rights:

From and including whichever is the later of (x) the commencement date of the period during which the stock acquisition rights may be exercised as provided for in "Exercise period of stock acquisition rights" above or (y) the effective date of the Structural Reorganization, to and including the expiration date of the period during which the stock acquisition rights may be exercised as provided for in "Exercise period of stock acquisition rights" above.

(vi) Matters concerning capital and capital reserve to be increased due to issuance of shares upon exercise of stock acquisition rights:

To be determined in accordance with "Issue price for shares issued through the exercise of the stock acquisition rights and the amount capitalized as common stock" above.

(vii) Restrictions on acquisition of stock acquisition rights by transfer:

The stock acquisition rights cannot be acquired through transfer, unless such acquisition is expressly approved by a resolution of the Board of Directors of the Reorganized Company.

(viii) Provisions concerning acquisition of stock acquisition rights:

If any of the proposals set forth in (a), (b), (c), (d) and (e) below is approved at a general meeting of shareholders of Panasonic (or, if a resolution of a general meeting of shareholders is not required, is approved by a resolution of the Board of Directors of Panasonic), Panasonic may acquire the stock acquisition rights without consideration on the date to be separately determined by the Board of Directors:

(a) Proposal for approval of a merger agreement under which Panasonic shall become a dissolving company;

(b) Proposal for approval of split agreement or split plan under which Panasonic shall be split;

(c) Proposal for approval of a share exchange agreement or share transfer plan under which Panasonic shall become a wholly-owned subsidiary;

(d) Proposal for approval of an amendment to the Articles of Incorporation in order to establish the provision that an acquisition by way of transfer of any shares issued or to be issued by Panasonic shall require the approval of Panasonic; and

(e) Proposal for approval of an amendment to the Articles of Incorporation in order to establish the provision that an acquisition by way of transfer of a class of shares to be acquired upon exercise of the

stock acquisition rights shall require the approval of Panasonic or that Panasonic may acquire all of such class of shares upon a resolution of a general meeting of shareholders.

(ix) Conditions for exercise of stock acquisition rights:

To be determined in accordance with "Conditions for exercise of stock acquisition rights" above.

6. The contents are described as of the end of fiscal 2021 (March 31, 2021). The items which changed during the period from the end of fiscal 2021 to the end of the month previous to the filing (May 31, 2021), the contents described in [] as of the end of the month previous to the filing. No other contents changed from the end of fiscal 2021.

Resolution date of the Board of Directors	July 29, 2016

2. The breakdown of "others" in "Fiscal year ended March 31, 2021" are selling due to requests from shareholders holding shares less than one unit shares to sell additional shares (Number of shares 2,314 shares, Total disposition amount 4,041,379 yen) and exercise of stock acquisition rights (Number of shares 168,500 shares, Total disposition amount 294,283,469 yen)
The breakdown of "others" in "Current period" are selling due to requests from shareholders holding shares less than one unit shares to sell additional shares (Number of shares 166 shares, Total disposition amount 289,890 yen) and exercise of stock acquisition rights (Number of shares 400 shares, Total disposition amount 698,531 yen)

3. Dividend Policy

Since its foundation, Panasonic has managed its businesses under the concept that returning profits to shareholders is one of its most important policies. From the perspective of providing returns on the capital investment made by shareholders, the Company, in principle, distributes profits to shareholders based on its business performance and strives to provide stable and continuous dividends, targeting a dividend payout ratio of approximately 30% with respect to consolidated net profit attributable to Panasonic Corporation stockholders.

Panasonic pays dividends twice a year, an interim and a year-end. Dividends are resolved at the Board of Directors meeting under articles of incorporation.

In comprehensive consideration of the Company's dividend policy to distribute profits according to consolidated performance in principle, as well as a condition of financial structure and others, Panasonic expects to pay an annual dividend of 20 yen per share for fiscal 2021, which includes the interim dividend of 10 yen per share and a year-end dividend of 10 yen per share.

The Company will utilize its internal reserve funds for further enhancing the management structure and future business development.

Dividends for the 114th term are as follows.

Resolution date	Total amount of dividends (Millions of yen)	Dividends per share (yen)
The Board of Directors meeting held on October 29, 2020	23,333	10.0
The Board of Directors meeting held on May 10, 2021	23,333	10.0

4. Corporate Governance, etc.

This section includes the matters of consolidated companies. This section refers to the matters as of June 25, 2021, the date of the filing of this annual securities report, unless otherwise indicated.

(1) Corporate Governance

1) Basic Policy of Corporate Governance

The Company, since its establishment, has operated its business under its business philosophy, "contributing to the progress and development of society and the well-being of people worldwide through its business activities." Also, the Company believes it is important to increase corporate value by fulfilling accountability through dialogue with various stakeholders such as shareholders and customers, making effort to execute transparent business activities, and swiftly conducting business activities with fairness and honesty based on its basic philosophy of "a company is a public entity of society."

The Company recognizes that corporate governance is the important basic structure for the aforementioned purpose, and endeavors to establish and strengthen the effective corporate governance structure based on the Audit & Supervisory Board System composed of the Board of Directors which is responsible for deciding important operational matters for the whole Group and monitoring the execution of business by Directors, and Audit & Supervisory Board Member (A&SB Member) / Audit & Supervisory Board (A&SB) which are independent from the Board of Directors and responsible for auditing the performance of duties by Directors.

The Company conducts the following activities to enhance effectiveness of its corporate governance.

1. Secures the rights and equal treatment of shareholders.
2. Endeavors to appropriately cooperate with stakeholders such as employees, customers, business partners and local societies with the recognition that its sustainable growth is brought about as a result of receiving resources and contributions from such stakeholders.
3. Appropriately discloses corporate information and ensure transparency of the management.
4. Given its fiduciary responsibility and accountability to shareholders, the Board of Directors set the broad direction of corporate strategy, establish an environment where appropriate risk-taking is supported and carry out effective oversight of Directors and management from an independent and objective standpoint.
5. Engages in constructive dialogue with shareholders in order to contribute to the sustainable growth and the increase of corporate value over the mid- to long-term.

2) Overview and background of corporate governance structure

(a) Overview of corporate governance structure

In the Company, each of thirty-four (34) business divisions of basic management units, autonomously manages R&D, production and sales as well as its cash and profit on a global and regional basis.

In order to support these business divisions, the Company introduced divisional company system. The five (5) business-based companies (Appliances, Life Solutions, Connected Solutions, Automotive, and Industrial Solutions) and the two (2) region-based companies (China & Northeast Asia and US) have been promoting the divisions' evolution and change in the area in which they have responsibility and taking a leading role to realize growth strategy. The Company also established Corporate Strategy Division, which is responsible for the strategic management throughout the group, to promote enhancement of the corporate value by formulating mid- and long-term group-wide strategies. In addition, the Company incorporated Professional Business Support Sector which assumes the function of the group-wide management control in terms of developing and improving the Company wide rules and systems infrastructure, implementing internal audit, internal control and compliance activities required to the listed company and the legal entity, and responding to the stakeholders. Also the Company established Innovation Promotion Sector which assumes the function of creating new business projects and business models focused on AI/IoT technologies, contributing to the business with its innovation technologies and

production technologies, and overseeing the Company-wide technology development, manufacturing and designing.

[The Board of Directors and Executive Officer System]

The Board of Directors, which is composed of thirteen (13) Directors including six (6) Outside Directors, of which two (2) is a woman (at least one-third of its Directors are Outside Directors), seeks to ensure the diversity of the knowledge, experience and qualifications of the Board of Directors as a whole. Chairman of the Board who is not involved in execution of business takes on the position of a chairman.

In accordance with the Companies Act of Japan and related laws and ordinances (collectively, the "Companies Act"), the Board of Directors has ultimate responsibility for administration of the Company's affairs and monitoring of the execution of business by Directors.

Under the seven (7) Divisional Company-based management structure, the Company has empowered each of seven (7) Divisional Companies and business divisions through delegation of authority. At the same time, the Company employs an Executive Officer system, under which Executive Officers lead the reform of the Panasonic Group's business structure for the total optimization. This system facilitates the development of corporate strategies that integrate the Group's comprehensive strengths. The Company has twenty (20) Executive Officers (including those who concurrently serve as Directors), which include President, Vice President, senior managements of each of seven (7) Divisional Companies, senior officers responsibly for certain foreign regions and officers responsible for corporate functions. The Company has two (2) foreign Executive Officers out of twenty (20) Executive Officers.

In addition, in order to ensure swift and strategic decision-making, along with sound and appropriate monitoring at the same time, the Board of Directors, as a decision-making body for Group-wide matters, concentrates on decisions about the corporate strategies and the supervision of the seven (7) Divisional Companies. Taking into consideration the diverse scope of its business operations, the Company has opted to maintain a system where Executive Officers, who are most familiar with the specifics of the operations, take an active part in the Board of Directors. Moreover, to clarify the responsibilities of Directors and build a structure of the Board of Directors flexibly, the Company limits the term of each Director to one (1) year.

[Audit & Supervisory Board Members (A&SB Members) and Audit & Supervisory Board (A&SB)]

Pursuant to the Companies Act, the Company elected five (5) A&SB Members (one (1) of them is a woman member) including three (3) Outside A&SB Members, with majority of them being Outside A&SB Members, and established A&SB made up of A&SB Members. The A&SB Members and A&SB monitor the status of corporate governance and audit the day-to-day activities of management, including the performance of duties by Directors. Additionally, the Company elected A&SB Members who have substantial finance and accounting knowledge.

[Nomination and Compensation Advisory Committee]

The Company established the Nomination and Compensation Advisory Committee in 2015. Upon receiving inquiries from the Board of Directors, the committee deliberates on the results of internal reviews regarding the nomination of candidates for Director, Executive Officer, and A&SB Member, and also on the appropriateness of the remuneration system for Directors and Executive Officers.

As of the date of submission of this report, the Committee consists of five (5) members; Outside Director Hiroko Ota (Chairperson), Outside Director Kazuhiko Toyama, Outside Director Yoshinobu Tsutsui, Director and Chairman of the Board Kazuhiro Tsuga, and Representative Director and President Yuki Kusumi. The Company has been enhancing objectivity and transparency of the committee by ensuring that Outside Directors constitute a majority of its membership with one of them serving the chairperson.

[Conduct and utilization of evaluation of the Board of Directors effectiveness]

The Company, to enhance effectiveness of the Board of Directors, conducts a survey to all the Board members who attend the meeting annually, and reports the results and evaluations of the survey at the Board. Drawing on a third-party point of view, the Company conducted interviews this year in addition to a survey. The items of the survey in the fiscal 2021 are;

- Verification of the Board of Directors operation policy for fiscal 2021
- The role of the Board of Directors in a holding company
- The role of the Directors in a holding company
- Others, including effectiveness evaluation methods

Upon analyzing the results of the survey, the Company's findings with respect to the effectiveness of the Board of Directors are such that the current state of the Board is essentially appropriate in terms of its monitoring and decision-making function. Findings with respect to the transition to a holding company system, however, included opinions that discussion on the role of the Board of Directors, and on other needed issues should be further studied. As such, the Company is methodically addressing such issues and implementing improvements.

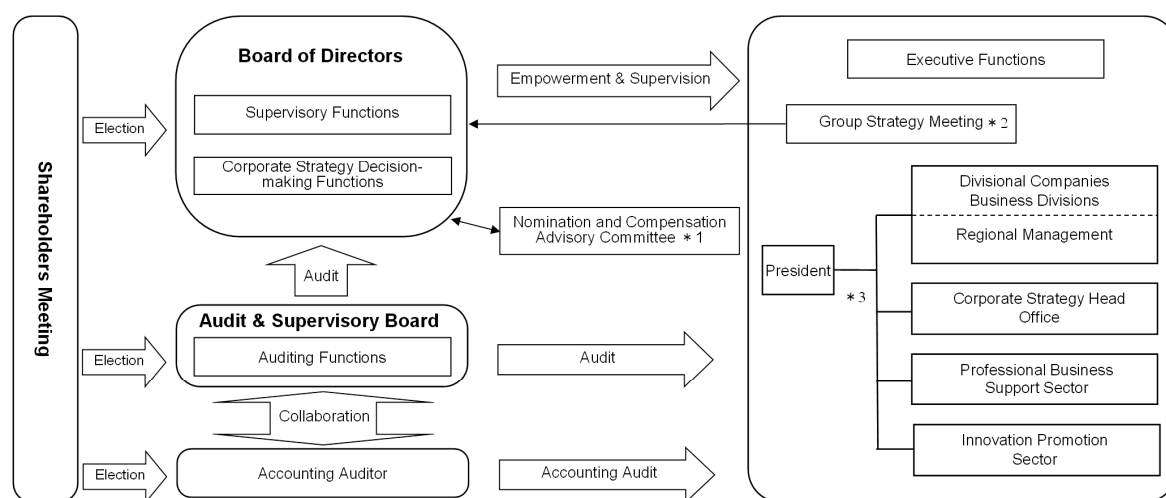

[Group Strategy Meeting]

The Company holds, approximately twice a month in general, the Group Strategy Meeting to discuss and set the direction of the Company's mid- to long-term strategies and important issues from 2012. Chaired by Representative Director and President Yuki Kusumi, Members of "Group management team," which consist of approximately ten (10) people in managerial position, including the President and presidents of seven (7) Divisional Companies, and a non-Japanese Executive Officer, attend the Group Strategy Meeting, and the responsible persons of the related businesses and functions also participate in the meeting, depending on the matter to be discussed. Presidents' names of seven (7) Divisional Companies etc. are listed in the (Notes) 9 of the Names List for "(2) Member of the Board of Directors and Audit & Supervisory Board Members."

(b) Background of corporate governance structure

The Company determined that it is appropriate to build and enhance its corporate governance structure based on the Board of Directors and the A&SB System composed of A&SB Members and A&SB, leveraging Nomination and Compensation Advisory Committee and the scheme of Evaluation of the Board of Directors Effectiveness.

<Reference: Diagram of Corporate Governance Structure>

* 1 Deliberating inquires and reporting on results to the Board of Directors

* 2 Complementing a decision-making in the Board of Directors

* 3 Including the affiliated companies (Japan and overseas), etc

3) Basic Policy on Internal Control Systems and Status of the Operation of the System

The Company's Board of Directors made the following resolution concerning the Company's basic policy regarding the development of internal control systems. It was decided at the Board of Directors' meeting held on July 30, 2020 that this basic policy should be continued with some amendments made to it to reflect the business environment, status of the Company, etc. The details are as follows:

[Basic Policy Regarding the Development of Internal Control Systems]

(a) System for ensuring legal compliance in the performance of Directors' duties

The Company shall ensure legal compliance in the performance of Directors' duties by developing effective corporate governance and monitoring systems, as well as by ensuring total compliance awareness among Directors.

(b) System for retention and management of information pertaining to the performance of Directors' duties

The Company shall properly retain and manage information on the performance of Directors' duties in accordance with all applicable laws and regulations and the internal rules of the Company.

(c) Rules and other measures for financial risk management

The Company shall establish rules for risk management, and identify material risk through assessment of risks affecting management of the business. The Company shall also take countermeasures against each material risk, while monitoring the progress of such countermeasures with the aim of seeking continual improvement.

(d) System for ensuring efficiency of the performance of Directors' duties

The Company shall ensure efficiency in the performance of Directors' duties by clarifying business goals based on its business strategies, and examining progress towards achievement of such goals, while seeking to expedite decision-making.

(e) System for ensuring compliance with applicable laws in the performance of employees' duties

The Company shall seek to increase employees' awareness of compliance issues by clarifying the Company's compliance policy. The Company shall also ensure legal compliance in the performance of employees' duties by developing effective monitoring systems.

(f) System for ensuring the properness of operations across the Panasonic Group

While respecting the autonomy of each Group company's management practices, the Company shall fully ensure that Group companies adhere to the Company's management policy, management philosophy and basic policy regarding the development of internal control systems, and shall develop a system for reporting to the Company to thoroughly ensure proper operations of the Panasonic Group as a whole.

(g) Employees who assist A&SB Members in auditing, and such employees' independence from Directors

The Company shall establish a body independent from Directors, tasked with enhancing the effectiveness of audits by A&SB Members and facilitating the smooth performance of audits.

(h) Ensuring effectiveness of instructions given by A&SB Members to employees who assist A&SB Members

Staff members assisting the A&SB Members, while still subject to the internal rules of the Company, shall be under the instruction and supervision of the respective A&SB Members, and personnel-related matters shall be undertaken upon prior discussion with A&SB Members.

(i) System for Directors, employees and other staffs of the Company and its subsidiaries to report to the Company's A&SB Members

The Company shall ensure opportunities and systems that enable Directors, employees and other staffs of the Company and Group companies to properly report to the respective A&SB Members, and moreover

shall ensure opportunities and systems that enable audit & supervisory officers, who are non-statutory full-time auditors, of Divisional Companies and other such bodies, and A&SB Members of Group companies to report to the Company's A&SB Members.

- (j) System for ensuring that parties who have reported to A&SB Members do not incur unfavorable treatment as a consequence of such reporting

In ensuring opportunities and systems for Company and Group company employees and other staffs to report to A&SB Members, the Company shall make sure that employees and other staffs who have duly reported do not incur unfavorable treatment as a consequence of such reporting.

- (k) Policy on management of expenses and debt incurred in execution of A&SB Member duties

The Company shall calculate budgets on an annual basis for expenses arising with respect to the execution of duties of A&SB Members to ensure effectiveness of audits, and moreover shall provide pre-payment or reimbursement in accordance with laws and regulations with respect to expenses incurred beyond amounts budgeted.

- (l) Other systems for ensuring effective performance of audits by the A&SB Members

The Company shall have audit & supervisory officers assigned to Divisional Companies and other such entities to assist with audits by A&SB Members. Moreover, the Company shall develop a system enabling effective performance of audits, including mutual cooperation with the accounting auditors and the internal auditing group, in accordance with the Audit Plan established by the A&SB Members each year.

[Status of Basic Policy Implementation in the Company]

- (a) System for ensuring legal compliance in the performance of Directors' duties

- The Company has established internal rules such as the Panasonic Code of Conduct and the Code of Ethics for Directors and Executive Officers, and endeavors to ensure that its Directors act in accordance with laws, regulations and the Company's Articles of Incorporation. Additionally, when Directors assume their positions, the Company provides them with opportunities to acquire the knowledge necessary to fulfill their roles and obligations, and during their terms of office it continues to provide Directors with opportunities to acquire the knowledge they need, including presentations on management and compliance by external experts as required.
- The Company strengthens its supervisory functions by making the composition of Outside Directors of the Board of Directors Meeting to be one third or more and by providing opportunities for the Outside Directors to actively communicate through Board of Directors' meetings and other such occasions. The Company has also established a Nomination and Compensation Advisory Committee whose composition ratio of Outside Directors to be majority, and whose chairperson to be an Outside Director to ensure objectivity and transparency in the process of determining the nomination and remuneration of Directors.
- The Company continues to aim for further enhancement in the effectiveness of the Board of Directors, and as part of its efforts, it conducts an annual questionnaire survey of members of the Board of Directors and A&SB. The results and evaluations are reported at the Board of Directors meetings, and the Company reviews the opinions received and implements appropriate measures for improvement accordingly.
- Audits are conducted by A&SB Members and the A&SB. In addition, at the Divisional Companies, management committees have been established and audit & supervisory officers have been appointed, which correspond in function to the Board of Directors and the A&SB Members, respectively.
- The Company aims to resolutely prevent any association with anti-social forces (such as organized criminal networks) through initiatives that include implementing training for members of the Board of Directors, partially revising the Regulations of Executive Officers, and obtaining written pledges with regard to combating organized crime within the Company.

- (b) System for retention and management of information pertaining to the performance of Directors' duties
The minutes of meetings of the Board of Directors are prepared after each meeting of the Board of Directors and retained permanently by the section responsible for administration relating to the Board of Directors. Records of approval by the President are also retained permanently by the responsible department.
- (c) Rules and other measures for financial risk management
Based on Basic Risk Management Regulations, the Company identifies material risks by collecting and assessing information on risks in an integrated and comprehensive fashion through the Global and Group (G&G) Risk Management Committee, and takes countermeasures proportionate to the materiality of each risk.
- (d) System for ensuring efficiency of the performance of Directors' duties
- The Company expedites decision-making through Rules of Approval for Decision-making in Important Matters, the clarification of roles between Directors and Executive Officers, the delegation of authority to entities such as Divisional Companies and business divisions, the holding of Group Strategy Meetings, and the implementation of an IT system that ensures the rapid and accurate collection and transmission of important management information.
 - The Company plans and implements measures to achieve the business goals it sets based on its business strategies by confirming and examining the status of progress towards the goals at the time of monthly settlement of accounts.
- (e) System for ensuring compliance with applicable laws in the performance of employees' duties
- The Company has established internal rules such as the Panasonic Code of Conduct and implements compliance initiatives and various awareness-building activities such as trainings tailored to specific employee levels and e-learnings, for its employees including Group companies.
 - The Company seeks to detect improper acts at an early stage through "operational audits", "internal control audits", and "compliance audits", and by operating a global hotline that is available in multiple languages, in addition to other measures. In addition, the Panasonic Code of Conduct and the Rules on the Prohibition of Retaliatory Behavior against Whistleblowers, and Others stipulate that whistleblowers shall be protected from any retaliation as a consequence of having used the hotline or other means to report violations of laws or regulations, or concerns otherwise in that regard.
 - The Company has been stepping up its efforts to implement fair business practices emphasizing compliance and taking measures to react to its changing business environments accordingly by establishing organizations that perform the functions of promoting compliance and conducting compliance audit, handling business legal affairs, risk management, and administration of corporate governance.
 - The Company aims to resolutely prevent any association with anti-social forces (such as organized criminal networks) by assigning an employee in the division overseeing such preventative measures specifically to the task of blocking any relations with such forces, and through initiatives that include partially revising the Employee Work Regulations, and obtaining written pledges with regard to combating organized crime within the Company.
- (f) System for Ensuring the Properness of Operations across the Panasonic Group
- The Company ensures that basic policy for internal control systems is fully implemented by Group companies, and disseminates relevant information among Group companies. Initiatives to that end include: implementing the Panasonic Code of Conduct and the Rules of Approval for Decision-Making in Important Matters; establishing group-wide regulations respecting individual professional functions; dispatching Directors and A&SB Members to Group companies and exercising the Company's shareholder rights thereof; establishing rules of governance that are to be observed by Group companies; conducting regular operational audits, internal control audits, and compliance audits of Group

companies through the internal auditing group, and; sharing and disseminating information on business objectives through management policy announcements.

- The framework described above ensures the properness of operations, thereby enabling the Panasonic Group to establish the internal controls necessary for financial reporting based on the Financial Instruments and Exchange Act.

(g) Employees who assist A&SB Members in auditing, and such employees' independence from Directors
The Company has established the A&SB Member's Office, whose dedicated staff is under the direct control of the A&SB and separate from any operating function of the Company's business. The Company assigns A&SB Member assistant staff members who possess appropriate capabilities and knowledge as required by the A&SB Members.

(h) Ensuring effectiveness of instructions given by A&SB Members to employees who assist A&SB Members

- Respective A&SB Members issue instructions to their staff members, and those staff members accordingly assist the A&SB Members in performing their duties.
- The Company consults with A&SB Members in advance of undertaking personnel-related matters including employee transfers and other affairs involving staff members who assist the A&SB Members.

(i) System for Directors, employees and other staffs of the Company and its subsidiaries to report to the Company's A&SB Members

- Directors, employees and other staffs of the Company and Group companies report on business operations and other issues at respective regular meetings held by A&SB Members and other such occasions, and also report as necessary at other important meetings with A&SB Members, where their attendance has been requested. Moreover, A&SB Members of Group companies report as necessary to the Company's A&SB Members regarding content of reports at respective Group companies. Audit & supervisory officers conduct inquiries at respective Divisional Companies regarding business operations and issues at such Divisional Companies, and report such matters as necessary to the Company's A&SB Members.
- The Company has established an Audit Report System by which employees of the Company and Group companies directly report to the Company's A&SB about irregularities or concerns in regards to accounting or auditing.

(j) System for ensuring that parties who have reported to A&SB Members do not incur unfavorable treatment as a consequence of such reporting

The Audit Report System enables parties to report matters anonymously, while the Panasonic Code of Conduct and the Rules on the Prohibition of Retaliatory Behavior against Whistleblowers, and Others ensure that whistleblowers shall not be subject to unfavorable treatment as a consequence of such reporting.

(k) Policy on management of expenses and debt incurred in execution of A&SB Member duties

- To ensure effectiveness of audits, the Company calculates preliminary budgets with respect to anticipated expenses required by A&SB Members in executing their duties, in accordance with Audit & Supervisory Standards.
- The Company also provides pre-payment or reimbursement for expenses paid under urgent or extraordinary circumstances in accordance with laws and regulations.
- In making payment of audit expenses, A&SB Members are required to remain mindful of efficiency and appropriateness in that regard.

(l) Other systems for ensuring effective performance of audits by the A&SB Members

- Audit & supervisory officers tasked with monthly reporting and implementing liaison meetings are assigned to Divisional Companies and other such entities. Any decisions on personnel-related matters involving the audit & supervisory officers require the agreement of A&SB Members.

- The Company has established and operates the Panasonic Group A&SB Members' Meeting chaired by the Company's Senior A&SB Member, in order to facilitate cooperation among the A&SB Members of the Company, the audit & supervisory officers of Divisional Companies and other such entities, and the A&SB Members of Group companies.
- Representative Directors and A&SB Members exchange opinions regularly and whenever necessary. Moreover, respective departments cooperate in implementing visiting audits of business offices inside and outside Japan conducted by A&SB Members. Internal auditing groups also cooperate to enhance the effectiveness of audits carried out by A&SB Members through collaboration with A&SB Members, including reporting as appropriate to the A&SB Members.
- When the accounting auditors formulate their audit plans, perform quarterly reviews, and conduct final audits, the A&SB Members hold regular meetings with the accounting auditors at which they receive explanations and reports, and exchange opinions with the accounting auditors as necessary.

Note: "Group companies" means subsidiaries as stipulated in the Companies Act.

4) The status of the Company's internal system concerning disclosure of corporate information

Under its basic philosophy, "A company is a public entity of society," the Company has committed to highly transparent business activities and endeavored to be accountable its accountability to its stakeholders. The Company's basic policy concerning information disclosure is set forth in the "Panasonic Code of Conduct," which prescribes specific items to be complied with in order to put the Group's business policy into practice, and the standards in the course of business is published on the Company's website as "the Disclosure Policy." The Company's basic policy is to provide the Company's fair and accurate financial information and corporate information, including management policies, business activities and corporate ESG (Environment, Social and Governance) activities, in a timely, appropriate and easily understandable manner.

In accordance with this basic policy, important matters concerning the management of the Group are resolved or reported at the Board of Directors pursuant to the Regulations of the Board of Directors. These important matters and other matters, which are required to be disclosed under relevant laws and ordinances in Japan and overseas or any other regulations, are timely and accurately reported from each relevant department, that has the important internal information, to the department that handles relevant information under the monitoring of the Chief Financial Officer (CFO), so that important information is gathered. Further, matters required to be disclosed under the rules of financial instruments exchanges are also under the monitoring of the CFO.

Also, if any of the matters which is required to be disclosed under relevant laws and ordinances in Japan and overseas, and the rules of financial instruments exchanges or any other regulations, occurs at the Company's business divisions including subsidiaries, such matter shall be immediately reported to the "Financial & Accounting Department" or the "Financial and, Finance & IR Department," depending upon the nature thereof; Thus, the Company has established a structure whereby these matters can be collected.

With respect to the information gathered or identified, the Company determines the necessity of disclosure thereof in accordance with relevant laws and ordinances in Japan and overseas, and the rules of financial instruments exchanges or any other regulations, and makes effort to disclose it at the time that the organization, which effectively decides execution of the business of the Company, makes a resolution or determination, or becomes aware of its occurrence.

In addition, the Company endeavors to confirm the contents and expressions of the disclosure with the relevant departments within the Company and outside legal counsel to ensure the accuracy, fairness and adequacy of the disclosure.

Moreover, the Company has established disclosure control procedures in order to comply with relevant laws and ordinances in Japan and overseas, the rules of financial instruments exchanges and any other regulations, and to implement the fair, accurate and timely disclosure of information about its Group, etc. In the process of preparation and confirmation of documents such as annual securities reports and quarterly reports, the

Disclosure Committee, which is comprised of managers from principal departments that handle relevant information, confirms the validity of the content of the descriptions and the appropriateness of the procedures concerning the disclosure under the supervision of the President and the CFO, who are responsible for establishing, maintaining and ensuring the effectiveness of the internal control and disclosure control of the Company. The chairman of the Disclosure Committee is appointed by the President and the CFO, and the members of the Disclosure Committee are appointed by the chairman of the Disclosure Committee. The Disclosure Committee also develops, maintains, improves and evaluates the internal control procedures concerning disclosure matters.

5) Internal Control Over Financial Reporting

The Company has documented the actual status of its internal control system, with integrated control provided by the Internal Control Promotion Office, in order to ensure reliability in the financial reporting of the Panasonic Group including its subsidiaries, ranging from the control infrastructure to actual internal control activities. Specifically, the Company has reinforced its internal controls by implementing self-checks and self-assessment programs at each of the Divisional Companies and business divisions, etc. Then, Internal Auditing Managers of the Divisional Companies appointed by the Company at each of the Divisional Companies, etc. conduct audits. Based on the audits, the Internal Control Promotion Office supervises the group-wide internal control audits in order to confirm the effectiveness of each company's financial reporting. With the aim of further enhancing the Group's internal control system, in fiscal 2021 Panasonic had approximately 400 personnel assigned to conduct internal audits in the Internal Auditing Group.

6) Contract between the Company and Outside Directors / Outside A&SB Members (A&SB Members) under Article 427, Paragraph 1 of the Companies Act

The Company has entered into liability limitation agreements with all Outside Directors and Outside A&SB Members, respectively, which limit the amount of their liability under Article 423, Paragraph 1 of the Companies Act to the aggregate of the amounts specified in Article 425, Paragraph 1 of the Companies Act, if they perform their duties in good faith and without significant negligence.

7) Directors' and officers' liability insurance policy

The Company has entered into a directors' and officers' liability insurance policy with an insurance company under which all the Directors and A&SB Members of the Company are insured, as stipulated in Article 430-3, Paragraph 1 of the Companies Act. If a claim for damages is made due to an act committed by the insured, the amount of damages to be borne by the insured shall be covered by the above-mentioned liability insurance policy. However, cases of willful or intentional violation of duty of due care shall not be covered by the said liability insurance policy.

8) Matters to be resolved at general meetings of shareholders that can also be resolved by the Board of Directors

The Company stipulates in its Articles of Incorporation that unless otherwise provided by law, the Company may determine, by a resolution of the Board of Directors, a distribution of surplus or any other matters set forth in each item of Article 459, Paragraph 1 of the Companies Act. This is to enable the Company to more flexibly distribute profits to shareholders based on its consolidated business performance and to repurchase and cancel its own stock under its basic policy of providing returns to shareholders.

The Company, pursuant to Article 426, Paragraph 1 of the Companies Act, stipulates in its Articles of Incorporation that it may, by a resolution of the Board of Directors, exempt a Director (including a former Director) and a A&SB Member (including a former A&SB Member) from being held liable for his/her actions as set forth in Article 423, Paragraph 1 of the Companies Act to the extent permitted by applicable laws and ordinances, to enable the Directors and A&SB Members to perform their duties in a satisfactory manner.

9) Requirements for the adoption of resolutions for the election of Directors

The Company stipulates in its Articles of Incorporation that the presence of shareholders representing one-third or more of the voting rights held by the total shareholders entitled to exercise their voting rights and a majority of the votes held by those shareholders are required for the adoption of resolutions necessary to approve the election of Directors.

10) Requirements for the adoption of special resolutions of general meetings of shareholders

The Company stipulates in its Articles of Incorporation that the presence of shareholders representing one-third or more of the voting rights held by the total shareholders entitled to exercise their voting rights and two-thirds or more the votes held by those shareholders are required for the adoption of special resolutions of general meetings of shareholders which are stipulated in Article 309, Paragraph 2 of the Companies Act. By relaxing the requirements for a quorum for special resolutions of general meetings of shareholders, resolutions for those resolutions can be made with certainty.

11) Policy on Control of the Company

(a) Efforts to boost corporate value of the Company

Based on the Basic Management Objective set by the founder Konosuke Matsushita, the Company has committed itself to making contributions to the progress and development of society and the well-being of people worldwide through our business activities over a long period of time. Inheriting this philosophy as the Company's unchanging *raison d'être*, we commit ourselves to making further contributions through delivering excellent products and services more rapidly and to many more customers, toward realization of ideal lifestyles and society along with solving such social issues as conservation of the global environment. The Company will fulfill its social responsibilities through management based on ESG (Environment, Society, and Governance), such as corporate governance enhancement, corporate culture reform, human resources management, and addressing global environmental issues, along with capturing business opportunities. By doing this, we will work to sustainably grow its corporate value by offering value that satisfies our shareholders, investors, customers, business partners, employees and all other stakeholders.

(b) Measures against large-scale purchase

Panasonic has a basic policy that shareholders should make final decision in the event that a large-scale purchase of the Company's shares is offered, regarding whether or not the offer should be accepted. However, in such cases, there is a possibility that shareholders might not be provided with sufficient information required to make appropriate decisions, and a concern that corporate value and shareholder interest might be significantly damaged.

Panasonic will take appropriate measures within the scope permitted by the Financial Instruments and Exchange Act, the Companies Act, and other related laws and regulations, including requesting any party proposing a Large-scale Purchase of the Company's shares to provide sufficient information necessary to assist shareholders in making appropriate decisions, expressing or disclosing opinions or other statements from the Board of Directors, and endeavoring to secure sufficient time for shareholders to consider the proposed purchase. Before the Board of Directors' opinions or other statements are expressed or disclosed, the Company will set up an independent committee comprising Outside Directors and Outside Audit & Supervisory Board Members and the Board of Directors will consult this committee regarding its opinion and treat the committee's verdict with the utmost respect.

(2) Member of the Board of Directors and Audit & Supervisory Board Members

1) List of Member of the Board of Directors and Audit & Supervisory Board Members

Consisting of 15 men and 3 women (the ratio of women members in the Board of Directors and Audit & Supervisory Board Members is 16.6%.)

2) Outside Directors and Outside Audit & Supervisory Board Members (A&SB Members)

The Company elects six (6) Outside Directors and three (3) Outside A&SB Members.

Mr. Yoshinobu Tsutsui, an Outside Director of the Company, is a Chairman of Nippon Life Insurance Company. Although Nippon Life Insurance Company is one of the Major Shareholders of Panasonic, Mr. Tsutsui does not have any other noteworthy relationships with the Company.

Ms. Hiroko Ota, an Outside Director of the Company, as is described in "1) Member of the Board of Directors and Audit & Supervisory Board Members," holds Panasonic shares, but does not have any other noteworthy relationships with the Company.

Mr. Kazuhiko Toyama, an Outside Director of the Company, as is described in "1) Member of the Board of Directors and Audit & Supervisory Board Members," holds Panasonic shares, but does not have any other noteworthy relationships with the Company.

Mr. Kunio Noji, an Outside Director of the Company, as is described in "1) Member of the Board of Directors and Audit & Supervisory Board Members," holds Panasonic shares, but does not have any other noteworthy relationships with the Company.

Mr. Yoshio Sato, an Outside A&SB Member of the Company, is Director of Sumitomo Life Insurance Company. Although Sumitomo Life Insurance Company is one of the Major Shareholders of Panasonic, Mr. Sato does not have any other noteworthy relationships with the Company.

Note: Major Shareholders: Shareholders listed in (6) Major Shareholders of 1. Information on the Company's Stock, etc.

As for the six (6) Outside Directors, the Company elects them based on the independency stated in the Independence Standards for Outside Directors / Audit & Supervisory Board Members (A&SB Members) that the Company established, and the policy that the election will enhance and strengthen the effectiveness of the monitoring performed by the Board of Directors regarding the execution of business by Directors, from an objective and neutral standpoint. As for the three (3) Outside A&SB Members, the Company appoints them based on the independency stated in the Independence Standards for Outside Directors / Audit & Supervisory Board Members (A&SB Members) that the Company established, and the policy that the election will enhance and strengthen the effectiveness of the audits performed by A&SB Members regarding the execution of business by Directors, from an objective and neutral standpoint.

The Company has established the Independence Standards for Outside Directors / Audit & Supervisory Board Members (A&SB Members) based on the independence standard required by financial instruments exchange such as Tokyo Stock Exchange. Accordingly, all of the Outside Directors and Outside A&SB Members are notified to the financial instrument exchanges as "independent directors/audit & supervisory board members" defined in article 436-2 and others of Securities Listing Regulations of the Tokyo Stock Exchange, who is unlikely to have conflicts of interest with Panasonic's general shareholders.

[Overview of the Independence Standards for Outside Directors / Audit & Supervisory Board Members (A&SB Members)]

The following persons are not considered independent.

- (1) A person executing the operations of a parent company or a subsidiary of the parent company of the Company. (Including a person who corresponds to the person recently or previously, hereinafter, "executing person")
- (2) A person or an executing person of such person who has a major business relationship with the Company, or a person or an executing person of such person with whom the Company has a major business relationship.
- (3) A consultant, accounting expert, or legal expert who receives a significant amount of money or other property from the Company other than compensation as a Director / A&SB Member. If the person who receives such property is an organization such as a legal entity or association, a person who belongs or belonged to the organization corresponds to the relevant person.
- (4) A principal shareholder of the Company (If a principal shareholder is a legal entity, an executing person of such legal entity)

- (5) A close relative listed in items numbered (1) to (4) above (A second-degree or closer relative applies. The same applies, hereinafter) or a close relative of an executing person of the Company or subsidiary of the Company (If an Outside A&SB Member is appointed to as an independent Director / A&SB Member, the person who is or who was an non-executing director / accounting advisor is included in the executing person).

(Notes)

- i) In the items numbered (1), (2), (4) and (5) above, an "executing person" corresponds to any of the following.
- A Director who is an executive director, an executive officer (shikkouyaku) or a director / A&SB Member who executes business of a legal entity, etc.
 - An employee who executes business, a person responsible of serving duties of an employee who executes business of a legal entity in the case that the legal entity is an employee executing business, or other such equivalent person.
 - An employee

Also, the wording "recently" shall be assumed to be the point of time when the item of the agenda of the shareholders' meeting appointing the person as a Director or an A&SB Member are decided, and the wording "previously" shall be assumed to be "within the last three years."

- ii) In the item (2) above, "major" shall be applied to the case in which the amount of the transaction between the Company and a person whom the Company has a business relationship, exceeds 2% of either of their annual consolidated sales.
- iii) In the item (3) above, "significant" shall be applied to the case in which the person (individual) or the organization such as a legal entity or association to which a service provider belongs, in providing a service to the Company, corresponds to any of the followings. A person "belongs or belonged" includes not only a partner, but also an associate as it is so called.
- A person oneself who provides a service: Receives compensation of more than or equal to 12 million yen per year from the Company.
 - An organization to which a service provider belongs: The amount of the transaction between the Company and the organization exceeds 2% of either of their annual consolidated sales. "A person who belonged to an organization" shall be assumed to be identified based on whether the person belonged to the organization within the last three years.
- iv) In the item (4) above, "a principal shareholder" shall mean a shareholder holding 10% or more of the voting rights of the Company.
- v) In the item (5) above, "A person who was a non-executive director / an accounting advisor" shall be assumed to be identified based on whether the person was in the position in the last three years.

3) Mutual cooperation in monitoring or audit by Outside Director or Outside A&SB Members and internal audit, audit by A&SB members and accounting audit, and relationship with internal control department

Outside Directors directly or indirectly cooperate with the internal audit, audit by A&SB Members and accounting audit, receive reports from the Internal Control Department and conduct an effective monitoring through reports on financial results at the Board of Directors and through reviews of the basic policy regarding the development of the internal control systems and other methods.

Outside A&SB Members directly or indirectly cooperate with the internal audit, audit by A&SB Members and accounting audit, receive reports from the Internal Control Department and conduct an effective monitoring through reports on financial results at the Board of Directors, through reviews of the basic policy regarding the development of internal control systems, exchanges of opinions and information at A&SB and other methods.

(3) Audit Status

1) Status of audit conducted by Audit & Supervisory Board Members (A&SB Members)

A&SB Members participate in the general meetings of shareholders and the Board of Directors, receive reports from Directors, Executive Officers, employees and Accounting Auditors, and exercise other auditing authority granted to A&SB Members under the law. Full-time Senior A&SB Members also attend important meetings and conduct visiting audits to business offices in order to ensure effective audits. In order to augment the internal auditing functions in the Group, the Company assigns twelve (12) full-time Audit & Supervisory Officers (A&SOs), who directly report to the Senior A&SB Members of the Company, to the seven (7) Divisional Companies. The Company has also established the Panasonic Group Audit & Supervisory Board Members' Meeting (comprising Senior A&SB Members of the Company, A&SOs, and A&SB Members of the Group Companies), chaired by the Senior A&SB Member of the Company, to enhance coordination between the Company's Senior A&SB Members, and A&SOs and audit & supervisory board members of the Group companies, for effective functioning of the entire group corporate governance. In addition, in the course of the performance of their duties, A&SB Members maintain mutual cooperation with the Internal Audit Department and other departments, which perform business audits and internal control audits, to conduct efficient audits. A&SB Members regularly receive, from the Internal Audit Department and other sections, reports regarding the status involving the internal control system and results of audits. A&SB Members may request the Internal Audit Group or Accounting Auditors to conduct an investigation, if necessary. Also, in order to enhance the effectiveness of the audits conducted by A&SB Members and to ensure the smooth implementation of audits, the Company has established a A&SB Member's Office with seven (7) full-time staff under the direct control of the A&SB.

Mr. Toshihide Tominaga, a Senior A&SB Member of the Company, has substantial finance and accounting knowledge, having held the position of Managing Officer of the accounting sections in the Company.

Mr. Toshio Kinoshita, Outside A&SB Member of the Company, has substantial finance and accounting knowledge, having held the career experiences with a corporate accounting in global companies in Japan and overseas for long periods as a certified public accountant

Based on audit policies and plans the A&SB developed, the A&SB has received 16 reports from management to confirm the status of execution of duties. The A&SB has also received reports on the results of audits conducted by Senior A&SB Members of the Company and other activities, inspected the records of approval of important decisions, and checked the contents of reports made to the Audit Report System and responses to the reports. At the end of each quarter and fiscal year, the A&SB checks the Company's financial results and report documentations on the reviews and the audits conducted by accounting auditors, and compiles an Audit Report as the A&SB, evaluates the accounting auditors, determines re-election or non-reelection of each of the accounting auditors, and confirms compliance with law and regulations regarding the agendas of the General Meeting of Shareholders.

The A&SB held total of the 13 A&SB meetings for the fiscal year ended March 31, 2021, and each meeting took two (2) hours and forty (40) minutes. The attendance rate was 100% (Senior A&SB Members: 100%, Outside A&SB Members: 100%).

The attendance rate of A&SB Members at the A&SB meetings

Classification	Name	Number of meetings held during the term	Number of attendance	Attendance Rate	Remarks
Senior A&SB Member	Mamoru Yoshida	3	3	100%	Retired on June 25, 2020
Senior A&SB Member	Toshihide Tominaga	13	13	100%	-
Senior A&SB Member	Eiji Fujii	10	10	100%	Elected on June 25, 2020
Outside A&SB Member	Yoshio Sato	13	13	100%	-
Outside A&SB Member	Toshio Kinoshita	13	13	100%	-
Outside A&SB Member	Mitsuko Miyagawa	3	3	100%	Retired on June 25, 2020
Outside A&SB Member	Setsuko Yufu	10	10	100%	Elected on June 25, 2020

2) Status of internal audits

Internal audits of the Company cover its overall management, including operations, organizations, and systems, and include audits of management, operations, finance, and internal controls. The internal audits are conducted based on an audit plan developed for each of the fiscal years under the approval of the President and the Executive Officer in charge of Accounting and Finance. In accordance with the condition identified from the audits, managers of the audit department reports the results of audits to the President, the Executive Officer in charge of Accounting and Finance, the A&SB, and the departments concerned. The "Internal Auditing Department" had 12 employees and the "Internal Control Promotion Office" which supervises internal control over financial reporting had 15 employees.

3) Status of accounting audit

a) Audit corporation

KPMG AZSA LLC

b) The length of years the Accounting Auditor has served

For 18 years

c) CPA having executed accounting audit works

CPA having executed accounting audit works	Audit corporation to which CPA belongs
Masahiro Mekada	KPMG AZSA LLC
Masaki Hirota	KPMG AZSA LLC
Masato Nakagawa	KPMG AZSA LLC

d) Audit assistance for Panasonic Corporation

Working with to assist the above accountants in conducting audit of the Company were 133 certified public accountants and 107 other people.

e) Policies and reasons for selecting an auditing corporation and evaluation of an accounting auditor by A&SB Members and A&SB

A&SB confirms and evaluates independency of the auditing system conducted by accounting auditors, its quality, and accounting fees, and determines validity of election and reelection of accounting auditors. Based on the thorough confirmation of the above mentioned points, the Company reelected KPMG AZSA LLC as our accounting auditor for the fiscal year ended March 31, 2021. In the event that dismissal of an accounting auditor is valid pursuant to any of the provisions of Article 340, Paragraph 1 of the Companies Act, A&SB may dismiss the accounting auditor with the approval of all A&SB Members. In addition, in the event that appropriate audit by an accounting auditor is not expected for any reason, A&SB shall determine the content of a proposal calling for dismissal or non-reelection of the accounting auditor, for submission to a general meeting of shareholders.

f) Matters related to a disposition of suspension of services against accounting auditors

There is no item that falls under a disposition of suspension of services.

4) Accounting fees

a) Fees to Certified Public Accountants (KPMG AZSA LLC)

Category	Fiscal year ended March 31, 2021		Fiscal year ended March 31, 2020	
	Fees for audit services (Millions of yen)	Fees for non-audit services (Millions of yen)	Fees for audit services (Millions of yen)	Fees for non-audit services (Millions of yen)
Panasonic Corporation	836	28	772	26

Category	Fiscal year ended March 31, 2021		Fiscal year ended March 31, 2020	
	Fees for audit services (Millions of yen)	Fees for non-audit services (Millions of yen)	Fees for audit services (Millions of yen)	Fees for non-audit services (Millions of yen)
Panasonic Corporation	-	267	-	243
Consolidated subsidiaries	2,006	410	2,090	497
Total	2,006	677	2,090	740

Fees for non-audit services paid by Panasonic Corporation to the Company's accounting auditors, KPMG Group excluding KPMG AZSA LLC, are mainly paid for advisory services relating to accounting and tax matters for the year ended March 31, 2021 and 2020.

Fees for non-audit services paid by its consolidated subsidiaries to the Company's accounting auditors, KPMG Group excluding KPMG AZSA LLC, are mainly paid for advisory services relating to accounting and tax matters for the year ended March 31, 2021 and 2020.

c) Details of other important fees for audit services

There were no material audit fees paid by some of consolidated subsidiaries of Panasonic Corporation to the accounting auditors other than the Company's accounting auditor, KPMG AZSA LLC and KPMG Group for the year ended March 31, 2021 and 2020.

d) Policy on determination of audit fees

In determining the amount of audit fees, the Company considers matters that include the number of days of audit, taking into consideration of the size of the Company, the scope and characteristics of the audit, etc.

e) Grounds for approval of accounting auditors' remuneration, etc. by Audit & Supervisory Board

A&SB reviewed matters including the content of the accounting auditors' audit plan, progress made in performing audits, and the basis on which remuneration estimates are calculated. After deliberating on these matters, A&SB granted the consent required pursuant to Article 399, Paragraph 1 of the Companies Act for the compensation, etc. paid to the accounting auditors.

(4) Remuneration for Directors and Audit & Supervisory Board Members (A&SB Members)

1) Policy on determining amount and process of Directors and A&SB Members

(a) Policy

The Company's remuneration system for Directors comprises a fixed remuneration which is the "basic remuneration," a short-term incentive which is the "performance-based remuneration," and a long-term incentive which is the "restricted stock as remuneration," based on the duties of Directors. The ratios between the basic remuneration, the performance-based remuneration (when standard values were achieved), and the restricted stock compensation are set at 1:0.75:0.25 generally. Outside Directors and A&SB Members receive only a fixed compensation or the "basic remuneration" in the form of monthly monetary remuneration. The optional Nomination and Compensation Advisory Committee, majority-staffed and chaired by independent Outside Directors, deliberates on the appropriateness of the Company's policy and system for determining remuneration of Directors and reports the results to the Board of Directors. The Board of Directors makes a resolution on the policy for determining the remuneration based on the report. The outline is provided below.

The Company determines the amounts of the basic remuneration based on the roles of recipients, taking also into account the management environment, their responsibilities and the remuneration trends of other companies.

The "performance-based remuneration" is provided to boost motivation to improve business performance, and its amount is determined based on a single-year performance evaluation of the entire Company and a specific business of which a Director is in charge. The "performance-based remuneration" is designed in a way that the amount of payment will increase according to the results. The payment rate of the basic remuneration ranges from 0% to 150% (when the standard value is achieved: 75%). The performance is measured using a combination of key management indicators which the Company should continue to attach importance to, such as adjusted operating profit (Note), net profit attributable to Panasonic Corporation stockholders and operating cash flows. Specifically, the performance of Directors is evaluated based on the comparison between the results of each of such indicators in the previous fiscal year and numerical targets of the fiscal year in which they are evaluated.

(Note)

A management indicator for Panasonic calculated by subtracting Cost of sales and Selling, general and administrative expenses from Net sales.

Restricted stock compensation is a type of stock compensation in which the restriction of transfer of shares is lifted subject to Directors serving the Company for a specified period of time, and is allocated with the aim of providing an incentive to continuously improve corporate value and promote further value sharing with the Company's shareholders. The ratio of the incentive option to the overall remuneration package is designed to increase as the position of the recipient Director gets higher. In addition, the amount for each recipient is set based on overall considerations of various factors, such as duties of each Director and the balance with monetary remuneration.

The "restricted stock as remuneration" is a system that a Director will pay out all of the monetary compensation obligations provided as remuneration by Panasonic as stock investment property, and receive issuance or disposition of Panasonic common share. Panasonic and each of applicable Directors shall sign a restricted stock allocation agreement every fiscal year. The specific details of the restricted stock allocation agreement are described below.

Specific details of the restricted stock allocation agreement

(1) Transfer restriction period

The Applicable Directors may not transfer, use as collateral or otherwise dispose of the common stock allocated under the restricted stock allotment agreement (the Allotment Agreement) (the Allotted Shares) for three years from the date of allocation or for a period of up to 30 years therefrom as determined by the Panasonic Board of Directors.

(2) Handling in the case of retirement

If an Applicable Director retires from his/her position as preassigned by the Panasonic Board of Directors before the expiration of the restriction period, Panasonic will at that time acquire the Allotted Shares without consideration, except in the cases of term of office expiration, death, or any other justifiable reason.

(3) Lifting of the restriction period

Notwithstanding the provision of (1) above, Panasonic shall lift the restrictions for all the Allotted Shares at the end of the restriction period, provided that the Applicable Director remained in his/her position as preassigned by the Panasonic Board of Directors during the restriction period. However, in the case of term of office expiration, death or other justifiable reason, set forth in (2) above, if the Applicable Director retires from the position set forth in (2) above before the expiration of the restriction period, the number of Allotted Shares to be freed from restriction and the timing of restriction lifting shall be reasonably adjusted as necessary. In addition, Panasonic shall acquire without consideration, the Allotted Shares on which restrictions were not lifted, upon the lifting of the restrictions in accordance with the above-mentioned rules.

(4) Handling in the case of reorganization, etc.

Notwithstanding the provisions of (1) above, if a merger agreement that will eliminate Panasonic, or a share exchange agreement or a share transfer plan to make Panasonic a wholly owned subsidiary, or any other corporate reorganization measure is approved by the General Meeting of Shareholders (or by the Board of Directors in the case that such a reorganization measure does not require approval by the General Meeting of Shareholders), with regard to the number of Allotted Shares reasonably determined by resolution of the Board of Directors based on the period from the restriction period start date to the reorganization approval date, the restrictions shall be lifted prior to the effective date of the reorganization, etc. In addition, as stated above, Panasonic shall acquire without consideration, the Allotted Shares on which restrictions were not lifted, upon the lifting of the restrictions.

(5) Other matters

Other matters relating to the Allotment Agreement shall be determined by the Board of Directors.

(b) Determination of remuneration amount

Remuneration for Directors is determined within the framework of the maximum total amounts of remuneration for Directors which was determined by resolution of a general meeting of shareholders. As to the amounts of basic remuneration and performance-based remuneration to be paid and the number of shares to be allocated to each recipient, the Nomination and Compensation Advisory Committee examines whether these amounts and number are appropriate in light of the policy for determining the remuneration, and reports the results to the Board of Directors. The Board of Directors has left the decision-making on the remuneration solely to Representative Director, President of the Company who objectively comprehends and supervises overall business execution of the Panasonic Group. As Representative Director, President of the Company makes decisions as to basic remuneration, performance-based remuneration, and restricted stock compensation to each recipient in accordance with the results of deliberation at the Nomination and Remuneration Advisory Committee, the Board of Directors believes his decision is in line with the policy for determining remuneration. Five members of the Nomination and Remuneration Advisory Committee, Outside Director Hiroko Ota (Chair), Outside Director Kazuhiko Toyama, Outside Director Yoshinobu Tsutsui, Director and Chairman of the Board Shusaku Nagae, and Representative Director, President Kazuhiro Tsuga, held a meeting to discuss the remuneration for the current fiscal year. As a result, Representative Director, President Kazuhiro Tsuga determined the details of the remuneration based on the results of the discussion.

(The Committee members and positions are at that time.)

Remuneration for A&SB Members is determined through discussions among A&SB Members within the framework of the maximum total amounts of remuneration for all the A&SB Members which was determined by resolution of a general meeting of shareholders.

(Note)

The aggregated limit for all the Directors' basic remuneration and the performance-based remuneration was determined to be an annual amount of 1,500 million yen by resolution passed at the 100th Ordinary General Meeting of Shareholders held on June 27, 2007. (The number of Directors subject to the resolution as of the resolution date was 19.) The aggregated remuneration limit for all the Outside Directors was determined to be an annual amount of 80 million yen within the above mentioned framework of annual amount of 1,500 million yen by resolution passed at the 109th Ordinary General Meeting of Shareholders held on June 24, 2016. Then, there was a revision from the annual amount of 80 million yen to 150 million yen within the above mentioned framework of annual amount of 1,500 million yen, by resolution passed at the 114th Ordinary General Meeting of Shareholders held on June 24, 2021. (The number of Directors subject to the resolution as of the 2016 resolution date was four. The number of Directors subject to the resolution as of the 2021 resolution date was six.)

Concerning the "restricted stock as remuneration" system, the total limit amount of remuneration that is paid to all the Directors (excluding Outside Directors) was decided to be an annual amount of 500 million yen by resolution passed at the 112th Ordinary General Meeting of Shareholder held on June 27, 2019. (This amount is outside the framework of the remuneration limit of annual 1,500 million yen mentioned above. The number of Directors subject to the resolution as of the resolution date was seven.)

The total remuneration limit for all the A&SB Members was concluded to be an annual amount of 140 million yen by resolution passed at the 100th Ordinary General Meeting of Shareholders held on June 27, 2007. (The number of A&SB Members subject to the resolution as of the resolution date was five.)

(c) Plan and result of indicators for performance-based remuneration for fiscal 2021

Matters concerning indicator for performance-based remuneration are described in (a) Policy. The list below describes the targets and results for the major indicators.

(Reference)

Key indicator associated with performance-based remuneration (previous fiscal year, consolidated basis)	(Unit: Billion yen)	
	Target for fiscal 2019 (announced in May 2019)	Result for fiscal 2019
Adjusted operating profit ^(Note)	300.0	286.7
Net profit attributable to Panasonic Corporation stockholders	200.0	225.7

(Note) A management indicator for Panasonic calculated by subtracting Cost of sales and Selling, general and administrative expenses from Net sales

2) Amount of remuneration on classification, type of remuneration, and its number of persons

Amount of remuneration for Directors and A&SB Members

Classification	Number of persons	Amount (Million yen)			
		Basic remuneration		Performance-based remuneration	Restricted stock as remuneration
Directors (other than Outside Directors)	7	914	507	307	100
A&SB Members (other than Outside A&SB Members)	3	78	78	—	—
Outside Directors	6	80	80	—	—
Outside A&SB Members	4	40	40	—	—

(Note) The above figures include two (2) A&SB members who retired at the conclusion of the 113th Ordinary General Meeting of Shareholders held on June 25, 2020. Restricted stock as remuneration is non-monetary remuneration.

Directors who received remuneration of 100 million yen or more

Name	Classification		Amount (Million yen)		
			Basic remuneration	Performance-based remuneration	Restricted Stock as remuneration
Shusaku Nagae	Director	108	96	—	12
Kazuhiro Tsuga	Director	219	96	76	47
Mototsugu Sato	Director	147	75	56	16
Yasuyuki Higuchi	Director	137	70	54	13
Tetsuro Homma	Director	131	77	54	—

(Note) Restricted stock as remuneration is non-monetary remuneration.

(5) Information on shareholdings

1) Standards and policies on classification of investment securities

The Company classifies investment securities into two (2) categories of being held for pure investment purpose and for purposes other than pure investment. Investment securities held for pure investment purposes refer solely to those are held purposed for being benefited from fluctuation in the values of shares or from dividend in relation to the shares. The Company did not hold any investment securities for pure investment purposes in the fiscal year ended March 31, 2021, under the policy of not holding securities for pure investment purposes.

2) Investment securities held for purposes other than pure investment

- a. Examination method of the shareholding policies and its rationality and details of verification at the Board of Directors, etc. concerning appropriateness of holding each of shares

[Policy on shareholding]

In addition to holding shares of affiliated companies, the Company acquires and holds shares or interests of other companies, if it confirms the holding is necessary and meaningful to increase its mid- to long-term corporate value, considering comprehensively its business strategies and business relations with such partners, among other factors. Such holding is limited to strategic partners which the Company has a close business relation to.

[Examination of rationality in holding]

For shares other than those of affiliated companies, the Company determines that shareholding shall be limited to a minimum necessary, and every year at the Board of Directors Meetings, examines purpose of acquisition and holding each share and cost and benefit with consideration of capital cost, and periodically judges the appropriateness of holding. Based on its examination result, the Company considers disposing and reducing the shares if it determines that the holding cannot be justified.

[Examination at the Board of Directors]

The Board of Directors examined the holding shares other than those of affiliated companies from qualitative perspective such as holding under strategic alliances, holding for further expansion of business transactions, and holding for stable raw materials procurement which is vital for the Company's businesses. In addition, the examination was made from quantitative perspective such as whether return on investment ratio from shareholdings has surpassed capital cost of the Company. As a result, the Board of Directors concluded that all shares have been appropriately held.

b. Number of securities and amount recorded in the balance sheet

	Number of shares held (Stock name)	Total amount recorded in the balance sheet (Million yen)
Unlisted shares	110	21,505
Other than unlisted shares	27	27,623

(Increase in the number of securities held as of March 31, 2021)

	Number of shares held (Stock name)	Total amount acquired due to increase in number of share held (Million yen)	Reasons of increase

**PANASONIC CORPORATION
AND SUBSIDIARIES
Notes to Consolidated Financial Statements**

1. Reporting entity

Panasonic Corporation (hereinafter referred to as "Panasonic") is a company incorporated in Japan. As a comprehensive electronics manufacturer, Panasonic Corporation and its subsidiaries (together referred to as the "Company") are engaged in development, production, sales and service activities in a broad array of business areas with close cooperation between domestic and overseas group companies.

The details of principal businesses and activities of the Company are described in "4. Segment information."

2. Basis of preparation

(1) Compliance of consolidated financial statements with "International Financial Reporting Standards" ("IFRS")

The Company has prepared the consolidated financial statements under IFRS, as issued by the International Accounting Standards Board.

The consolidated financial statements were approved on June 25, 2021 by Representative Director, President, Yuki Kusumi, and Director (CFO), Hirokazu Umeda.

(2) Basis of measurement

The Company's consolidated financial statements have been prepared on a historical cost basis except for the financial instruments, the net amount of liabilities/assets for retirement benefit plans, etc. stated in "3. Significant accounting policies."

(3) Functional currency and presentation currency

The Company's consolidated financial statements are presented in Japanese yen, which is Panasonic's functional currency, and figures are rounded to the nearest million Japanese yen.

3. Significant accounting policies

(1) Basis of Consolidation

1) Subsidiaries

Subsidiaries are entities that are controlled by Panasonic either directly or indirectly through its other subsidiaries. The Company is deemed to control an entity when the Company has exposures or rights to variable returns arising from its involvement in the entity and has an ability to affect those returns through its power over the entity.

The financial statements of subsidiaries are included in the Company's consolidated financial statements from the date on which control commences until the date on which control is lost.

If any accounting policies applied by a subsidiary differ from those applied by the Company, adjustments are made to the consolidated subsidiary's financial statements as necessary.

Receivables and payables, transactions between group companies, and unrealized gains or losses arising from the transactions between group companies are eliminated in the preparation of consolidated financial statements.

Any change in ownership interests in subsidiaries that does not result in a loss of control is accounted for as an equity transaction. When control is lost, gains and losses arising from the loss of control are recognized in profit or loss. Also, gains and losses arising from the loss of control include gains and losses from remeasurement of retained interests at fair value.

2) Associates and joint ventures

Associates are entities over which the Company has significant influence, but not control or joint control, in terms of financial and operating policies.

A joint venture is a specific type of joint arrangement under which operations are independent from each of the investors and the investors have rights only to the net assets of the arrangement. A joint arrangement is a contractual arrangement in which multiple ventures or parties undertake economic activities under joint control and significant decisions require unanimous consent of the parties sharing control.

Investments in associates and joint ventures are accounted for using the equity method from the date on which significant influence commences or the Company obtains joint control until the date on which significant influence or joint control ceases.

In the application of the equity method, when accounting policies applied by an associate or joint venture that is accounted for using the equity method differ from those applied by the Company, adjustments are made to financial statements of the associate or joint venture as necessary.

When an entity no longer meets the criteria for an associate or joint venture and the application of the equity method is discontinued, gains or losses arising from the discontinuance of application of the equity method are recognized in profit or loss.

(2) Business Combinations

The identifiable assets acquired and the liabilities assumed of the acquiree are recognized at the fair values on the acquisition date.

When the total of consideration transferred in a business combination, amount of non-controlling interests in the acquiree and fair value of the equity interest in the acquiree previously held by the acquirer exceeds the net value of identifiable assets and liabilities on the acquisition date, the excess amount is recognized as goodwill.

When the total is lower than the net value of identifiable assets and liabilities, the difference is recognized as profit. Consideration transferred is calculated as the total of the fair value of the assets transferred, liabilities assumed and equity interests issued, and includes fair value of assets or liabilities arising from any contingent consideration arrangement. Acquisition costs are recognized as expenses in the period they are incurred.

Non-controlling interests are measured at fair value or as non-controlling interests' proportionate share of the acquiree's net identifiable assets, for each individual business combination.

(3) Foreign Currency Translation

1) Foreign currency transactions

Foreign currency transactions are translated into the functional currency of Panasonic and each of its subsidiaries using the exchange rates at the date of the transactions.

Foreign currency monetary items at the end of each reporting period are translated into the functional currency using the closing rate, and non-monetary items measured at fair value in foreign currencies are translated into the functional currency using the exchange rates at the date when the fair value was measured.

Exchange differences arising from the translation or settlement are generally recognized in profit or loss.

2) Translation of foreign operations

Assets and liabilities of foreign operations are translated at the closing rate, while their income and expenses are translated at the average rate during the period unless exchange rates fluctuate significantly. Exchange differences arising from translation are recognized in other comprehensive income.

When a foreign operation is disposed of, cumulative translation differences associated with the foreign operation are reclassified to profit or loss at the time of disposal.

(4) Financial instruments

1) Non-derivative financial assets

(i) Initial recognition and measurement

Financial assets that are stocks and bonds are initially recognized on the trade date. All other financial assets are initially recognized on the transaction date.

Financial assets are classified into financial assets measured at amortized cost or financial assets measured at fair value at initial recognition. Depending on whether the financial asset is a debt instrument or equity instrument, this classification is made as follows:

Financial assets that are debt instruments are mainly classified into financial assets measured at amortized cost when the following conditions are both satisfied. Otherwise, they are classified into financial assets measured at fair value through profit or loss ("FVTPL").

- (a) The asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows.
- (b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Except for equity instruments held for trading, each of financial assets that are equity instruments is, in principle, designated as financial assets measured at fair value through other comprehensive income ("FVTOCI").

For financial assets measured at FVTPL, the transaction costs directly attributable to the acquisition of the asset are recognized in profit or loss when they are incurred. Financial assets measured at FVTOCI are measured at the fair value plus transaction costs directly attributable to the acquisition of the asset.

(ii) Subsequent measurement

(a) Financial assets measured at amortized cost

These financial assets are measured at amortized cost using the effective interest method, and interest is recognized as "Finance income" in profit or loss.

(b) Financial assets measured at fair value

These financial assets are measured at fair value.

For equity instruments that the Company has elected to designate as financial assets measured at FVTOCI, changes in fair value are recognized in other comprehensive income. Cumulative gains or losses are transferred to retained earnings when the instrument is derecognized. However, dividends are recognized as "Finance income" in profit or loss.

For financial assets measured at FVTPL, changes in fair value are recognized in profit or loss.

(iii) Derecognition

Financial assets are derecognized when the contractual rights to the cash flows from the financial assets expire or when the contractual rights to receive the cash flows of the financial assets are transferred and substantially all the risks and rewards of ownership of such financial assets are transferred.

(iv) Impairment

For financial assets measured at amortized cost, an assessment is made at the end of each reporting period as to whether or not the credit risk associated with such assets has increased significantly since initial recognition, and the following amounts are recognized as allowance for expected credit losses depending on whether or not a significant increase in credit risk has occurred since initial recognition.

(a) If credit risk has not increased significantly since initial recognition

Amount equivalent to 12-month expected credit losses

(b) If credit risk has increased significantly since initial recognition

Amount equivalent to lifetime expected credit losses

(c) If financial assets, among those whose credit risk has increased significantly since initial recognition, are credit-impaired

Amount equivalent to lifetime expected credit losses

Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower
- a breach of contract, such as a default or past due event
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganization
- the disappearance of an active market for that financial asset because of financial difficulties

However, for trade receivables, contract assets and lease receivables, allowance for expected credit losses in the amount equivalent to lifetime expected credit losses is recognized, regardless of whether a significant increase in credit risk has occurred since initial recognition.

Allowance for expected credit losses is recognized in profit or loss. When an event that results in a reduction in allowance for expected credit losses occurs, the reversal is recognized in profit or loss.

2) Non-derivative financial liabilities

(i) Initial recognition and measurement

Financial liabilities are classified into financial liabilities measured at amortized cost and financial liabilities measured at FVTPL at initial recognition. While all financial liabilities are initially measured at fair value, financial liabilities measured at amortized cost are measured at fair value net of directly attributable issuance costs.

(ii) Subsequent measurement

After initial recognition, financial liabilities are measured based on the classification as follows:

(a) Financial liabilities measured at amortized cost

These financial liabilities are measured at amortized cost using the effective interest method. Amortization using the effective interest method and gains or losses arising in the case of derecognition are recognized as "Finance expenses" in profit or loss.

(b) Financial liabilities measured at FVTPL

These financial liabilities are measured at fair value, and the changes are recognized in profit or loss.

(iii) Derecognition

Financial liabilities are derecognized when the obligation specified in a contract is discharged or cancelled, or expires.

3) Derivatives and hedge accounting

The Company utilizes derivatives such as foreign exchange contracts, cross currency swaps, cross currency interest rate swaps and commodity futures to hedge risk of changes in currency and commodity prices. These derivatives are initially recognized at fair value when the contract is entered into, and are subsequently measured at fair value.

Changes in fair value of derivatives are recognized as profit or loss. However, the effective portion of cash flow hedges is recognized as other comprehensive income.

The Company formally documents relationships between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. The Company also assesses, both at the hedge's inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items.

Hedges that meet the requirements for hedge accounting are classified and accounted for as follows:

(i) Fair value hedges

Changes in fair value of hedging instruments are recognized as profit or loss. Changes in fair value of hedged items attributable to the hedged risk are recognized as profit or loss, while the carrying amount of the hedged item is adjusted for the changes.

(ii) Cash flow hedges

Of changes in fair value of hedging instruments, the effective portion is recognized in other comprehensive income, while the ineffective portion is recognized in profit or loss.

The amounts related to hedging instruments recorded in other comprehensive income are reclassified to profit or loss when the hedged transactions affect profit or loss. In cases where hedged items result in the recognition of non-financial assets or liabilities, the amounts recognized as other comprehensive income are reclassified as adjustments to the initial carrying amount of the non-financial assets or liabilities.

4) Offsetting of financial assets and financial liabilities

The Company offsets financial assets and financial liabilities and presents them as a net amount only when it holds a legally enforceable right to set off the amounts recognized as assets and liabilities and intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(5) Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand, demand deposits withdrawable at any time, and short-term investments with a maturity of three months or less from the acquisition date that are readily convertible into known amounts of cash and are subject to insignificant risk of changes in value.

(6) Inventories

Inventories are recognized at the lower of cost or net realizable value. Cost is principally calculated on an average basis. Cost includes purchase costs, processing costs and all expenses required to bring the inventories to the present location and condition. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated selling costs.

(7) Property, Plant and Equipment

1) Recognition and measurement

Property, plant and equipment are measured using the cost model. Property, plant and equipment are presented at the amount of cost less accumulated depreciation and any accumulated impairment losses.

Cost includes any cost directly attributable to the acquisition of assets, and the initial estimate of the cost of dismantling and removing the item and restoring the site on which it is located.

2) Depreciation

Depreciation is calculated to systematically allocate the cost of property, plant and equipment (except for assets that are not subject to depreciation such as land) using the straight-line method over their estimated useful lives.

The estimated useful lives of major asset items are as follows:

- Buildings and structures: 5 to 50 years
- Machinery and vehicles: 2 to 10 years
- Tools, furniture and fixtures: 1 to 10 years

The depreciation methods, estimated useful lives and residual values are reviewed at the end of each fiscal year, and adjusted as necessary.

(8) Investment property

The right-of-use assets recognized in accordance with IFRS 16, "Leases" includes those that meet the requirements under IAS 40, "Investment property." Investment property is held by the Company to earn rental income. Investment property is measured using the cost model and presented at the amount of cost less accumulated depreciation and any accumulated impairment losses. Depreciation is calculated to systematically allocate the cost of investment property using the straight-line method over the lease term (2 to 35 years).

(9) Goodwill and Intangible Assets

1) Goodwill

Goodwill acquired in a business combination is stated at the amount of cost less accumulated impairment losses. Goodwill is not amortized but tested for impairment.

2) Intangible assets

Intangible assets are measured using the cost model. Intangible assets with finite useful lives are presented at the amount of cost less accumulated amortization and any accumulated impairment losses, while intangible assets with indefinite useful lives are presented at the amount of cost less accumulated impairment losses.

Expenditures in development activities are recognized as an intangible asset only if all of the following requirements can be demonstrated. Otherwise, they are recognized in profit or loss as incurred.

- (i) Technical feasibility of completing the intangible asset so that it will be available for use or sale
- (ii) Intention to complete the intangible asset and use or sell it
- (iii) Ability to use or sell the intangible asset
- (iv) How the intangible asset will generate probable future economic benefits

- (v) Availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset
- (vi) Ability to measure reliably the expenditure attributable to the intangible asset during its development

Amortization is calculated to systematically allocate the cost of intangible assets with finite useful lives using the straight-line method over their estimated useful lives from the date when the asset becomes available for use.

The estimated useful lives of major asset items are as follows:

- Software: 2 to 5 years
- Technology: 3 to 34 years
- Customer: 2 to 29 years

The amortization methods and estimated useful lives are reviewed at the end of each fiscal year, and adjusted as necessary.

(10) Leases

1) Definition of a lease

The Company determines whether a contract is, or contains, a lease in accordance with the following definition of a lease:

- There is an identified asset;
- The Company has the right to obtain substantially all of the economic benefits from use of the identified asset; and
- The Company has the right to direct the use of the identified asset.

2) Lease accounting treatment as a lessee

In principle, for all leases, right-of-use assets that represent a right to use an underlying asset over the lease term and lease liabilities that represent the obligation for lease payments are recognized. The lease term is determined as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. Lease liabilities are initially measured at the present value of unpaid lease payments at the lease commencement date discounted using the interest rate implicit in the lease or the lessee's incremental borrowing rate. After initial recognition, lease liabilities are subsequently measured at amortized cost using the effective interest method. Right-of-use assets are initially measured at cost, which comprises the amount of the initial measurement of the lease liability adjusted for any prepaid lease payments, etc. Right-of-use assets are depreciated using the straight-line method over the lease term. With regard to short-term leases that have a lease term of 12 months or less and leases for which the underlying asset is of low value, right-of-use assets and lease liabilities are not recognized, and lease payments for these leases are recognized as expenses as incurred.

3) Lease accounting treatment as a lessor

In cases where the Company is the lessor, the Company classifies each lease as either a finance lease or an operating lease at the inception of the lease. To classify each lease, the Company makes an overall assessment as to whether or not it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. If it does, a lease is classified as a finance lease. If not, it is classified as an operating lease. As part of this assessment, the Company reviews certain indicators including whether or not the lease term is for the major part of the economic life of the underlying asset.

- In cases where the Company is an intermediate lessor, the head lease and sublease are accounted for separately;
- The classification of a sublease is determined by reference to the right-of-use asset that arises from the head lease, and if the head lease is a short-term lease for which lease payments are recognized as expenses, the sublease is classified as an operating lease;
- If a contract contains lease and non-lease components, the Company applies IFRS15, "Revenue from Contracts with Customers" and allocates the consideration in the contract to each component proportionately on a relative stand-alone selling price basis.

The Company recognizes lease payments from operating leases as income on a straight line basis over the lease term. For lease payments from finance leases, the assets held under a finance lease are recognized and presented as receivables at an amount equal to the net investment in the leases, and lease payments from finance leases are recognized as finance income over the lease term based on a pattern that reflects a constant periodic rate of return the Company's net investment in the lease.

(11) Impairment of Non-Financial Assets

In terms of non-financial assets (excluding inventories and deferred tax assets, etc.), an assessment is made for any indications of impairment on each asset or cash-generating unit. If any such indication exists, then the impairment tests are preformed based on the estimated recoverable amount of the asset or the cash-generating unit.

Regardless of whether or not there are indications of impairment, impairment tests of goodwill and intangible assets with indefinite useful lives are conducted annually. The Company has designated January 1 as the impairment testing date and performs impairment tests of goodwill and intangible assets with indefinite useful lives at least once a year on that date. In addition, impairment tests are performed whenever there is any indication of impairment.

As corporate assets do not independently generate cash inflows, when there is any indication that corporate assets may be impaired, impairment tests are performed based on the recoverable amount of the cash-generating unit or group of cash-generating units to which such assets belong.

The recoverable amount is calculated using the higher of either the amount of value in use, measured by the discounted cash flow method, or the amount of fair value less costs of disposal, measured principally by the discounted cash flow method and a comparable listed company analysis. Under the discounted cash flow method, the estimated amount of future cash flows based on the most recent business plan approved by the Board of Directors are discounted to the present value. The period of the future projection is established based on the period of the business plan after reflecting past experience and verifying its consistency with external information. The discount rate is calculated based on a weighted average cost of capital determined for each cash-generating unit, and the growth rate is determined in view of the long-term average growth rates of the markets or countries to which each cash-generating unit belongs.

If the recoverable amount of the asset or cash-generating unit is less than the carrying amount, the carrying amount is reduced to the recoverable amount, and the amount of difference is recognized as an impairment loss in profit or loss.

Impairment losses recognized for goodwill are not reversed. Other assets or cash-generating units for which impairment losses were recognized in prior years are evaluated to determine whether there is any indication that an impairment loss recognized may no longer exist or may have been decreased. If any such indication exists, the recoverable amount of the asset or cash-generating unit is estimated, and if the recoverable amount exceeds the carrying amount, the impairment loss is reversed. The amount of reversal is recognized in profit or loss up to the carrying amount, net of depreciation or amortization, that would have been determined if no impairment loss had been recognized in prior years.

Goodwill on an investment in associates and joint ventures that forms part of the carrying amount of the investment is not separated from the investment that is subject to impairment consideration as a single asset.

(12) Non-current assets or disposal groups held for sale

Non-current assets or disposal groups are classified as held for sale if their carrying amount will be recovered principally through sale transactions rather than through continuing use. The Company considers the above criteria to be met only if it is highly probable that they will be sold within one year and can be sold immediately in their present condition. Non-current assets or disposal groups classified as held for sale are measured at the lower of their carrying amount or fair value less costs to sell and are not depreciated or amortized.

(13) Income Taxes

Income taxes, which comprise current taxes and deferred taxes, are recognized in profit or loss, except to the extent that they relate to business combinations or items recognized in other comprehensive income or directly in equity.

Current taxes are measured at the expected amount of taxes payable to or recoverable from tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred taxes are recognized based on temporary differences between the carrying amounts of assets and liabilities for accounting purposes and the amounts used for taxation purpose and unused tax losses and tax credits carryforward. Deferred tax assets and liabilities are not recognized for temporary differences related to initial recognition of assets or liabilities in transactions that are not business combinations and affect neither accounting nor taxable profit. Deferred tax liabilities are also not recognized for taxable temporary differences arising from the initial recognition of goodwill.

In principle, deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries, associates and joint ventures. However, if the Company is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future, deferred tax liabilities are not recognized. Deductible temporary differences associated with investments in subsidiaries, associates and joint ventures are recognized only to the extent that it is probable that there will be sufficient taxable profit against which the benefit from temporary differences can be utilized, if the temporary differences will reverse in the foreseeable future.

Deferred taxes are measured using the tax rates that are expected to be applied when they reverse, using tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset if the Company has a legally enforceable right to offset current tax assets against current tax liabilities, and if the same taxation authority levies income taxes on the same taxable entity.

Deferred tax assets are recognized for deductible temporary differences, unused tax losses and tax credits carryforward only to the extent that it is probable that they can be utilized against future taxable profit. Deferred tax assets are reviewed at the end of each reporting period and not recognized to the extent that it is no longer probable that the related tax benefits will be realized.

The Company recognizes an asset or liability that reflects the effect of uncertainty in income taxes at the amount reasonably estimated for uncertain tax positions when it is probable, based on the Company's interpretation of tax laws and regulations, that the tax positions would result in a refund or payment of income taxes.

(14) Employee Benefits

1) Post-employment benefits

The Company operates defined benefit plans and defined contribution plans.

(i) Defined benefit plans

Net defined benefit liability or asset is calculated by deducting the fair value of plan assets from the present value of defined benefit obligation. The ceiling of the amount recorded as assets based on this calculation is the present value of any future economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan. Defined benefit obligation is determined using the projected unit credit method, and its present value is calculated by discounting future estimated benefits. The discount rate is determined by reference to market yields on high-quality corporate bonds as of the end of the fiscal year, reflecting the estimated timing and amount of benefit payments.

Service cost and net interest on the net defined benefit liability or asset are recognized as profit or loss.

Past service cost and gains or losses on settlement is immediately recognized in profit or loss.

Remeasurements of net defined benefit liability or asset including actuarial gains and losses are recognized in other comprehensive income when they are incurred, and immediately transferred to retained earnings.

(ii) Defined contribution plans

Contributions to defined contribution pension plans are recognized as employee benefit expenses in profit or loss in the period during which employees render services.

2) Short-term employee benefits

Short-term employee benefits are measured on an undiscounted basis and are recognized as employee benefit expenses in profit or loss when employees render the related services.

For bonuses and paid absences, estimated amounts are recognized as liabilities when the Company has legal and constructive obligations to make such payments and a reliable estimate of the amounts can be made.

(15) Provisions

Provisions are recognized when the Company has present legal or constructive obligations as a result of past events, it is probable that outflows of resources embodying economic benefits will be required to settle the obligations, and reliable estimates can be made of the amount of obligations.

When the effect of the time value of money is material, the amount of provision is measured at the present value of the expected future cash flows required to settle the obligation.

(16) Equity

1) Ordinary shares

The proceeds from issuance of ordinary shares issued by the Company are recorded in common stock and capital surplus, and costs directly attributable to the issuance of ordinary shares are recognized as a deduction from equity.

2) Treasury shares

When treasury shares are acquired, the amount of consideration paid, which includes directly attributable cost is recognized as a deduction from equity.

When treasury shares are sold, the amount of consideration received is recognized as an increase in equity.

(17) Share-Based Payments

The Company has introduced a Restricted Stock Compensation plan as an incentive plan for its Directors (excluding Outside Directors), Executive Officers and certain other officers. The cost of the restricted stock compensation is measured by reference to the fair value of the shares granted on the grant date and recognized as expenses over the vesting period, with a corresponding increase in equity.

In accordance with the introduction of the new stock compensation plan, the existing share option plan was abolished except for the share options already granted. The cost of share options granted under the share option

plan is estimated at their fair value on the grant date and recognized as expenses over the requisite service period from the grant date to the vesting of rights, with a corresponding increase in equity. The fair value of options granted is calculated using the Black-Scholes model, taking into account terms and conditions of the share options.

(18) Revenue

The Company recognize revenue based on the following five-step model.

Step 1: Identify the contract with a customer

Step 2: Identify the performance obligations

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations

Step 5: Recognize revenue when or as the entity satisfies a performance obligation

The Company is mainly engaged in the sale of household products, industrial products, manufacturing devices, and consumables. For such sales transactions, in principle, the Company recognizes revenue at the time of delivery, because the customer obtains control of the products and the Company satisfies its performance obligation when the products are delivered. The Company is also engaged in sales arrangements under construction-type contracts and the provision of services. For such transactions, if one of the following criteria is met, in principle, the Company recognizes revenue in accordance with the progress towards complete satisfaction of its performance obligations because the customer obtains control of goods or service and, therefore, the performance obligation is satisfied over time as the Company performs under the contract:

- The customer simultaneously receives and consumes the benefits provided by the Company's performance as the Company performs;
- The Company's performance creates or enhances an asset (for example, work in progress) that the customer controls as the asset is created or enhanced; or
- The Company's performance does not create an asset with an alternative use to the Company and the Company has an enforceable right to payment for performance completed to date.

The Company has entered into various sales arrangements with customers including a combination of products, devices, installation, maintenance or other deliverables. For such transactions, the Company identifies as a performance obligation each promise to transfer to the customer a distinct good or service, if both of the following criteria are met:

- The customer can benefit from the good or service either on its own or together with other resources that are readily available to the customer; and
- The Company's promise to transfer the good or service to the customer is separately identifiable from other promises in the contract.

For such transactions, the Company determines the stand-alone selling price at contract inception of the distinct good or service underlying each performance obligation in the contract and allocates the transaction price in proportion to those stand-alone selling prices. The stand-alone selling price is the price at which the Company would sell the good or service separately to a customer.

The Company recognizes as revenue the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer (hereinafter "the transaction price"). However, if the consideration promised in a contract includes a variable amount (hereinafter "variable consideration"), the Company estimates the amount of variable consideration and include in the transaction price some or all of the amount of variable consideration only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

The Company combines two or more contracts entered into at or near the same time with the same customer and account for the contracts as a single contract if one or more of the following criteria are met:

- The contracts are negotiated as a package with a single commercial objective;

- The amount of consideration to be paid in one contract depends on the price or performance of the other contract; or
- The goods or services promised in the contracts are a single performance obligation.

The Company determines whether the Company is a principal or agent to the transaction for each arrangement based on whether or not the Company controls a specified good or service before that good or service is transferred to the customer taking into account the following indicators:

- The Company is primarily responsible for fulfilling the promise to provide the specified good or service;
- The Company has inventory risk before the specified good or service has been transferred to a customer or after transfer of control to the customer; and
- The Company has discretion in establishing the price for the specified good or service.

When the Company is determined as a principal of the transaction, the gross amount of consideration to which the Company expects to be entitled is presented as revenue. When the Company is determined as an agent, any fee or commission to which the Company expects to be entitled is presented as revenue on a net basis.

If a warranty provides a customer with a service in addition to the assurance that the product complies with agreed-upon specifications, the Company identifies it as a single performance obligation and recognize revenue over the period of extended warranty.

(19) Government Grants

Government grants are measured at fair value, when it is reasonably certain that the Company receives the grants and complies with the terms and conditions attached to the grants. Grants are recognized as profit or loss and directly deducted from the related costs over the periods in which the Company recognizes as expenses the related costs for which the grants are intended to compensate. Also, grants for acquisition of an asset are directly deducted from the acquisition cost of the asset.

(20) Earnings Per Share

Basic earnings per share is calculated by dividing net profit attributable to Panasonic Corporation shareholders by the weighted average number of issued ordinary shares less the number of treasury shares during the fiscal year. Diluted earnings per share is calculated with adjustment for the effects of all potential dilutive ordinary shares.

(21) Significant Accounting Estimates and Judgments Involving Estimations

The Company makes judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses for the preparation of consolidated financial statements. Actual results may differ from those accounting estimates and their underlying assumptions.

Estimates and their underlying assumptions are reviewed on an ongoing basis, and revisions to accounting estimates are recognized in the reporting period in which the estimates are revised and in future reporting periods.

Items related to assumptions and estimates that have a risk to cause significant adjustment in the next fiscal year are as follows. More details on the estimation method of these items are described in the relevant section in "3. Significant accounting policies."

- Recoverability of deferred tax assets ("14. Income taxes")
- Defined benefit obligations ("18. Employee benefits")
- Impairment of non-financial assets (including goodwill) ("28. Impairment of non-financial assets")

For deferred tax assets, the recoverability is assessed mainly based on the timing and amount of estimated future taxable income derived from business plans. The business plans are based on certain key assumptions

such as future market trends. Changes in these assumptions due to changes in uncertain future economic conditions and other, may have a material effect on the recoverability of deferred tax assets.

For obligations under the defined benefit plan, the amount of retirement benefit liabilities may be materially affected by changes in the discount rate in response to changes in market interest rates.

For non-financial assets, the recoverable amount of non-financial assets used in impairment tests may be materially affected if there are changes in key assumptions including those in the business plan, and in the estimates of discount rates and growth rates, due to changes in uncertain future economic conditions and other.

Regarding the effects of the novel coronavirus infections, the Company assumes that the impact will continue in some businesses in the next fiscal year based on internal information, such as recent orders and sales trends, as well as information from multiple external sources, such as economic, market and consumption forecasts, and other relevant information. Accounting estimates, including "Recoverability of deferred tax assets" and "Impairment of non-financial assets (including goodwill)," were made under those assumptions and are reflected in the consolidated financial statements.

In the first quarter of the year ended March 31, 2021, there was an adverse economic impact from sluggish markets resulting from lower demand in the automobile and aviation industries as well as stay-at-home orders implemented worldwide expanded from China to across the globe. While supply chain issues in China have improved, the suspension of factories in other parts of the world, including Asian countries, as a result of lockdowns affected the Company's procurement and manufacturing operations. In the second quarter of the year ended March 31, 2021, the adverse impact has gradually eased with the recovery of market conditions in line with the lifting of stay-at-home restrictions and the resumption of business activities in each country and the resolution of supply chain issues. In particular, the automobile industry has been on a recovery trend not only in China but also in the United States and Japan. On the other hand, in the aviation industry, market conditions have continued to be sluggish with the deterioration of air passenger demand indicators. In the third quarter of the year ended March 31, 2021, although the adverse impact on the housing-related business and those for the automobile industry has mostly been diminished, the aviation industry continued to face sluggish market conditions due to a sharp decrease in the number of flight operations and significant reduction in aircraft production. Also, in the fourth quarter of the fiscal year ended March 31, 2021, the sluggish market conditions in the aviation industry continued. In the next fiscal year, businesses in the aviation industry are expected to be affected by global air-travel passenger demand and recovery is likely to take some time. The above accounting estimates are made based on these assumptions regarding future outlook.

There are significant uncertainties regarding the overall duration and severity of the impact of the spread of the novel coronavirus infections and any changes in the above assumptions could adversely affect the financial position and the operating results of the Company for the next fiscal year.

Items for which judgments are made in applying accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements are as follows:

- Scope of subsidiaries, associates and joint ventures ("12. Investments accounted for using the equity method" and "32. Major subsidiaries")
- Determination whether a contract is, or contains, a lease ("9. Leases")
- Classification of financial assets ("13. Other financial assets")
- Recognition of provisions ("19. Provisions")
- Recognition and measurement of revenue ("24. Revenue")
- Determination of cash-generating units in performing impairment tests on non-financial assets ("28. Impairment of non-financial assets")
- Assessment of whether or not there is any indication of impairment for non-financial assets ("28. Impairment of non-financial assets")
- Determination of a significant increases in credit risk of financial assets measured at amortized cost ("31. Financial instruments")
- Classification of assets held for sale ("36. Disposal groups held for sale")

(22) Standards and interpretations that have been issued but not yet applied

Regarding major published IFRS standards and interpretations that were newly issued or amended by the date of approval of the consolidated financial statements but have not been applied as of March 31, 2021 because the application is not yet mandatory, there are no major standards that are expected to have a significant impact on the consolidated financial statements.

(23) Application of new standards and interpretations

1) IFRS 16, "Leases"

The Company has adopted IFRS 16 from April 1, 2019. The amounts of cumulative impact are stated in "Cumulative effects of new accounting standard applied" in "Consolidated statements of Changes in Equity" for the year ended March 31, 2020.

2) IFRIC 23, "Uncertainty over Income Tax Treatments"

The Company has adopted IFRIC 23 from April 1, 2019. IFRIC 23 clarifies the application of IAS 12, "Income taxes" when there is uncertainty over income tax treatment of tax positions. The impact of the application of IFRIC 23 on the consolidated financial statements of the Company was not material.

4. Segment information

(1) Reportable segments

Reportable segments are the components of the Company for which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The Company classifies and discloses five reportable segments, namely "Appliances," "Life Solutions," "Connected Solutions," "Automotive" and "Industrial Solutions."

"Appliances" includes the development, manufacturing and sale of, and provision of related services for products such as room air-conditioners, large-sized air-conditioners, TVs, digital cameras, video equipment, home audio equipment, fixed-phones, refrigerators, washing machines, vacuum cleaners, microwave ovens, rice cookers, personal-care products, compressors, fuel cells and showcases. "Life Solutions" includes the development, manufacturing and sale of, and provision of related services for, products such as lighting fixtures, lamps, wiring devices, solar photovoltaic systems, water-related products, interior furnishing materials, exterior finishing materials, ventilation and air-conditioning equipment, air purifiers, bicycles, and nursing-care-related products (including detached housing, rental apartment housing, land and buildings for sale, home remodeling in the year ended March 31, 2020). "Connected Solutions" includes the development, manufacturing and sale of, and provision of related services for, products such as aircraft in-flight entertainment systems and communications services, electronic-components-mounting machines, welding equipment, projectors, professional AV systems, PCs and tablets. "Automotive" includes the development, manufacturing, and sale of, and provision of related services for, products such as car navigation systems, car AV systems, meter cluster displays, head-up displays, telematics communication units, switches, sensing devices, ECUs, energy management devices and batteries for automobiles. "Industrial Solutions" includes the development, manufacturing, and sale of, and provision of related services for, products such as automation controls, electric motors, FA sensors and components, small lithium-ion batteries, battery modules for power storage, electronic components, dry batteries, micro batteries, electronic materials, semiconductors (which was disposed of on September 1, 2020) and LCD panels.

"Other" includes business activities not belonging to reportable segments, such as sales of raw materials.

The segment information for the year ended March 31, 2020 has been reclassified to conform to the presentation for the year ended March 31, 2021.

(2) Information by reportable segment

Information by reportable segment is shown in the tables below.

(i) For the year ended March 31, 2021

	Yen (millions)

(*1) Property, plant and equipment, intangible assets, right-of-use-assets and investment property

(Includes investment property in the previous fiscal year only)

(*2) Amounts on an accruals basis for property, plant and equipment and intangible assets

(Excludes increases due to business combinations)

The accounting policies for reportable segments are the same as the Company's accounting policies described in Note "3. Significant accounting policies" except for management accounting adjustments referred to below.

Transactions between segments have been conducted at arm's length prices.

Segment profit is calculated based on operating profit. Segment profit of "Automotive" for the year ended March 31, 2021 includes a loss of 16,404 million yen on investments accounted for using the equity method.

The amounts in "Eliminations and adjustments" include revenues and expenses which are not attributable to any reportable segments for the purpose of evaluating operating results of each segment, consolidation adjustments, and eliminations of intersegment transactions.

Adjustments to segment sales to customers for the years ended March 31, 2021 and 2020 mainly include price differences between sales prices to external customers and the internal sales prices adopted for performance

measurement purposes for the sales of consumer products through certain sales departments, management accounting adjustments to sales prices, and revenue of corporate headquarters, etc.

Adjustments to segment profit for the years ended March 31, 2021 and 2020 include profit or loss of corporate headquarters and profit or loss which is attributable to certain sales departments for consumer products. Adjustments also include consolidation adjustments such as impairment losses and so forth on certain goodwill acquired in business combinations managed by corporate headquarters and share of profit or loss of investments accounted for using the equity method which are not allocated to any specific segments.

(3) Information about products and services

This information has been omitted because similar information has been disclosed in "(1) Reportable segments," and "(2) Information by reportable segment."

(4) Information about geographical areas

Net sales and non-current assets (except for Investments accounted for using the equity method, Financial instruments, Deferred tax assets and net Defined benefit pension plan assets) broken down by the customers' location are as follows:

(i) Net sales

	Yen (millions)	
	2021	2020
Japan.....	3,113,276	3,609,077
Americas.....	1,117,049	1,442,292
Europe.....	662,022	720,620
Asia, China and others.....	1,806,447	1,718,612
Consolidated total.....	6,698,794	7,490,601
United States included in North and South America.....	1,053,980	1,345,749
China included in Asia, China and others.....	862,757	754,818

(ii) Non-current assets (except for Investments accounted for using the equity method, Financial instruments, Deferred tax assets and net Defined benefit pension plan assets)

	Yen (millions)	
	March 31	
	2021	2020
Japan.....	1,121,805	1,111,648
Americas.....	325,946	327,239
Europe.....	156,558	163,532
Asia, China and others.....	370,810	353,424
Consolidated total.....	1,975,119	1,955,843

(*) Major countries or regions belonging to geographic areas other than Japan:

Americas: North America, Central and South America

Europe: Europe and Africa

Asia, China and others: Asia, China and Oceania

There is no individually material country in North and South America, Europe, and Asia, and others, whose information should be disclosed separately, except for the United States and China for net sales.

(5) Information about major customers

This information has been omitted because no sales to a single external customer accounted for more than 10% of net sales.

5. Cash and cash equivalents

Cash and cash equivalents as of March 31, 2021 and 2020, consist of cash on hand, demand deposits withdrawable at any time and short-term investments with a maturity of three months or less. The balances on the consolidated statements of financial position are equal to the balances on the consolidated statements of cash flows. Cash and cash equivalents are classified as financial assets measured at amortized cost.

6. Trade receivables and contract assets

Components of trade receivables and contract assets are as follows. Trade receivables are classified as financial assets measured at amortized cost.

	Yen (millions)	
	March 31	
	2021	2020
Trade notes receivable.....	65,267	48,405
Trade accounts receivable.....	971,090	828,954
Contract assets.....	174,748	186,437
Less allowance for credit losses.....	(16,714)	(12,593)
Total.....	<u>1,194,391</u>	<u>1,051,203</u>

7. Inventories

Components of inventories are as follows:

	Yen (millions)	
	March 31	
	2021	2020
Finished goods.....	485,045	456,155
Work in process.....	117,174	111,687
Raw materials.....	230,350	225,674
Total.....	<u>832,569</u>	<u>793,516</u>

The write-downs of inventories that were recognized as expenses in "Cost of sales" in the consolidated statements of profit or loss for the years ended March 31, 2021 and 2020 are 47,488 million yen and 50,543 million yen, respectively. The reversal of write-downs for the years ended March 31, 2021 and 2020 were not material.

8. Property, plant and equipment

(1) Carrying amounts

	Yen (millions)					
	Land	Buildings and structures	Machinery and vehicles	Tools, furniture and fixtures	Construction in progress	Total

9. Leases

(1) As lessee

The Company leases real properties (land, buildings and structures), machinery, vehicles, tools, furniture and fixtures, etc. The Company has leases with a wide range of different terms and conditions negotiated on an individual basis to provide each contracting party with greater flexibility to align its business needs. Extension and termination options are mainly included in real property leases, and in particular for certain real property leases in Japan, the lessee can repeatedly exercise the extension options. The Company may decide to exercise extension options as necessary to utilize those real property leases for business. Payments related to the extension options are not included in the measurement of the lease liability if the exercise of those options by the Company is not reasonably certain. The Company has no lease with significant purchase options, escalation clauses and restrictions or covenants (such as for dividends or, restrictions on additional borrowing and leases, etc.) imposed by leases.

Income and expenses relating to leases are as follows:

	Yen (millions)	
	2021	2020
Expenses relating to leases		
Depreciation charge for right-of-use assets.....	69,921	78,626
Expenses relating to short-term leases.....	6,067	9,880
Expenses relating to leases of low-value assets.....	7,245	5,558
Expenses relating to variable lease payments (*1).....	1,118	944
Interest expense on lease liabilities.....	3,294	18,084
Income relating to leases		
Income from sub-leasing of right-of-use assets (*2).....	1,784	1,536

(*1) This expense is not included in the measurement of lease liabilities.

(*2) Rental income from right-of-use assets recorded as investment property is excluded.

The total cash outflow for leases in the years ended March 31, 2021 and 2020 are 86,919 million yen and 129,553 million yen, respectively.

Components of right-of-use assets are as follows:

	Yen (millions)					
	Right-of-use assets					
	Real properties	Machinery	Vehicles	Tools, furniture and fixtures	Other	Total
Balance as of April 1, 2019.....	248,380	38,116	16,478	11,121	1,872	315,967

Depreciation.....	(53,525)	(14,630)	(6,344)	(3,334)	(793)	(78,626)
Impairment losses.....	(289)	(96)	(2)	(2)	-	(389)
Exchange differences on foreign currencies.....	(4,212)	(1,150)	(242)	(10)	(58)	(5,672)
Other changes.....	(5,335)	(238)	(789)	(2,413)	(226)	(9,001)
Balance as of March 31, 2020.....	216,460	22,830	13,374	6,854	1,557	261,075
Additions.....	66,837	8,633	6,248	4,218	1,241	87,177
Transfers to assets held for sale or other disposal.....	(13,065)	(2,411)	(412)	(166)	(51)	(16,105)
Depreciation.....	(50,335)	(10,540)	(6,514)	(1,948)	(584)	(69,921)
Impairment losses.....	(5,028)	(23)	(6)	(21)	-	(5,078)
Exchange differences on foreign currencies.....	3,411	233	232	4	85	3,965
Other changes.....	(6,698)	(3,321)	(336)	(407)	(397)	(11,159)
Balance as of March 31, 2021.....	211,582	15,401	12,586	8,534	1,851	249,954

The maturity analysis of lease liabilities is stated in Note "31. Financial instruments (3) Liquidity risk management."

(2) As lessor

(i) Finance leases

The Company accounts for certain machinery and vehicles, etc. as finance leases. The machinery and vehicles, etc. are related to product supply contracts with a specific customer which was determined to contain leases. With respect to the finance leases, the Company has no gross investment in the lease as of March 31, 2021 and March 31, 2020. Of consideration received from the customer based on the product supply contract, the amount allocated to the lease component that exceeds the fixed lease payment is accounted for as a variable lease payment and recognized as income. The variable lease payment recognized as revenue in the years ended March 31, 2021 and 2020 are 4,808 million yen and 9,023 million yen, respectively.

(ii) Operating leases

Maturity analysis of future lease payments to be received (undiscounted lease payments to be received after the reporting period), is as follows:

	Yen (millions)	
	March 31,2021	March 31,2020
Within 1 year.....	1,256	354
Over 1 year to 2 years.....	915	284
Over 2 years to 3 years.....	872	252
Over 3 years to 4 years.....	692	238
Over 4 years to 5 years.....	413	90
Over 5 years.....	2,590	52
Total.....	6,738	1,270

For operating leases, lease income except for income relating to variable lease payments that do not depend on an index or a rate in the years ended March 31, 2021 and 2020 are 12,821 million yen and 10,236 million yen, respectively. Income relating to variable lease payments that do not depend on an index or a rate in the year ended March 31, 2021 is 75 million yen.

(3) Sale and leaseback transactions

Panasonic Homes Co., Ltd. and its subsidiaries carry out sale and leaseback transactions in which they build apartment homes under a construction contract with a lessor (owner), and subsequently leases back the whole property from the lessor (owner), upon completion of the construction, to perform leasing management of the property. Profit of 594 million yen (Sales of 14,412 million yen, cost of sales; 13,818 million yen) was recognized from the sale and leaseback transactions for the year ended March 31, 2020.

The Company has no gains or losses arising from sale and leaseback transactions in the year ended March 31, 2021.

10. Investment property

Panasonic Homes Co., Ltd. and its subsidiaries perform leasing management of the property that has been built by them under a construction contract with a lessor (owner), and has subsequently been leased back from the lessor (owner), upon completion of the construction. The properties related to this business are held to earn rentals from sub-leasing to individual tenants, and they are recognized as "Investment property" because they meet the requirements under IAS 40, "Investment property". In January 2020, the Company transferred all shares of Panasonic Homes Co., Ltd. and its subsidiaries to Prime Life Technologies Corporation, an entity accounted for using the equity method by the Company. As a result, Panasonic Homes Co., Ltd. and its subsidiaries are no longer consolidated subsidiaries of the Company as of March 31, 2020.

(1) The amounts recognized in profit or loss are as follows:

	Yen (millions)
	2020
Rental income from investment property.....	30,749
Direct operating expenses (depreciation, etc.) arising from investment property that generated rental income...	16,334

(2) Reconciliation of the beginning and ending balances of the carrying amounts, acquisition cost, and accumulated depreciation and impairment losses are as follows:

	Yen (millions)
	March 31, 2020
Balance as of March 31, 2019.....	—
Adjustment by application of IFRS 16.....	281,182
Balance as of April 1, 2019.....	281,182
Additions.....	21,179
Depreciation.....	(15,163)
Transfers to assets held for sale or other disposal.....	(287,198)
Balance as of March 31, 2020.....	—
Acquisition cost as of March 31, 2020.....	—
Accumulated depreciation and impairment losses as of March 31, 2020.....	—

11. Goodwill and intangible assets

(1) Carrying amounts

	Yen (millions)					
	Intangible assets					Total
	Goodwill	Software	Technology	Customer	Others	
Balance as of March 31, 2019	395,747	83,440	105,931	80,579	53,860	323,810

Disposal and others.....	-	(2,389)	(713)	(768)	(2,159)	(6,029)
Balance as of March 31, 2021	304,853	92,925	94,509	66,936	42,819	297,189

Amortization is included in "Cost of sales" and "Selling, general and administrative expenses" in the consolidated statements of profit or loss.

Additions include internally generated intangibles of 41,419 million yen and 43,643 million yen for the years ended March 31, 2021 and 2020, respectively. Internally generated intangibles principally relate to software and technology.

Intangible assets with indefinite useful lives are included in "Others" in the above table and the carrying amounts as of March 31, 2021 and 2020 are 38,780 million yen and 39,865 million yen, respectively. Since these assets are mainly trade names that are expected to exist as long as the business continues, they have been determined to have indefinite useful lives.

"Disposal and others" is due mainly to reclassification to assets held for sale.

(2) Acquisition cost

	Yen (millions)					
	Intangible assets					
	Goodwill	Software	Technology	Customer	Others	Total
As of March 31, 2019.....	789,282	404,751	541,934	133,150	115,155	1,194,990

(4) Individually material intangible assets

There were no individually material intangible assets as of March 31, 2021 and 2020.

12. Investments accounted for using the equity method

(1) Investments in associates

There are no associates that are individually material to the Company.

The carrying amounts of investments in individually immaterial associates and the Company's share of comprehensive income of those companies are as follows:

	Yen (millions)	
	March 31	
	2021	2020
Carrying amounts of investments.....	182,452	129,348

	Yen (millions)	
	2021	2020
Net profit (loss).....	(1,306)	4,884
Other comprehensive income (loss).....	1,765	(440)
Comprehensive income	459	4,444

(2) Investments in joint ventures

1) Material joint ventures

Prime Life Technologies Corporation ("PLT"), established together with Toyota Motor Corporation ("Toyota"), is the joint venture material to the Company. PLT is a joint venture in which the Company owns a 50% equity interest and has joint control with Toyota, who own the same percentage of ownership interest as the Company. The material subsidiaries of PLT are Panasonic Homes Co., Ltd., Panasonic Construction Engineering Co., Ltd., and Matsumura-gumi Corporation, which were subsidiaries of the Company, Toyota Housing Corporation and Misawa Homes Co., Ltd., which were subsidiaries of Toyota. The principal place of business is Japan. The principal lines of business are town development and other housing-related businesses.

The following table reconciles the summarized financial information after adjusting the provisional amount of PLT to the carrying amount of the Company's interest in PLT.

Summarized information from the Consolidated Statements of Financial Position is as follows:

	Yen (millions)	
	March 31, 2021	March 31, 2020
Current assets.....	515,924	542,875
Non-current assets.....	677,276	667,957
Total assets.....	1,193,200	1,210,832
Current liabilities.....	317,941	345,950

Company's share of other comprehensive income.....	463	(729)
Company's share of comprehensive income.....	(2,725)	695
Dividends received by the Company.....	-	-

For the year ended March 31, 2020, the above table shows the information from January 7, 2020 (date of acquisition) to March 31, 2020.

2) Immaterial joint ventures

The carrying amounts of investments in individually immaterial joint ventures and the Company's share of comprehensive income of those companies are as follows:

	Yen (millions)	
	March 31	
	2021	2020
Carrying amounts of investments.....	102,645	2,596

	Yen (millions)	
	2021	2020
Net profit (loss).....	(16,259)	(1,010)
Other comprehensive income (loss).....	(453)	5
Comprehensive income (loss).....	(16,712)	(1,005)

13. Other financial assets

(1) Details

Derivatives include those designated as hedging instruments.

Other financial assets are summarized as follows:

	Yen (millions)	
	March 31	
	2021	2020
Financial assets, measured at amortized cost:		
Time deposits.....	48,382	35,028
Accounts receivable (non-trade).....	72,028	64,350
Others.....	34,751	58,134
Financial assets, measured at FVTPL:		
Shares (debt instruments).....	42,117	-
Derivatives.....	39,575	34,410
Financial assets, measured at FVTOCI:		
Shares.....	143,519	171,526
Others.....	281	281
Total.....	380,653	363,729
Current assets.....	149,629	148,436
Non-current assets.....	231,024	215,293

(2) Financial assets measured at FVTOCI

The Company has designated shares held principally for the purpose of maintaining and strengthening transactional or business relationships as financial assets measured at FVTOCI.

1) Fair value by major issuer

The fair values by major issuer are as follows:

	Yen (millions)	
	March 31	
Security names	2021	2020
TBS Holdings, Inc.	8,282	6,652
Renesas Electronics Corporation.....	5,000	1,621
Daiwa House Industry Co., Ltd.	4,959	4,097
Toray Industries, Inc.	2,333	1,756
Bingshan Refrigeration & Heat Transfer Technologies Co.,Ltd.	1,737	2,147
Tesla, Inc.	-	80,897
Others.....	121,208	74,356
Total.....	143,519	171,526

Others mainly include unlisted stocks of which the fair values as of March 31, 2021 and 2020 are 109,079 million yen and 64,603 million yen, respectively. The main issuer of the unlisted stocks as of March 31, 2021 and 2020 is PHC Holdings Corporation.

2) Derecognition of financial assets measured at FVTOCI

During the years ended March 31, 2021 and 2020, the Company has disposed certain financial assets measured at FVTOCI and has derecognized them due to principally reconsideration of strategic shareholdings to promote efficiency of asset holdings.

The fair values and the accumulated gains or losses at the time of sale are as follows:

	Yen (millions)	
	2021	2020
Fair values.....	421,232	23,335
Accumulated gains.....	418,406	6,289

The above accumulated gains (losses) are the amounts before tax. The gains (losses) after tax in other comprehensive income that were transferred to retained earnings in connection with the above derecognition for the years ended March 2021 and 2020 are 318,053 million yen and 4,386 million yen, respectively.

14. Income taxes

(1) Deferred tax assets and liabilities

1) Major components of, and changes in, deferred tax assets and liabilities

Major components of deferred tax assets and liabilities are as follows:

	Yen (millions)			
	Consolidated statements of financial position		Consolidated statements of profit or loss	
	March 31		Year ended March 31	
	2021	2020	2021	2020
Deferred tax assets:				
Inventories.....	45,325	53,159	(8,121)	(1,744)
Provisions and accrued expenses.....	67,103	72,516	(6,429)	(9,356)
Property, plant and equipment.....	89,693	85,644	3,796	2,625
Retirement benefit liabilities.....	22,763	60,100	736	(5,497)
Tax loss carryforwards.....	45,450	31,608	13,841	7,561
Others.....	71,068	78,173	(11,360)	21,122
Total deferred tax assets.....	341,402	381,200	(7,537)	14,711
Deferred tax liabilities:				
Investment in securities.....	(31,706)	(21,808)	(1,609)	-
Intangible assets.....	(44,951)	(44,091)	(1,145)	4,519
Others.....	(59,719)	(58,340)	(1,773)	1,004
Total deferred tax liabilities.....	(136,376)	(124,239)	(4,527)	5,523
Net deferred tax assets.....	205,026	256,961	(12,064)	20,234

Changes in net deferred tax assets are as follows:

	Yen (millions)	
	2021	2020
Deferred tax assets, net at the beginning of the year.....	256,961	250,346
Amounts recognized through profit or loss.....	(12,064)	20,234
Amounts recognized through other comprehensive income.....	(46,834)	(8,226)
Acquisitions, divestitures and others.....	6,963	(5,393)
Deferred tax assets, net at the end of the year.....	205,026	256,961

2) Deductible temporary differences, tax loss carryforwards and tax credit carryforwards for which deferred tax assets are not recognized

In recognizing deferred tax assets, the Company considers whether it is probable that part or all of deductible temporary differences, tax loss carryforwards and tax credit carryforwards can be deducted against future taxable profits and income taxes. The ultimate recoverability of deferred tax assets is determined based on the level of taxable profits during the period in which temporary differences, tax loss carryforwards and tax credit carryforwards are deductible. In this determination, the Company takes into account the expected periods in which deferred tax liabilities will be realized, projection of future taxable profits and tax planning opportunities. Based on the level of taxable profits in the past and projection of taxable profits during the future periods in which deferred tax assets are deductible, the Company believes that it is probable that deferred tax assets recognized as of March 31, 2021 will be realized. As a result of the assessment of recoverability, the

Company has not recognized deferred tax assets for certain deductible temporary differences, tax loss carryforwards and tax credit carryforwards.

The amounts of the deductible temporary differences, tax loss carryforwards and tax credit carryforwards for which deferred tax assets are not recognized are as set out below.

	Yen (millions)
	March 31, 2021
Deductible temporary differences.....	385,041
Tax loss carryforwards of which:	
expire in the years ending from March 31, 2022 through 2031.....	76,142
expire thereafter or do not expire.....	149,454
Total.....	225,596
Tax credit carryforwards.....	27,543

	Yen (millions)
	March 31, 2020
Deductible temporary differences.....	523,689
Tax loss carryforwards of which:	
expire in the years ending from March 31, 2021 through 2030.....	235,401
expire thereafter or do not expire.....	141,040
Total.....	376,441
Tax credit carryforwards.....	24,600

The Company applies the consolidated tax-return system in Japan. The above amounts do not include tax loss carryforwards related to local taxes (inhabitant tax and enterprise tax), as they are not covered by the consolidated tax-return system. The amounts of tax loss carryforwards related to local tax for which deferred tax assets are not recognized, are 263,757 million yen (inhabitant tax) and 1,283,532 million yen (enterprise tax) as of March 31, 2021, expiring from the year ending March 31, 2022 through 2031, and 320,099 million yen (inhabitant tax) and 1,377,818 million yen (enterprise tax) as of March 31, 2020, expiring from the year ending March 31, 2021 through 2030.

3) Taxable temporary differences associated with investments in subsidiaries, etc. for which deferred tax liabilities are not recognized

Deferred tax liabilities are not recognized if the Company is able to control the timing of the reversal of the temporary differences and it is probable that the taxable temporary differences will not reverse in the foreseeable future, while recognized deferred tax liabilities are included in Deferred tax liabilities - Others.

The total amount of taxable temporary differences associated with investments in subsidiaries and associates for which deferred tax liabilities are not recognized was 698,481 million yen and 449,805 million yen as of March 31, 2021 and 2020, respectively.

(2) Income tax expenses

- 1) The components of income tax expenses recognized in the consolidated statements of profit or loss are as follows:

	Yen (millions)	
	2021	2020
Current tax expenses.....	64,862	71,246
Deferred tax expenses:		
Temporary differences originated and reversed.....	23,707	(300)
Changes in recognition of deferred tax assets.....	(11,643)	(19,934)
Total.....	12,064	(20,234)
Income tax expenses total.....	76,926	51,012

Current tax expenses include the amount of benefits arising from tax losses, tax credits or temporary differences, for which deferred tax assets were not recognized in prior periods. These effects decreased current tax expenses by 12,964 million yen and 32,713 million yen for the years ended March 31, 2021 and 2020, respectively. Additionally, included in current tax expenses for the year ended March 31, 2020 is an income tax benefit of Panasonic Corporation on consolidation, which is as a result of the write-off of the Company's loan to MT Picture Display Co., Ltd (MTPD) as part of the liquidation procedures of MTPD.

Deferred tax expenses include the amount of benefits arising from tax losses, tax credits or temporary differences, for which deferred tax assets were not recognized in prior periods. These effects, which include those due to the recognition of a deferred tax asset for the deductible temporary differences in investments due to the resolution to transfer the Company's semiconductor business for the year ended March 31, 2020, decreased deferred tax expenses by 15,688 million yen and 28,717 million yen for the years ended March 31, 2021 and 2020, respectively. Additionally, the effect of amendments to corporate tax law decreased deferred tax expenses by 741 million yen for the year ended March 31, 2020.

2) Reconciliation of effective tax rates

Panasonic is subject mainly to corporate tax, inhabitant tax and enterprise tax, and the combined statutory tax rate calculated based on these taxes was 30.4%. Foreign subsidiaries are subject to income taxes of their respective jurisdictions.

Panasonic and certain of its subsidiaries have applied a consolidated tax-return system.

Differences between the combined statutory tax rates and the effective tax rates are as follows:

	%	
	2021	2020
Combined statutory tax rates.....	30.4%	30.4%
Effects of lower tax rates in foreign jurisdictions.....	(6.5)	(4.9)
Expenses not deductible for tax purposes.....	1.1	1.2
Change in unrecognized deferred tax assets.....	(5.7)	12.6
Effects attributable to investments in subsidiaries, etc.....	7.1	(21.8)
Goodwill impairment.....	2.3	3.3
Effects of amendments to corporate tax law.....	-	(0.3)
Others.....	0.8	(3.0)
Effective tax rates.....	29.5%	17.5%

15. Other assets

Components of other assets are as follows:

	Yen (millions)	
	March 31	
	2021	2020
Advance payments.....	26,448	25,793
Prepaid expenses.....	36,679	33,821
Consumption tax receivables.....	25,014	20,004
Income taxes receivable.....	53,708	51,975
Retirement benefit assets.....	22,360	14,318
Others.....	64,493	70,754
Total.....	228,702	216,665
Current assets.....	144,833	162,822
Non-current assets.....	83,869	53,843

16. Short-term debt and long-term debt

(1) Details

Short-term debt and long-term debt are measured at amortized cost. The details of short-term debt and long-term debt are as follows:

Yen (millions)			
March 31, 2021			
	Book value	Average interest rate (%) (*1)	Due
Current liabilities:			
Current portion of bonds (*2).....	279,918	-	-
Short-term borrowings.....	24,722	4.4%	-
Current portion of long-term borrowings.....	5,150	1.5%	-
Total current liabilities.....	309,790	-	-
Non-current liabilities:			
Bonds (*2).....	874,854	-	Year ended March 31, 2023 - 2031
Long-term borrowings.....	4,874	1.6%	Year ended March 31, 2023 - 2027
Total non-current liabilities.....	879,728	-	-
Total.....	1,189,518	-	-

Yen (millions)			
March 31, 2020			
	Book value	Average interest rate (%) (*1)	Due
Current liabilities:			
Short-term bonds.....	191,000	0.0%	-
Short-term borrowings.....	32,012	3.6%	-
Current portion of long-term borrowings.....	27,608	1.5%	-
Total current liabilities.....	250,620	-	-
Non-current liabilities:			
Bonds (*2).....	949,979	-	Year ended March 31, 2022 - 2030
Long-term borrowings.....	3,852	2.0%	Year ended March 31, 2022 - 2027
Total non-current liabilities.....	953,831	-	-
Total.....	1,204,451	-	-

(*1) Average interest rate refers to the weighted average interest rate on the ending balance.

(*2) The contractual terms of the bonds are as follows:

Yen (millions)

	March 31,2021	March 31,2020	Interest rate (%)	Due (Year ended March 31)
13th Unsecured Straight bond	80,000	80,000	0.568%	2022
14th Unsecured Straight bond	100,000	100,000	0.934%	2025
15th Unsecured Straight bond	200,000	200,000	0.19%	2022
16th Unsecured Straight bond	70,000	70,000	0.3%	2024
17th Unsecured Straight bond	130,000	130,000	0.47%	2027
USD-denominated senior notes due 2022 (*3)	110,710	108,130	2.536%	2023
USD-denominated senior notes due 2024 (*3)	110,710	108,130	2.679%	2025
USD-denominated senior notes due 2029 (*3)	55,355	54,065	3.113%	2030
18th Unsecured Straight bond	30,000	30,000	0.23%	2026
19th Unsecured Straight bond	70,000	70,000	0.37%	2030
20th Unsecured Straight bond	80,000	-	0.08%	2024
21st Unsecured Straight bond	70,000	-	0.19%	2026
22nd Unsecured Straight bond	20,000	-	0.29%	2028
23rd Unsecured Straight bond	30,000	-	0.39%	2031

(*3) The Company utilizes cross-currency interest rate swaps to hedge risk of changes in currency associated with the USD-denominated senior notes. With the cross-currency interest rate swaps, USD-denominated fixed interest rate are exchanged with JPY-denominated fixed interest rate and each exchanged substantial interest rate is as follows:

USD-denominated senior notes due 2022 (1,000 million USD) 0.1613%

USD-denominated senior notes due 2024 (1,000 million USD) 0.2369%

USD-denominated senior notes due 2029 (500 million USD) 0.5034%

The cross-currency interest rate swaps are designated as hedging instruments and the effects of hedge accounting are described in Note "31. Financial instruments (5) Derivatives and hedge accounting."

(2) Changes in liabilities arising from financing activities

Changes in liabilities arising from financing activities for the years ended March 31, 2021 and 2020 are as follows:

	Yen (millions)						
	Short term bonds	Borrowings	Bonds	Lease liabilities	Other financial liabilities	Derivatives (*1)	Total
Balance as of March 31, 2020.....	191,000	63,472	949,979	266,860	38,006	(17,423)	1,491,894
Changes from financing cash flows.....	(191,000)	(36,243)	199,496	(69,195)	(7,592)	-	(104,534)
Non-cash changes:							
New leases, etc.....	-	-	-	83,601	-	-	83,601
Acquisitions and divestitures.....	-	-	-	(1,919)	-	-	(1,919)

Balance as of March 31, 2020.....	191,000	63,472	949,979	266,860	38,006	(17,423)	1,491,894

(*1) Derivatives are held for hedging currency risk associated with the USD-denominated senior notes.

(3) Assets pledged as collateral for liabilities

As is customary in Japan, short-term and long-term bank loans are made under general agreements which provide that security and guarantees for future and present indebtedness will be given upon request of the bank, and that the bank shall have the right, when the obligations become due, or in the event of their default, to offset cash deposits against such obligations due to the bank.

Each of the loan agreements grants the lender the right to request additional security or mortgages on certain assets.

Assets pledged as collateral as of March 31, 2021 and 2020 are not material.

17. Trade payables

Trade payables are measured at amortized cost. Components of trade payables are as follows:

	Yen (millions)	
	March 31	
	2021	2020
Trade notes payable.....	219,609	223,656
Trade accounts payable.....	826,008	746,039
Total.....	<u>1,045,617</u>	<u>969,695</u>

18. Employee benefits

(1) Defined benefit plans

Panasonic and certain subsidiaries have contributory, funded defined benefit pension plans and non-funded lump-sum retirement payment plans. Benefits under these plans are primarily calculated based on the combination of years of service and compensation. Regarding the externally funded defined benefit pension plan, the Company and the pension investment trustee are required by law to act with the interests of the pension plan members as the highest priority, and are responsible to manage the plan assets based on the prescribed policy. Also, the Company continues to have an obligation to make contributions set forth by the defined benefit pension plans in the future. The amount of contributions is regularly reviewed to the extent permitted by laws and regulations.

Effective April 1, 2002, Panasonic and some of the subsidiaries amended their benefit pension plans by introducing a "point-based benefits system," and changing their lump-sum payment plans to cash balance pension plans. In addition, effective July 1, 2013, Panasonic and certain domestic subsidiaries made a transition from the defined benefit pension plan to a defined contribution pension plan with respect to employees' future service. Besides, effective July 1, 2019, Panasonic and certain domestic subsidiaries made a transition of parts of the benefit obligations for certain groups of employees attributable to their past service prior to June 30, 2013 in the defined benefit pension plan to the defined contribution pension plan. Along with this transition, effective July 1, 2020, Panasonic Corporate Pension Fund changed its management form and transferred from a fund-type corporate pension fund to a contract-type corporate pension fund, named Panasonic Group Defined Benefit Corporate Pension.

(i) Present value of defined benefit obligations

Changes in the present value of defined benefit obligations are as follows:

	Yen (millions)	
	2021	2020
Beginning balance.....	1,571,896	2,160,880
Service cost.....	8,654	9,095
Interest cost.....	12,400	10,812
Remeasurements of defined benefit obligations:		
Actuarial gains and losses arising from changes in demographic assumptions.....	(659)	(506)
Actuarial gains and losses arising from changes in financial assumptions.....	11,104	(27,069)
Other.....	3,790	1,633
Benefits paid.....	(109,223)	(111,259)
Foreign currency exchange differences.....	11,515	(7,061)
Settlements.....	-	(415,334)
Effect of business combinations and disposals.....	-	(49,295)
Ending balance.....	1,509,477	1,571,896

Service cost is included in "Cost of sales" and "Selling, general and administrative expenses" in the consolidated statements of profit or loss.

Interest cost is included in "Finance expenses" in the consolidated statements of profit or loss.

Settlements are included in "Other income (expenses), net" in the consolidated statements of profit or loss.

Settlements for the year ended March 31, 2020 include the effect of transferred obligations of 410,425 million yen, which were transferred to the defined contribution pension plan from the Panasonic Corporate Pension Fund effective July 1, 2019.

Weighted average duration of defined benefit obligations as of both March 31, 2020 and March 31, 2021 are 12 years.

Significant actuarial assumptions used to calculate the present value of defined benefit obligations are as follows:

	March 31,2021	March 31,2020
Discount rate.....	0.8%	0.8%

The effect of 0.5% change in the discount rate on the present value of defined benefit obligation is as follows, holding other assumptions constant.

	Yen (millions)	
	Effect on the present value of defined benefit obligations	
Change in an assumption	March 31,2021	March 31,2020
0.5% increase.....	75,235 (decrease)	80,105 (decrease)
0.5% decrease.....	81,721 (increase)	86,951 (increase)

The sensitivity analysis assumes that other assumptions remain unchanged. In reality, any change in other assumptions may affect the sensitivity analysis.

(ii) Fair value of plan assets

Each plan of the Company has a different investment policy, which is designed to ensure sufficient plan assets are available to provide future payments of pension benefits to the eligible plan participants and is individually monitored for compliance and appropriateness on an on-going basis. Considering the expected long-term rate of return on plan assets, each plan of the Company establishes a "basic" portfolio comprised of the optimal combination of equity instruments and debt instruments. Plan assets are invested in individual equity and debt instruments using the guidelines of the "basic" portfolio in order to generate a total return that will satisfy the expected return on a mid- to long-term basis. The Company evaluates the difference between expected return and actual return of invested plan assets on an annual basis to determine if such differences necessitate a revision in the formulation of the "basic" portfolio. The Company revises the "basic" portfolio when and to the extent considered necessary to achieve the expected long-term rate of return on plan assets.

The Company's pension plan assets allocation is approximately 25% for equity instruments, approximately 45% for debt instruments, and approximately 30% for other investments, primarily in life insurance company general accounts.

For the Company's major defined benefit pension plans, equity instruments are mainly investments in listed equity securities and are widely diversified, including Japanese equity, developed international equity and equity in emerging markets. The investments in debt instruments are comprised primarily of government, municipal, and corporate bonds. The Company mainly chooses debt securities with rating above BBB, high liquidity and appropriate repayment terms, and has appropriately diversified the investments by sector and geography. Regarding investments in life insurance company general accounts, the contracts with the insurance companies include a guaranteed interest rate and return of capital. Other investments include fund-of-funds investments, equity long/short hedge fund investments and private equity investments. Fund-of-funds investments and equity long/short hedge fund investments are primarily invested in listed equity securities with trading frequency and a stable return, while private equity investments are diversified products with low correlation.

Changes in the fair value of plan assets are as follows:

	Yen (millions)	
	2021	2020
Beginning balance.....	1,364,268	1,924,857
Interest income.....	11,195	9,868
Remeasurements of plan assets:		
Return on plan assets.....	138,933	(17,618)
Employer contributions.....	9,056	27,233
Benefits paid.....	(108,527)	(110,372)
Foreign currency exchange differences.....	12,056	(6,883)
Settlements.....	-	(415,334)
Effect of business combinations and disposals.....	-	(47,483)
Ending balance.....	1,426,981	1,364,268

Settlements for the year ended March 31, 2020 include the effect of transferred plan assets of 410,425 million yen, which were transferred to the defined contribution pension plan from the Panasonic Corporate Pension Fund effective July 1, 2019.

The Company plans to contribute 8,985 million yen to the plans in the year ending March 31, 2022.

The fair value of plan assets by asset category is as follows:

	Yen (millions)		
	March 31, 2021		
	With quoted market price in an active market	With no quoted market price in an active market	Total
Cash and cash equivalents.....	62,217	-	62,217
Equity instruments:			
Japanese companies.....	57,372	-	57,372
Foreign companies.....	19,003	-	19,003
Commingled funds*1.....	-	318,368	318,368
Debt instruments:			
Government and municipal bonds.....	74,669	-	74,669
Corporate bonds.....	-	8,399	8,399
Commingled funds*2.....	-	519,306	519,306
Life insurance company general accounts.....	-	256,122	256,122
Other*3.....	-	111,525	111,525
Total.....	213,261	1,213,720	1,426,981

Yen (millions)			
March 31, 2020			
	With quoted market price in an active market	With no quoted market price in an active market	Total
Cash and cash equivalents.....	64,415	-	64,415
Equity instruments:			
Japanese companies.....	39,640	-	39,640
Foreign companies.....	12,827	-	12,827
Commingled funds*1.....	-	248,689	248,689
Debt instruments:			
Government and municipal bonds.....	76,460	-	76,460
Corporate bonds.....	-	5,779	5,779
Commingled funds*2.....	-	536,925	536,925
Life insurance company general accounts.....	-	269,978	269,978
Other*3.....	-	109,555	109,555
Total.....	193,342	1,170,926	1,364,268

*1 These funds invest mainly in listed equity securities, of which approximately 40% are Japanese equities and 60% are foreign equities.

*2 These funds primarily invest in Japanese government bonds and foreign government bonds.

*3 Other investments primarily include fund-of-funds investments and equity long/short hedge fund investments.

(iii) Effect of asset ceiling

Changes in the effect of asset ceiling are as follows:

Yen (millions)		
	2021	2020
Beginning balance.....	-	6,628
Interest cost.....	-	22
Remeasurements of asset ceiling:		
Changes in the effect of asset ceiling.....	-	-
Effect of business combinations and disposals.....	-	(6,650)
Ending balance.....	-	-

Note: When a defined benefit plan is in surplus, the amount of retirement benefit assets (other non-current assets) recorded on the consolidated statements of financial position is limited to a ceiling defined by the present value of any future economic benefits available in the form of reductions in future contributions to the defined benefit plan.

(iv) Assets and liabilities recognized in the consolidated statements of financial position

The amounts of assets and liabilities recorded in the consolidated statements of financial position with regard to defined benefit plans are as follows:

	Yen (millions)	
	March 31	
	2021	2020
Present value of defined benefit obligations.....	1,509,477	1,571,896
Fair value of plan assets.....	1,426,981	1,364,268
Effect of asset ceiling.....	-	-
Total.....	82,496	207,628
Amount recognized :		
Retirement benefit liabilities.....	104,856	221,946
Retirement benefit assets.....	22,360	14,318
Net amount.....	82,496	207,628

(2) Defined contribution plans

The amounts of expenses recorded with regard to defined contribution plans were 30,426 million yen and 32,757 million yen for the years ended March 31, 2021 and 2020, respectively.

(3) Employee benefit expenses

In the consolidated statements of profit or loss, the total of employee benefit expenses included in "Cost of sales" and "Selling, general and administrative expenses" were 1,502,415 million yen and 1,652,322 million yen for the years ended March 31, 2021 and 2020, respectively. In addition, the amounts of employee benefit expenses included in "Other income (expenses), net" were a loss of 3,720 million yen and a loss of 12,300 million yen for the years ended March 31, 2021 and 2020, respectively.

19. Provisions

A breakdown of movements in provisions is as follows:

	Yen (millions)			
	Provision for product warranties	Provision for restructuring	Other provisions	Total
Balance as of March 31, 2020.....	46,035	12,379	111,230	169,644
Additions.....	24,523	20,908	16,100	61,531
Utilized.....	(22,524)	(25,251)	(30,466)	(78,241)
Others.....	741	-	(1,308)	(567)
Balance as of March 31, 2021.....	48,775	8,036	95,556	152,367

The provisions are presented in the statements of financial position as follows:

	Yen (millions)	
	March 31	
	2021	2020
Current liabilities.....	149,095	165,746
Non-current liabilities.....	3,272	3,898
Total.....	152,367	169,644

A warranty for quality and performance of products and services is provided for a certain limited period, and provision for product warranties is recorded at the time of sale for the estimated amount of after-sale service expenses within warranty periods based on past experiences.

Provision for restructuring is recorded for the estimated amount of expenses for restructuring activities that have been implemented for the purpose of improvement in operating efficiency and promotion of cost efficiency in and outside Japan. The timing of payment is affected by a future business plan, etc., but these provisions are usually short-term by nature with most payments completed within one year of the incurrence.

Other provisions are principally provision for expenses related to environmental remediation and provision for litigation-related expenses.

To ensure appropriate disposal by March 31, 2027 of electric equipment containing polychlorinated biphenyls (PCB) (hereinafter, "PCB equipment") that may have been buried under the Company's manufacturing facilities and sites of its former manufacturing facilities in accordance with the Act on Special Measures concerning Promotion of Proper Treatment of PCB Wastes, provision for expenses related to environmental remediation is recognized for estimated total expenses for necessary actions, such as investigating whether or not PCB equipment has been buried under the Company's manufacturing facilities and sites (including excavation, storage and disposal costs of already discovered PCB equipment, and soil replacement).

Provision for litigation-related expenses, etc., relates to litigation or governmental investigations involving the Company and certain subsidiaries. Depending upon the outcome of these different proceedings, the Company and certain subsidiaries may be subject to an uncertain amount of settlements or fines, and accordingly the Company has accrued certain probable and reasonably estimated amounts for such settlements or fines.

20. Other financial liabilities

Other financial liabilities, except for derivative liabilities, are measured at amortized cost. Derivatives are measured at fair value and the changes in fair value are recognized as profit or loss.

Components of other financial liabilities are as follows:

	Yen (millions)	
	March 31	
	2021	2020
Derivative liabilities.....	23,919	23,501
Accounts payable (non-trade).....	77,941	48,722
Deposits received-current.....	131,235	137,126
Others.....	20,282	19,641
Total.....	253,377	228,990
Current liabilities.....	220,583	212,674
Non-current liabilities.....	32,794	16,316

21. Other liabilities

Components of other liabilities are as follows:

	Yen (millions)	
	March 31	
	2021	2020
Accrued expenses.....	417,409	384,534
Accrued payroll, etc.....	210,636	201,588
Refund liabilities.....	123,576	111,840
Others.....	43,769	40,790
Total.....	795,390	738,752
Current liabilities.....	784,864	730,456
Non-current liabilities.....	10,526	8,296

22. Equity

(1) Capital management

The Company's basic policy is to manage methods, terms and conditions and others for fund management and financing of business activities, and to promote reduction in cost of funds and stability and improvement of the financial structure through increase in the efficiency of investments.

In addition, the Company considers that it is important to generate and improve free cash flows through the enhancement of its profitability, continuous inventory reduction, concentration of capital expenditure, review of portfolio assets and other means to achieve medium to long term business development.

Key indicators used by the Company in capital management are as follows:

	2021	2020
Net Cash (millions of yen, *1).....	194,481	(419,481)
Shareholder's equity ratio.....	37.9%	32.1%
Return on equity.....	7.2%	11.5%
Free Cash Flow (millions of yen, *2).....	680,634	224,207
Capital investment (millions of yen, *3).....	231,029	268,850
Depreciation (millions of yen, *4).....	179,394	204,990

(*1) This was calculated by deducting interest-bearing debt (the total of "Short-term debt, including current portion of long-term debt", "Long-term debt" and "Lease liabilities" (Current liabilities and Non-current liabilities)) from the total of "Cash and cash equivalents" and time deposits and others included in "Other financial assets."

(*2) This is the total of cash flows from operating activities and cash flows from investing activities.

(*3) This is the amount of increases in "Property, plant and equipment" on an accrual basis.

(*4) This is the amount of depreciation of "Property, plant and equipment."

There is no significant capital restriction applicable to the Company.

(2) Common stock

All shares issued by Panasonic are common stock without par value. Issued shares are fully paid.

Total number of shares authorized to be issued and the number of issued shares of Panasonic is as follows:

	Shares	
	2021	2020
Total number of shares authorized to be issued.....	4,950,000,000	4,950,000,000
Number of shares issued:		
Balance at the beginning of the year.....	2,453,326,997	2,453,053,497
Changes during the period (*1).....	236,400	273,500
Balance at the end of the year.....	2,453,563,397	2,453,326,997

(*1) The reason of increase during the year ended March 31, 2021 and 2020 is the issuing of restricted stock.

The numbers of shares of treasury stock included in the above number of shares issued were 120,239,132 shares and 120,365,301 shares as of March 31, 2021 and 2020, respectively.

(3) Capital surplus and retained earnings

The Companies Act of Japan provides that an amount equal to 10% of cash dividends be appropriated as a capital reserve or legal reserve until the aggregated amount of capital reserve and legal reserve equals 25% of stated capital. The capital reserve and legal reserve are not available for dividends but may be transferred to capital surplus, retained earnings or stated capital upon approval at the shareholders' meeting.

In accordance with the Companies Act of Japan, there are certain restrictions on distributable amount in connection with repurchased treasury stock. As a result, retained earnings of 209,979 million yen and 210,234 million yen are restricted as of March 31, 2021 and 2020, respectively, from distributions of cash dividends.

(4) Other components of equity

A breakdown of other components of equity and details of movements is as follows:

	Yen (millions)				
	Items that will not be reclassified to profit or loss		Items that may be reclassified to profit or loss		
	Remeasurements of defined benefit plans	Financial assets measured at FVTOCI	Exchange differences on translation of foreign operations	Net changes in fair value of cash flow hedges	Total
Balance as of March 31, 2019	-	40,934	(204,123)	(1,228)	(164,417)
Arising during the period:

Transfer to hedged non-financial assets.....	-	-	-	182	182
Transfer to retained earnings.....	(82,817)	(318,053)	-	-	(400,870)
Balance as of March 31, 2021	-	34,832	(179,860)	6,658	(138,370)

(5) Dividends

1) Dividends for the year ended March 31, 2021 are summarized as follows:

(i) Amount of cash dividends paid

Resolution date	Class	Cash dividends (millions of yen)	Dividends resource	Cash dividends per share (yen)	Record date	Effective date
Board of Directors meeting held on May 18, 2020	Common stock	34,994	Retained earnings	15.0	March 31, 2020	June 11, 2020
Board of Directors meeting held on October 29, 2020	Common stock	23,333	Retained earnings	10.0	September 30, 2020	November 30, 2020

(ii) Cash dividends resolved in the year ended March 31, 2021 but effective in the following fiscal year

Resolution date	Class	Cash dividends (millions of yen)	Dividends resource	Cash dividends per share (yen)	Record date	Effective date
Board of Directors meeting held on May 10, 2021	Common stock	23,333	Retained earnings	10.0	March 31, 2021	June 4, 2021

2) Dividends for the year ended March 31, 2020 are summarized as follows:

(i) Amount of cash dividends paid

Resolution date	Class	Cash dividends (millions of yen)	Dividends resource	Cash dividends per share (yen)	Record date	Effective date
Board of Directors meeting held on May 9, 2019	Common stock	34,986	Retained earnings	15.0	March 31, 2019	June 7, 2019
Board of Directors meeting held on October 31, 2019	Common stock	34,993	Retained earnings	15.0	September 30, 2019	November 29, 2019

(ii) Cash dividends resolved in the year ended March 31, 2020 but effective in the following fiscal year

Resolution date	Class	Cash dividends (millions of yen)	Dividends resource	Cash dividends per share (yen)	Record date	Effective date
Board of Directors meeting held on May 18, 2020	Common stock	34,994	Retained earnings	15.0	March 31, 2020	June 11, 2020

23. Share-based payment plan

(1) Restricted stock remuneration plan

Panasonic has introduced a restricted stock remuneration plan (hereinafter the "Plan") for the Directors (excluding Outside Directors) and Executive Officers and certain other officers of the Company. The Plan aims to promote further value sharing with Panasonic's shareholders, in addition to providing them an incentive for sustainable improvement of Panasonic's corporate value.

Under the Plan, each of the eligible Directors or Executive Officers and Panasonic shall enter into a restricted stock allocation agreement, and on the condition of being a Director or Executive Officer during the period determined by the Board of Directors, the Director or Executive Officer makes contribution in kind with all the monetary compensation receivables awarded by the Company, and in turn receives Panasonic common shares newly issued or disposed of from treasury. There are transfer, pledge and other restrictions on the shares allocated for a period between 3 and 30 years from the date of allocation as determined by the Board of Directors. Under certain circumstances, the Company will acquire all or part of the restricted shares without payment of consideration.

The information about restricted shares that were granted during the years ended March 31, 2021 and 2020 are set out below. The fair value per share of the restricted shares at the date of grant was measured by reference to the closing price of Panasonic common stock in the first section of the Tokyo Stock Exchange on June 24, 2020 and on July 30, 2019, one business day prior to the resolution of the Board of Directors.

	Year ended March 31	
	2021	2020
Grant date.....	July 13, 2020	August 30, 2019
Number of shares of restricted stock granted (common stock).....	236,400 share	273,500 share
Fair value at grant date (per share).....	961.4 yen	924.7 yen

(2) Share-based payment stock option plans

Panasonic introduced a plan for share-based payment stock options (stock acquisition rights) for its Directors (excluding Outside Directors), Executive Officers and certain other company executives of Panasonic in fiscal year 2015 and has been operating this plan until fiscal year 2019, as an incentive for the participants to further contribute to the improvement of long-term operating results and higher corporate value through sharing the benefits and risks of share price fluctuations with shareholders.

Stock acquisition rights granted under this plan are fully vested on grant date. As an exercise condition, during the period when the stock acquisition rights may be exercised, the holder may exercise the stock acquisition rights on or after the day immediately following the day on which such holder loses the status of the Director, Executive Officer or any status equivalent thereto, of Panasonic (the "Status Losing Date"). As for the stock acquisition rights issued after August 2016, the holder may exercise the rights on or after the day immediately following Status Losing Date or the day immediately following the day when three (3) years have passed since the day immediately following the day the stock acquisition rights were allotted, whichever is the earlier. The exercise price of the stock acquisition rights is 1 yen per share.

Upon exercise of each stock acquisition right, in principle, 100 shares of common stock of the Company are granted; provided, however, that in the case that Panasonic conducts a share split (including an allotment without consideration of shares of common stock of the Company) or share consolidation of the Company's common stock, the number of shares granted will be adjusted in accordance with a specific formula.

The exercise period is specified in the allotment contract. When stock acquisition rights are not exercised during the period, the stock acquisition rights will be forfeited.

Under this plan of share-based payment stock options, for those who were eligible to receive the stock acquisition rights between fiscal year 2015 and fiscal year 2019 and worked overseas during that period, the stock acquisition rights that were reserved to be granted during their overseas work will be granted to them when they returns from overseas work. By following this approach, the Company's stock acquisition rights were granted in July 2020.

The Company's stock acquisition rights that existed in the years ended March 31, 2021 and 2020 are as follows:

	Grant date	Number of stock acquisition rights	Fair value of one stock acquisition right on grant date (yen)	Exercisable period
Panasonic Corporation stock acquisition rights issued in August 2014	August 22, 2014	2,088	105,400	From August 23, 2014 to August 22, 2044
Panasonic Corporation stock acquisition rights issued in August 2015	August 20, 2015	1,729	112,400	From August 21, 2015 to August 20, 2045
Panasonic Corporation stock acquisition rights issued in August 2016	August 23, 2016	5,800	71,300	From August 24, 2016 to August 23, 2046
Panasonic Corporation stock acquisition rights issued in August 2017	August 23, 2017	3,561	112,800	From August 24, 2017 to August 23, 2047
Panasonic Corporation stock acquisition rights issued in July 2018	July 18, 2018	3,473	106,400	From July 19, 2018 to July 18, 2048
Panasonic Corporation stock acquisition rights issued in July 2020	July 13, 2020	58	63,300	From July 14, 2020 to July 13, 2050

Change in the number of stock acquisition rights and their weighted average exercise prices is follows:

Year ended March 31

	2021		2020	
	Number of stock acquisition rights	Weighted-average exercise price (yen per share)	Number of stock acquisition rights	Weighted-average exercise price (yen per share)
Outstanding at the beginning of the year.....	12,363	1	15,678	1
Granted.....	58	1	-	-
Forfeited.....	-	-	-	-
Exercised.....	(1,685)	1	(3,315)	1
Expired.....	-	-	-	-
Outstanding at the end of the year.....	10,736	1	12,363	1
Exercisable at the end of the year.....	7,076	1	6,623	1

The weighted average share prices at the exercise date of stock options exercised during the years ended March 31, 2021 and 2020 are 923 yen and 867 yen per share, respectively. The exercise price of exercisable stock acquisition rights in the years ended March 31, 2021 and 2020 is 1 yen each. In the years ended March 31, 2021 and 2020, the weighted average remaining contractual terms for outstanding stock acquisition rights at the year-end were 14.2 years and 17.1 years, respectively, and for exercisable stock acquisition rights at the year-end were 8.0 years and 8.6 years, respectively.

The measurement method for fair value of stock options granted during the year, is Black-Scholes model. Fair value at grant date and key inputs (per share information) are follows:

	Year ended March 31	
	2021	2020
Panasonic Corporation stock acquisition rights issued in July 2020		-
Fair value at grant date.....	633 yen	- yen
Stock price at grant date (*1).....	995.7 yen	- yen
Exercise price.....	1 yen	- yen
Expected remaining term.....	15 years	- years
Expected volatility.....	35.01 % (*2)	- %
Risk-free interest rate (*3).....	0.25 %	- %
Expected dividend yield.....	3.01 % (*4)	- %

(*1) The closing price of common stock of Panasonic Corporation on the Tokyo Stock Exchange at grant date was used.

(*2) The figure was calculated based on the closing price of ordinary transactions of shares of common stock of Panasonic Corporation on each transaction date for 15 years (from July 13, 2005 to July 13, 2020).

(*3) The interest rate, at the grant date, of government bonds with remaining maturity corresponding to the expected remaining term (15 years) was used.

(*4) The figure was calculated as "dividends per share (actual dividends paid for the year ended March 31, 2020) / share price at the grant date."

(3) Stock-based compensation expenses

Expenses recorded for the restricted stock compensation in the year ended March 31, 2020 were 223 million yen and expenses recorded for the restricted stock compensation and the share-based payment stock options in the year ended March 31, 2021 were 229 million yen.

These stock-based compensation expenses were included in "Selling, general and administrative expenses" in the consolidated statements of profit or loss.

24. Revenue

(1) Revenue recognized from contracts with customers

In the years ended March 31, 2021 and 2020, sales on the consolidated statements of profit or loss were 6,698,794 million yen and 7,490,601 million yen, respectively. These sales mainly consist of revenue from contracts with customers. Revenue that is recognized from other sources relates mainly to sub-leases and is included in the disclosure of "(2) Disaggregation of revenue" as the amount is not significant.

(2) Disaggregation of revenue

Revenue from contracts with customers is disaggregated by product category to reflect its nature properly and geographical area where customers are located. Revenue by product and geographical area is further disaggregated by reportable segment.

The products of Appliances are categorized into "B2C" and "B2B." "B2C" includes products such as room air-conditioners, TVs, digital cameras, video equipment, home audio equipment, fixed-phones, refrigerators, washing machines, vacuum cleaners, microwave ovens, rice cookers and personal-care products. "B2B" includes products such as compressors, fuel cells and showcases.

The products of Life Solutions are categorized into "Electrical construction materials," "Home building products" and "Other." "Electrical construction materials" includes products such as lighting fixtures, lamps, wiring devices, solar photovoltaic systems, ventilation and air-conditioning equipment and air purifiers. "Home building products" includes products such as water-related products, interior furnishing materials, exterior furnishing materials. "Other" includes products such as bicycles and nursing-care-related products.

The products of Connected Solutions are categorized into "Vertical solutions" and "Product solutions." "Vertical solutions" is a solution business provided directly by business divisions where development, production and sales are integrated and includes products such as aircraft in-flight entertainment systems and communications services, electronic-components-mounting machines and welding equipment. "Product solutions" is a solution business provided by developing and manufacturing business divisions through sales departments, and includes products such as projectors, professional AV systems, PCs and tablets.

The products of Automotive are categorized into "Automotive solutions" and "Automotive batteries." "Automotive solutions" includes products such as automotive-use infotainment systems, electrical components and automotive mirrors. "Automotive batteries" includes products related to automotive-use batteries.

The products of Industrial Solutions are categorized into "Systems," "Device" and "Other." "Systems" includes products such as automation controls, electric motors and lithium-ion batteries, which are the group of businesses focused on systems and modules. "Device" includes products such as electronic components, electronic materials and dry batteries, which are the group of businesses that differentiates in materials and processes. "Other" includes products such as semiconductors (which was disposed of on September 1, 2020) and LCD panels.

Disaggregated revenue is set out below. In addition, for the year ended March 31, 2020, the products of Life Solutions were categorized into "Electrical construction materials," "Architecture" and "Other (including home building products);" however, due to the reorganization of the housing business, from the year ended March 31, 2021, the product categories have been changed to "Electrical construction materials," "Home building products" and "Other." As a result, detached housing, rental apartment housing, land and buildings for sale and home remodeling that were previously classified as "Architecture" in the year ended March 31, 2020 have been reclassified as "Other."

For the year ended March 31, 2021

The reconciliation of "Disaggregated revenue" by reportable segment with "Sales to external customers" in Note "4 (2) Information by reportable segment" is as follows:

As of April 1, 2020, certain businesses were transferred between reportable segments, and reportable segment figures for the year ended March 31, 2020 have been reclassified to conform to the presentation for the year ended March 31, 2021.

"Disaggregated revenue" of each reportable segment adjusted for "Adjustments for management accounting," "Cross-selling" and "Sales of third party products, etc." reconciles to "Sales to external customers" in Note 4 "(2) Information by reportable segment." "Adjustments for management accounting" mainly includes adjustments to sales prices for management accounting. "Cross-selling" mainly includes adjustment for sales of products through other segments. "Sales of third party products, etc." mainly includes adjustments for sales of products manufactured by third parties which are not included in sales for management accounting purposes.

For the year ended March 31, 2021

	Yen (millions)

(3) Information about performance obligations

Information about performance obligations (the nature of the goods or services, the timing of satisfaction of performance obligations, its determination and variable consideration) is set out below. The period between when the entity transfers a promised good or service to a customer and when the customer pays for that good or service will typically be one year or less, and a significant financing component is not included in the amount of the consideration promised by the customer. Therefore, the Company does not adjust the promised amount of consideration for the effect of the time value of money.

The Company has entered into a variety of transaction arrangements with customers including a combination of products, equipment, installation, maintenance, etc. If certain criteria are met, the Company identifies distinct performance obligations in such transactions and recognize as revenue the amount of the transaction price allocated to each performance obligation according to the satisfaction of its performance obligations.

1) Sales of products

The Company is mainly engaged in the sale of products such as household products ("B2C" in Appliances segment, etc.), industrial products and manufacturing devices ("B2B" in Appliances segment, "Electrical construction materials," "Home building products" in Life Solutions segment, "Vertical solutions" and "Product solutions" in Connected Solutions segment, "Automotive solutions" and "Automotive batteries" in Automotive segment, "Systems" and "Device" in Industrial Solutions segment, etc.), and consumables.

For such sales transactions, the Company recognizes revenue at the time of delivery, in principle, because the customer obtains control of the products and the Company satisfies its performance obligation when the products are delivered. In addition, for a long term product supply contract with a specific customer, the Company recognizes revenue in accordance with progress towards completion of the contract period, because the performance obligation is satisfied over time.

The Company recognizes revenue as the amount of the consideration (transaction price) to which it expects to be entitled in exchange for transferring promised goods or services to a customer.

The Company deducts from net sales certain price adjustments that are given to compensate for a decline in product prices in relation to sales to its consumer products distributors and also deducts sales rebates under incentive programs offered to those distributors (variable consideration). The Company includes in the transaction price an amount of variable consideration only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is subsequently resolved. The Company recognizes a refund liability if the Company has already received consideration from a customer and expects to refund some or all of that consideration to the customer.

2) Construction-type contracts

The Company is engaged in design, construction, etc. for housing, electric and building equipment, environment-related equipment ("Electrical construction materials" and "Home building products" in Life Solutions segment), disaster prevention/security-related equipment ("Product solutions" in Connected Solutions segment) and system integration ("Product solutions" in Connected Solutions segment).

For such sales transactions, in principle, revenue is recognized in accordance with progress toward complete satisfaction, because the performance obligation is satisfied over time. Only if the Company can reasonably measure the progress towards complete satisfaction, sales are recorded using the input method based on the percentage of actual costs incurred to date to estimated total costs at the end of each reporting period. When the initial estimate of sales or progress up to the completion may be changed, the Company reviews the estimate.

If the Company cannot reasonably measure the progress towards complete satisfaction, the amount equivalent to the extent of costs incurred that is considered highly recoverable is recorded as sales. Costs are recognized as cost of sales in profit or loss in the period during which they are incurred.

A portion of the amount received before the completion of construction that relates to unsatisfied performance obligation is recognized as contract liabilities.

3) Rendering of services

The Company is engaged in services such as repairs and maintenance incidental to 1) Sales of products or 2) Construction-type contracts, and investigation, analysis, supervision, maintenance, etc. of electric and building equipment, environment-related equipment and disaster prevention/security-related equipment.

For such sales transactions, in principle, the Company recognizes revenue according to the progress towards complete satisfaction, because the performance obligation is satisfied over time, in the same way as for 2) Construction-type contracts. The Company recognizes revenue in some contracts over the service period under a flat-rate.

The Company recognizes revenue over the period when providing an extended warranty service incidental to some sales transactions, because the performance obligation is satisfied over time. In addition, the Company charges a fee to customers under a flat-rate or pay-for-use system with respect to communication services in the Connected Solutions segment and recognizes revenue over the service period, because the performance obligation is satisfied over time.

(4) Transaction price allocated to the remaining performance obligations

The aggregate transaction price allocated to the remaining obligations that are unsatisfied as of March 31, 2021 is 102,180 million yen (as of March 31, 2020 is 102,763 million yen.) The amount mainly relates to construction-type contracts and the Company expects to recognize it as revenue within approximately seven years (as of March 31, 2020 is approximately seven years.) As the Company elects to use a practical expedient, the above amount does not include the transaction price allocated to the remaining obligations that are unsatisfied as of the end of the reporting period for contracts with an original expected duration of one year or less. The above aggregate transaction price does not include any significant estimated amounts of variable consideration.

(5) Contract balances

The balances of trade receivables, contract assets and contract liabilities from contracts with customers are summarized as follows:

	Yen (millions)	
	March 31, 2021	March 31, 2020
Assets from contracts with customers.....	1,194,391	1,051,203
Trade receivables.....	1,019,643	864,766
Contract assets.....	174,748	186,437
Liabilities from contracts with customers.....	122,696	101,662
Contract liabilities.....	122,696	101,662

Contract assets relate mainly to the Company's right to consideration in exchange for goods or services for which the Company has satisfied or partially satisfied the performance obligations but has not claimed yet as of the end of the reporting period. Contract assets are reclassified to trade receivables when the right to consideration becomes unconditional.

Contract liabilities are mainly advances received for future goods or consideration received for future services that the Company continues to provide. Almost all the amount of contract liabilities as of March 31, 2020 was recognized as revenue in the year ended March 31, 2021.

The amount of revenue recognized in the year ended March 31, 2020 and the year ended March 31, 2021 from satisfied or partially satisfied performance obligations in previous periods is not significant.

(6) Assets recognized from contract costs

The balances of the incremental costs of obtaining contracts and costs incurred to fulfill contracts as of March 31, 2020 and March 31, 2021 are not significant. As the Company elects to use a practical expedient, it recognizes the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the Company otherwise would have recognized is one year or less.

25. Selling, general and administrative expenses

Selling, general and administrative expenses are as follows:

	Yen (millions)	
	2021	2020
Employee benefits.....	764,831	846,010
Advertising expenses.....	67,382	84,757
Transportation and storage.....	174,106	181,355
Depreciation and amortization.....	121,271	132,242
Others.....	540,106	620,017
Total.....	<u>1,667,696</u>	<u>1,864,381</u>

26. Research and development expenses

Research and development expenses are as follows:

	Yen (millions)	
	2021	2020
Research and development expenses.....	<u>419,764</u>	<u>475,005</u>

27. Other income (expenses)

Other income (expenses), net for the year ended March 31, 2021 includes a gain of 27,676 million yen recognized as a result of the execution of a series of transactions associated with the establishment of a joint venture related to the automotive prismatic battery business. Expenses associated with the implementation of early retirement programs due to business restructuring, and expenses associated with quality control or voluntary recall of products are also included, however there were no material items.

Gain on the establishment of a joint venture is presented in "Other - net" within cash flows from operating activities in the consolidated statements of cash flows.

Other income (expenses), net for the year ended March 31, 2020 includes gain on business transfer (mainly housing-related business and security system business) of 122,623 million yen, expenses associated with the implementation of early retirement programs due to business restructuring of 12,300 million yen, and expenses associated with quality control or voluntary recall of products of 11,470 million yen.

Gain on business transfer is presented in "Other - net" within cash flows from operating activities in the consolidated statements of cash flows.

28. Impairment of non-financial assets

(1) Impairment losses

The impairment losses are included in "Cost of sales", "Selling, general and administrative expenses" and "Other income (expenses), net" in the consolidated statements of profit or loss. The amount of losses included in "Cost of sales" were 1,524 million yen and 10,961 million yen for the years ended March 31, 2021 and 2020, respectively. The amount of losses included in "Selling, general and administrative expenses" were 4,647 million yen for the years ended March 31, 2021. The amounts of losses included in "Other income (expenses), net" were 38,109 million yen and 80,292 million yen for the years ended March 31, 2021 and 2020, respectively.

The amount by segment represents the amount attributable to each cash-generating unit that is allocated to a specific reportable segment for impairment testing purposes, and is not necessarily equal to the amount allocated to each segment for internal management purposes. A part of the impairment losses of goodwill is included in "Eliminations and adjustments" as noted in "4. Segment information."

Amount by segment for the year ended March 31, 2020 has been reclassified to conform to the presentation for the year ended March 31, 2021.

The amounts of impairment losses recorded for property, plant and equipment, right-of-use assets, goodwill and intangible assets by segment are as follows:

	Yen (millions)	
	2021	2020
Appliances.....	6,050	16,255
Life Solutions.....	6,006	6,013
Connected Solutions.....	21,095	2,227
Automotive.....	112	39,037
Industrial Solutions.....	2,049	26,368
Other.....	8,968	1,353
Consolidated total.....	44,280	91,253

In the year ended March 31, 2021, the Company recorded impairment losses on goodwill in a certain cash-generating unit of the aircraft-related business, which belongs to the "Connected Solutions" segment, because it was expected that the carrying amount of these assets could not be recovered due mainly to a downturn of the business. The value in use was measured by the discounted cash flow method. The pre-tax discount rates used for the years ended March 31, 2021 and 2020 are 11.5% and 10.5%, respectively.

In the year ended March 31, 2020, the Company recorded impairment losses on goodwill and intangible assets in certain cash-generating units of the automotive solutions business, which belongs to the "Automotive" segment, because it was expected that the carrying amount of these assets could not be recovered due mainly to a downturn of the business. The value in use was measured by the discounted cash flow method. The pre-tax discount rates used for the year ended March 31, 2020 and for the beginning of year ended March 31, 2020 are 9.9% and 9.8%, respectively.

The Company also recorded impairment losses on property, plant and equipment, etc. in certain cash-generating units of the semiconductor business, which belongs to the "Industrial Solutions" segment, because Panasonic resolved at the board of directors meeting on November 28, 2019 to transfer the semiconductor business and entered into stocks and assets transfer agreement on the same day. Accordingly, Panasonic recognized the losses expected to incur in connection with the business transfer.

(2) Goodwill and intangible assets with indefinite useful lives

(i) Impairment tests

The recoverable amount of each cash-generating unit with goodwill and intangible assets with indefinite useful lives for impairment testing is calculated at the higher of fair value less costs of disposal or value in use.

As of March 31, 2021 and 2020, goodwill with carrying amount of 86,540 million yen and 85,071 million yen, respectively, and trademarks with carrying amount of 26,239 million yen and 25,792 million yen, respectively, which are related to "Husmann Corporation" included in the "Appliance" segment, are individually significant goodwill or intangible assets with indefinite useful lives allocated to a cash generating unit in comparison with the Company's total carrying amount.

For the years ended March 31, 2021 and 2020, the recoverable amount of a cash-generating unit, to which goodwill and trademark with individually significant carrying amount in comparison with the Company's total carrying amount are allocated, is the higher of the value in use by the discounted cash flow method or the amount of fair value less costs of disposal measured principally by the discounted cash flow method and the comparable listed company analysis. The fair value measurements are categorized as Level 3 within the fair value hierarchy. Discounted cash flow method is calculated by discounting the estimated amount of future cash flows based on the most recent business plan approved by the Board of Directors to the present value. The period of future outlook is five years, and future outlook reflects past experience and is established after verifying the consistency with external information. The business plan includes assumptions, such as market forecasts, prospects for market share increases through sales promotion measures and expected cost reductions. The growth rate (2.3 % and 2.1% for the years ended March 31, 2021 and 2020, respectively) is determined in view of long-term average growth rate of markets or countries to which each cash-generating unit belongs. The discount rate (10.7% and 11.9% on pre-tax basis for the years ended March 31, 2021 and 2020, respectively) is calculated based on weighted average cost of capital of the cash-generating unit.

Since the recoverable amount, which was based on the fair value less costs of disposal for the year ended March 31, 2021 and the value in use for the year ended March 31, 2020, sufficiently exceeds the carrying amount, the carrying amount would unlikely to exceed the recoverable amount, even if the major assumptions such as the growth rate and discount rate used in the above impairment test change within a reasonably predictable range.

(ii) Goodwill

As of March 31, 2021 and 2020, the aggregate carrying amounts of individually insignificant goodwill that are allocated to cash-generating units are 218,313 million yen and 236,938 million yen, respectively.

Impairment losses in the years ended March 31, 2021 and 2020 are 19,367 million yen and 32,133 million yen, respectively.

(iii) Intangible assets with indefinite useful lives

As of March 31, 2021 and 2020, the aggregate carrying amounts of individually insignificant intangible assets with indefinite useful lives allocated to cash-generating units are 12,541 million yen and 14,073 million yen, respectively.

Impairment losses in the years ended March 31, 2021 and 2020 are not material.

29. Finance income and expenses

(1) Finance income

Finance income is as follows:

	Yen (millions)	
	2021	2020
Dividend income:		
Financial assets measured at FVTOCI.....	1,829	2,273
Interest income:		
Financial assets measured at amortized cost.....	12,038	20,812
Other.....	-	1,240
Foreign exchange gains.....	-	5,856
Net changes in fair value of financial assets:		
Financial assets measured at FVTPL	5,845	-
Other.....	1,134	1,179
Total.....	<u>20,846</u>	<u>31,360</u>

(2) Finance expenses

Finance expenses are as follows:

	Yen (millions)	
	2021	2020
Interest expenses:		
Financial liabilities measured at amortized cost....	11,286	10,568
Lease liabilities.....	3,294	18,084
Net interest cost on employee benefits.....	1,205	966
Others.....	1,463	4,443
Foreign exchange losses.....	1,378	-
Total.....	<u>18,626</u>	<u>34,061</u>

(3) Transfers of financial assets

The Company transfers financial assets such as trade receivables to unconsolidated structured entities. These entities have been set up by third-party financial institutions and managed by the financial institutions as part of their business. Because the entities also purchase a large amount of assets from customers other than the Company, the proportion of financial assets transferred by the Company to the total assets of the entities is small. The Company has therefore determined that the Company's exposures to the risks carried by the entities is low.

The Company has provided no support to these structured entities outside contracts and made no implicit agreement to support them. The main elements of the Company's interests in these structured entities is provision of limited credit enhancements, servicing and receipt of servicing fees.

In the years ended March 31, 2021 and 2020, a loss on transfer of trade receivables, etc. which were derecognized in their entirety was 1,463 million yen and 4,443 million yen, respectively. This loss is included in "Finance expenses" in the consolidated statements of profit or loss.

The Company has retained obligations to provide servicing for financial assets which were derecognized in their entirety. However, since the difference between expenses and fees received for provision of servicing are not material, the Company did not record any servicing assets and liabilities as of March 31, 2021 and 2020.

The maximum exposure to losses resulting from continuing involvement in the derecognized financial assets as of March 31, 2021 and 2020 was 8,991 million yen and 16,605 million yen, respectively, which is the total amount of the outstanding balance of obligations to repurchase the transferred assets under restricted, specified conditions.

30. Per share information

Panasonic Corporation stockholders' equity per share is as follows:

	Yen	
	March 31	
	2021	2020
Panasonic Corporation stockholders' equity per share.....	1,111.73	856.57

The reconciliation of the basic and diluted earnings per share attributable to Panasonic Corporation stockholders is as follows:

	Yen (millions)	
	2021	2020
Net profit attributable to Panasonic Corporation stockholders.....	165,077	225,707
Adjustment to net profit.....	(5)	(7)
Net profit used to calculate basic earnings per share.....	165,072	225,700
Adjustment to net profit.....	5	7
Net profit used to calculate diluted earnings per share.....	165,077	225,707

	Number of shares	
	2021	2020
Average common shares outstanding.....	2,333,127,719	2,332,621,373
Dilutive effect:		
Stock acquisition rights.....	1,133,070	1,411,380
Restricted stock.....	77,492	65,115
Diluted common shares outstanding.....	2,334,338,281	2,334,097,868

	Yen	
	2021	2020
Earnings per share attributable to Panasonic Corporation stockholders:		
Basic.....	70.75	96.76
Diluted.....	70.72	96.70

31. Financial instruments

(1) Financial risk management policy

The Company is exposed to various financial risks (credit risks, liquidity risks and market risks) in the process of its business activities, and it manages risks based on specific policies in order to avoid or reduce these risks.

The Company limits its use of derivatives to transactions for the purpose of mitigating risks from transactions based on actual demand. Therefore, it does not own or issue derivatives for speculative purposes.

(2) Credit risk management

The Company is principally exposed to credit risk of customers on trade receivables, contract assets and lease receivables as well as credit risk of financial institutions as counterparties to derivatives held to hedge currency risks and commodity price fluctuation risks.

With regards to trade receivables, contract assets and lease receivables, the Company assesses management conditions of each business partner and determines their credit quality to consider whether or not the transaction is appropriate in accordance with the internal rules for credit management. After the commencement of the transaction, in accordance with the internal rules for management of receivables, the Company manages due dates and balances for each business partner, continuously manages records of progress of transactions, timeliness of collection and changes and trends of receivable balances, and proactively gathers information on management condition and business trends etc. of business partners in an effort to early detect and mitigate any concerns about collection due to deterioration in financial condition, etc.

With regards to derivative transactions, since the Company only deals with financial and other institutions with high credit ratings and the credit quality of counterparties is high, the Company believes that its credit risk exposure is minimal.

The maximum exposure to credit risk that does not take into account collateral held and other credit enhancements at the end of the fiscal year is the carrying amount of financial assets in the consolidated statements of financial position except for the derecognized financial assets noted in "29. Finance income and expenses" and guarantees of obligations. Regarding the derecognized financial assets, etc., the maximum amount of undiscounted payments the Company would have to make in the event of default on the transferred receivables, etc. was 8,991 million yen as of March 31, 2021.

1) Changes in allowance for credit losses

The Company determines the amount of allowance for credit losses for trade receivables, contract assets and lease receivables, and receivables, etc. other than trade receivables, contract assets and lease receivables.

For trade receivables, contract assets and lease receivables, allowance for credit losses is always recorded at an amount equal to the lifetime expected credit losses. For receivables, etc. other than trade receivables, contract assets and lease receivables, etc., allowance for credit losses is recorded at an amount equal to the 12-month expected credit losses in principle. However, if terms and conditions for repayment stipulated by contract cannot be fulfilled, it is considered that credit risk has increased significantly since initial recognition, and allowance for credit losses is recorded at an amount equal to the lifetime expected credit losses, except in the case of the failure to fulfill such terms and conditions due to administrative errors of the counterparty and certain other cases.

Any financial asset is treated as a credit-impaired financial asset, if there is request for changing terms and conditions for repayment from the debtor, serious financial difficulties of the debtor, or commencement of legal liquidation procedures due to bankruptcy and others on the debtor, etc. For any amount that clearly cannot be recovered in the future, the carrying amount of the financial asset is directly reduced, and the corresponding amount of allowance for credit losses is also reduced.

The amount of allowance for credit losses is determined as follows:

- Trade receivables, contract assets and lease receivables

The amount of the allowance is determined by classifying the receivables, etc. according to the number of days overdue, etc. and multiplying the amount of the receivables by a loss rate calculated by considering the historical rate of credit losses calculated according to the classification and the impact of future forecast economic conditions.

- Receivables other than trade receivables, contract assets and lease receivables, etc.

For assets for which credit risk is not considered to be significantly increased, the amount of allowance is calculated by multiplying the carrying amount by a loss rate that is determined by considering the historical rate of credit losses of homogeneous assets and the impact of future forecast economic conditions etc. However, if credit risk of the asset is considered to be significantly increased or the asset meets the criteria for credit-impaired financial assets, the amount of the asset expected to be recovered is individually estimated, and the amount of the allowance is determined as the difference between the present value discounted using the original effective interest rate of the asset and the carrying amount.

Changes in allowance for credit losses are as follows:

	Yen (millions)	
	2021	2020
Beginning balance.....	12,610	11,508
Increases during the period.....	9,424	5,810
Decreases during the period (Utilization).....	(1,404)	(1,874)
Decreases during the period (Reversal).....	(3,262)	(2,203)
Others.....	150	(631)
Ending balance.....	17,518	12,610

With regards to financial assets that were recognized for the first time in the years ended March 31, 2021 and 2020, there were no material financial assets for which allowance for credit losses was recorded at the time of initial recognition.

Furthermore, in the years ended March 31, 2021 and 2020, there were no significant increases or decreases in the gross carrying amount that could affect a change in allowance for credit losses.

2) Gross carrying amount of financial assets for which allowance for credit losses is recorded

The gross carrying amount of financial assets for which allowance for credit losses is recorded is as follows:

(i) Trade receivables, contract assets and lease receivables

	Yen (millions)	
	2021	2020
Not past due.....	1,147,252	1,015,043
Due within 3 months.....	37,058	37,973
Due after 3 months through a year.....	14,009	10,698
Due after 1 year.....	12,786	82
Total.....	1,211,105	1,063,796

The contract balances of financial assets that were directly written off during the reporting period but still subject to recovery activities as of March 31, 2021 and March 31, 2020 were not material.

(ii) Receivables other than trade receivables, contract assets and lease receivables, etc.

For receivables other than trade receivables, contract assets and lease receivables, etc., information has been omitted since there are no assets for which credit risk was considered to have significantly increased and credit risks related to the carrying amount as of March 31, 2021 and March 31, 2020 were not material.

(3) Liquidity risk management

Liquidity risks represent the Company's risks of nonfulfillment of repayment obligations for financial liabilities due. The Company develops its business under the basic policy of self-generating funds necessary for business activities. In addition, generated funds are utilized efficiently through intra-group financing. On that basis, when funds are required for working capital, investments in businesses and for other purposes, the Company raises funds externally by appropriate means in consideration of its financial structure and conditions of financial markets.

The balances of major financial liabilities by contractual maturities are as follows:

	Yen (millions)				
	March 31, 2021				
	Carrying amount	Contract amount	Within 1 year	After 1 year but not more than 5 years	More than 5 years
Non-derivative liabilities:					
Trade payables.....	1,045,617	1,045,617	1,045,617	-	-
Short-term debt, including current portion of long-term debt.....	309,790	310,683	310,683	-	-
Long-term debt.....	879,728	923,702	-	596,158	327,544
Lease liabilities.....	257,905	274,983	62,275	145,088	67,620
Other financial liabilities.....	42,601	43,613	9,807	33,806	-
Total.....	2,535,641	2,598,598	1,428,382	775,052	395,164
Derivative liabilities.....	23,919	23,919	23,919	-	-
Cross currency interest rate swaps (*1).....	(18,662)	(32,219)	(6,794)	(19,055)	(6,370)

(*1) Cross currency interest rate swaps (assets) is held for hedging the foreign exchange risk of foreign currency denominated bonds included in "Long-term debt."

Yen (millions)					
March 31, 2020					
	Carrying amount	Contract amount	Within 1 year	After 1 year but not more than 5 years	More than 5 years
Non-derivative liabilities:					
Trade payables.....	969,695	969,695	969,695	-	-
Short-term debt, including current portion of long-term debt.....	250,620	251,120	251,120	-	-
Long-term debt.....	953,831	1,006,078	-	698,053	308,025
Lease liabilities.....	266,860	281,857	70,596	141,070	70,191
Other financial liabilities.....	16,316	17,574	-	17,574	-
Total.....	2,457,322	2,526,324	1,291,411	856,697	378,216
Derivative liabilities.....	23,501	23,501	23,501	-	-
Cross currency interest rate swaps (*1).....	(17,423)	(33,691)	(6,669)	(20,272)	(6,750)

(*1) Cross currency interest rate swaps (assets) is held for hedging the foreign exchange risk of foreign currency denominated bonds included in "Long-term debt."

In addition, in order to secure a means of stable financing, the Company entered into commitment line agreements with several banks in June 2018. The unused balances under these agreements are as follows. As described in Note "38. Subsequent events", the Company renewed the contract for total 600,000 million yen in June 2021.

Yen (millions)		
March 31		
	2021	2020
Total committed line of credit.....	700,000	700,000
Drawdowns.....	-	-
Unused balances.....	700,000	700,000

(4) Market risk management

The Company operates internationally, giving rise to exposure to market risks arising from changes in foreign exchange rates, interest rates, and commodity prices. The Company assesses these risks by continually monitoring changes in these exposures and by evaluating hedging opportunities.

1) Currency risks

Foreign exchange rate fluctuations may adversely affect the Company's business, operating results and financial condition, because costs and prices of its products and services that are traded in a foreign currency and foreign currency denominated bonds issued for financing are affected by foreign exchange rate changes. The Company makes efforts to mitigate currency risks principally by utilizing derivatives such as foreign exchange forward contracts and cross currency interest rate swaps.

(i) Exposure to currency risks

Exposure to currency risks (net) of the Company is set out below. The amount of exposure to currency risks that is hedged by derivatives is excluded.

	March 31	
	2021	2020
US Dollar (Thousands of US dollar).....	998,368	759,466
Euro (Thousands of Euro).....	47,876	85,667
Chinese Yuan (Thousands of Chinese Yuan).....	23,551	23,176

(ii) Sensitivity analysis for currency risks

For financial instruments held by the Company as of the end of each fiscal year, the impact of a 1% appreciation of Japanese yen against US Dollar, Euro and Chinese Yuan on profit before income taxes is set out below. The impact on profit before income taxes of a 1% depreciation of Japanese yen against US Dollar, Euro and Chinese Yuan would be the opposite effect to those stated in the table below.

This analysis is based on the assumption that all other variables are constant.

	Yen (millions)	
	March 31	
	2021	2020
US Dollar.....	(1,105)	(827)
Euro.....	(62)	(102)
Chinese Yuan.....	(4)	(4)

2) Interest rate risks

Interest-bearing debt is principally corporate bonds and borrowings obtained at fixed rates, and the interest rate risk is not material to the Company.

3) Commodity price fluctuation risks

The Company procures raw materials, including non-ferrous metals, under long-term purchase agreements and is exposed to commodity price fluctuation risks due to market fluctuations, etc. The Company makes efforts to mitigate commodity price fluctuation risks by utilizing derivatives such as commodity futures.

4) Market price fluctuation risks

The Company is exposed to stock price fluctuation risks arising from its holdings of stocks of domestic and foreign companies. For equity instruments, the Company periodically assesses their fair value and financial condition of issuers and continually reviews its holding status.

(5) Derivatives and hedge accounting

Derivatives held by the Company are comprised principally of foreign exchange forward contracts, cross currency interest rate swaps and commodity futures. The Company uses foreign exchange forward contracts and other instruments to hedge the impact of foreign exchange rate fluctuations on costs and prices of products and services, etc. that are traded in a foreign currency. Also, the Company uses cross currency interest rate swaps to hedge the impact of exchange rate fluctuations on foreign currency denominated bonds. In addition, the Company utilizes commodity futures and other instruments to hedge commodity price fluctuation risks due to market fluctuations, etc. associated with procurement of raw materials, including non-ferrous metals, under long-term purchase agreements. All these hedges meet the criteria for cash flow hedges.

The Company confirms the existence of an economic relationship between the hedged item and the hedging instrument at the inception of the hedging relationship and on an ongoing basis, through qualitative assessment of whether significant terms and conditions of the hedged item match or conform closely to those of the hedging instrument, or quantitative assessment of whether changes in values of the hedged item and the hedging instrument are offset with each other because of the same risk, in order to ensure that the hedged item and the hedging instrument have an economic relationship in which changes in cash flows of the hedged item are offset by changes in cash flows of the hedging instrument.

In addition, the Company sets an appropriate hedge ratio based on the quantity of hedged items and the quantity of hedging instruments at the hedge's inception, and in principle, this ratio is set to ensure a one-to-one relationship. Also, foreign currency basis spread on the cross currency interest rate swaps are excluded from designation as hedging instruments but the impact on profit or loss is immaterial.

Because the Company aims to perform highly effective hedges, it expects that usually no significant ineffective portion should arise.

1) In the year ended March 31, 2021

(i) Effects of hedge accounting on the consolidated statements of financial position

Significant derivatives designated as hedging instruments as of March 31, 2021 are as follows:

Derivatives associated with currency risks:

Hedging instruments	Contract amounts	Average rate	Carrying amount (*1) Yen (millions)	
			Assets	Liabilities
Foreign exchange forward contracts:				
	1,029,998Thousands	106.24Yen		
US Dollar sell / Japanese Yen buy....	US Dollar	/ Dollar	-	4,512
	163,213Thousands	128.55Yen		
Euro sell / Japanese Yen buy.....	Euro	/ Euro	-	209
	543,358Thousands	108.23Yen		
US Dollar buy / Japanese Yen sell....	US Dollar	/ Dollar	1,331	-
Cross currency interest rate swaps	2,500,000Thousands	108.13Yen		
(*2).....	US Dollar	/ Dollar	18,662	-

(*1) In the consolidated statements of financial position, fair value of assets related to hedging instruments is included in "Other financial assets," while the fair value of liabilities related to hedging instruments is included in "Other financial liabilities."

The maximum term over which the Company hedges changes in cash flows due to risks of fluctuation in foreign exchange rates is approximately six months for foreign exchange contracts and approximately 9 years for cross currency interest rate swaps.

(*2) Cross currency interest rate swaps are held for hedging the foreign exchange risk of foreign currency denominated bonds.

With the cross currency interest rate swaps, USD-denominated fixed interest rate are exchanged with JPY-denominated fixed interest rate and each exchanged substantial interest rate is described in Note "16. Short-term debt and long-term debt (1) Details."

The balance (after tax) of "Net changes in cash flow hedges" related to ongoing hedges as of March 31, 2021 is set out below. In the year ended March 31, 2021, there was no hedge relationship to which hedge accounting is no longer applied.

Risk	Yen (millions)
	March 31, 2021
Foreign currency risk.....	5,946
Commodity price risk.....	712
Total.....	6,658

Since the amount of the ineffective portion of hedges recognized in profit or loss in the year ended March 31, 2021 is not material, information on changes in fair value of hedged items used as the basis for recognition of the ineffective portion of hedges has been omitted.

(ii) Effects of hedge accounting on the consolidated statements of profit or loss and the consolidated statements of comprehensive income

Effects of the application of hedge accounting on profit or loss and other comprehensive income (loss) in the year ended March 31, 2021 are as follows:

Risk	Yen (millions)			
	Amounts of gain (loss) recognized in OCI (pre-tax amount)	Amounts of gain (loss) reclassified from other components of equity into profit or loss (pre-tax amount)	Recognized in consolidated statements of profit or loss	Amounts of gain (loss) reclassified to acquisition cost of hedged item (pre-tax amount)
Foreign currency risk.....	3,949	(8,144)	Finance income (expenses)	-
Commodity price risk....	1,443	-	Cost of sales	261

In the year ended March 31, 2021, the amount of the ineffective portion of hedges recognized in profit or loss was not material.

Reclassification adjustments related to foreign currency risk from other components of equity to profit or loss in the year ended March 31, 2021 are attributed to effects of hedged items on profit or loss.

Foreign currency basis spread on the cross currency interest rate swaps held as cash flow hedges are excluded from designation as hedging instruments and are recognized as hedging costs. The amount of hedging costs recognized as reclassification adjustments to other comprehensive income and profit or loss is immaterial.

2) In the year ended March 31, 2020

(i) Effects of hedge accounting on the consolidated statements of financial position

Significant derivatives designated as hedging instruments as of March 31, 2020 are as follows:

Derivatives associated with currency risks:

Hedging instruments	Contract amounts	Average rate	Carrying amount (*1) Yen (millions)	
			Assets	Liabilities
Foreign exchange forward contracts:				
US Dollar sell / Japanese Yen buy....	1,059,072 Thousands US Dollar	107.59 Yen / Dollar	-	904
Euro sell / Japanese Yen buy.....	98,884 Thousands Euro	119.46 Yen / Euro	-	6
US Dollar buy / Japanese Yen sell....	441,258 Thousands US Dollar	108.20 Yen / Dollar	184	-
Cross currency interest rate swaps (*2).....	2,500,000 Thousands US Dollar	108.13 Yen / Dollar	17,423	-

(*1) In the consolidated statements of financial position, fair value of assets related to hedging instruments is included in "Other financial assets," while the fair value of liabilities related to hedging instruments is included in "Other financial liabilities."

The maximum term over which the Company hedges changes in cash flows due to risks of fluctuation in foreign exchange rates is approximately six months for foreign exchange contracts and approximately 10 years for cross currency interest rate swaps.

(*2) Cross currency interest rate swaps are held for hedging the foreign exchange risk of foreign currency denominated bonds.

With the cross currency interest rate swaps, USD-denominated fixed interest rate are exchanged with JPY-denominated fixed interest rate and each exchanged substantial interest rate is described in Note "16. Short-term debt and long-term debt (1) Details."

The balance (after tax) of "Net changes in cash flow hedges" related to ongoing hedges as of March 31, 2020 is set out below. In the year ended March 31, 2020, there was no hedge relationship to which hedge accounting is no longer applied.

Risk	Yen (millions)
	March 31, 2020
Foreign currency risk.....	8,327
Commodity price risk.....	(445)
Total.....	7,882

Since the amount of the ineffective portion of hedges recognized in profit or loss in the year ended March 31, 2020 is not material, information on changes in fair value of hedged items used as the basis for recognition of the ineffective portion of hedges has been omitted.

(ii) Effects of hedge accounting on the consolidated statements of profit or loss and the consolidated statements of comprehensive income

Effects of the application of hedge accounting on profit or loss and other comprehensive income (loss) in the year ended March 31, 2020 are as follows:

Risk	Yen (millions)			
	Amounts of gain (loss) recognized in OCI (pre-tax amount)	Amounts of gain (loss) reclassified from other components of equity into profit or loss (pre-tax amount)	Recognized in consolidated statements of profit or loss	Amounts of gain (loss) reclassified to acquisition cost of hedged item (pre-tax amount)
Foreign currency risk.....	15,920	(994)	Finance income (expenses)	-
Commodity price risk....	(1,883)	-	Cost of sales	458

In the year ended March 31, 2020, the amount of the ineffective portion of hedges recognized in profit or loss was not material.

Reclassification adjustments related to foreign currency risk from other components of equity to profit or loss in the year ended March 31, 2020 are attributed to effects of hedged items on profit or loss.

Foreign currency basis spread on the cross currency interest rate swaps held as cash flow hedges are excluded from designation as hedging instruments and are recognized as hedging costs. The amount of hedging costs recognized as reclassification adjustments to other comprehensive income and profit or loss is immaterial.

(6) Offsetting of financial assets and financial liabilities

For derivative assets and liabilities, the Company conducts transactions under master netting agreements or similar agreements. In the event that settlement failure occurs between the contracting parties, receivables from and payables to the counterparty are to be settled on a net basis.

Of financial assets and financial liabilities recognized to the same counterparty as of March 31, 2021, there were no financial instruments offset in accordance with requirements for offsetting of financial assets and financial liabilities. The amount of financial instruments that are subject to enforceable master netting agreements or similar agreements but have not been offset because they do not satisfy part or all of requirements for offsetting of financial assets and financial liabilities was 4,914 million yen.

Of financial assets and financial liabilities recognized to the same counterparty as of March 31, 2020, there were no financial instruments offset in accordance with requirements for offsetting of financial assets and financial liabilities. The amount of financial instruments that are subject to enforceable master netting agreements or similar agreements but have not been offset because they do not satisfy part or all of requirements for offsetting of financial assets and financial liabilities was 8,376 million yen.

(7) Fair values of financial instruments

1) Comparison between fair values and carrying amounts are as follows:

	Yen (millions)			
	March 31			
	2021		2020	
	Book value	Fair value	Book value	Fair value
Long-term debt, including current portion of long-term debt.....	1,164,796	1,181,260	981,439	977,296

Fair values shown above are estimated, based on the market price or the present value of future cash flows, which is calculated using the observable discount rate at March 31, 2021 and 2020. All fair values are categorized as level 2 (refer to "2) Fair value measurement hierarchy").

With regards to financial assets and financial liabilities measured at amortized cost other than the above, their fair values approximate their carrying amounts.

2) Fair value measurement hierarchy

IFRS 13, "Fair Value Measurement" provides that fair values shall be categorized into the following three levels according to the extent to which the input information used in the measurement is observable from the outside:

- Level 1: Fair value measured by quoted prices in active markets
- Level 2: Fair value measured directly or indirectly using inputs other than quoted prices included within Level 1 that are observable
- Level 3: Fair value measured through valuation techniques which include inputs that are not based on observable market data

The fair value measurement hierarchy level used in the measurement is determined by the lowest-level of significant input in the measurement of fair value.

The breakdown of financial instruments measured at fair value is as follows:

Yen (millions)				
March 31, 2021				
	Level 1	Level 2	Level 3	Total
Financial assets:				
Financial assets measured at FVTPL

	Level 1	Level 2	Level 3	Total
Financial assets:				
Financial assets measured at FVTPL				
Derivative assets				
Foreign exchange forward contracts.....	-	3,025	-	3,025
Cross currency swaps.....	-	153	-	153
Cross currency interest rate swaps.....	-	17,423	-	17,423
Commodity futures.....	7,804	6,005	-	13,809
Subtotal.....	7,804	26,606	-	34,410
Financial assets measured at FVTOCI				
Shares.....	106,923	-	64,603	171,526
Others.....	-	281	-	281
Subtotal.....	106,923	281	64,603	171,807
Total financial assets.....	114,727	26,887	64,603	206,217
Financial liabilities:				
Financial liabilities measured at FVTPL				
Derivative liabilities				
Foreign exchange forward contracts.....	-	4,202	-	4,202
Commodity futures.....	16,001	3,298	-	19,299
Total financial liabilities.....	16,001	7,500	-	23,501

The Company's marketable shares and commodity futures are included in Level 1, which are valued using an unadjusted quoted market price in active markets with sufficient volume and frequency of transactions.

Level 2 derivatives including foreign exchange forward contracts, cross currency swaps, cross currency interest rate swaps and commodity futures are valued using quotes obtained from brokers, which are periodically validated by pricing models using observable market inputs, such as foreign currency exchange rates and market prices for commodity futures.

Shares classified as Level 3 are unlisted stocks, and their fair values are measured by an appropriate valuation method that comprehensively takes into account the outlook for future profitability of the investee and quantitative information such as net asset value and major assets held by the investee, in accordance with the policy and procedures set by the Company for using the most appropriate and highly relevant, available data. The reasonableness of this assessment is verified by the department in charge of accounting using various methods and approved by the manager of the department. Specific methods of verification include use of external assessment organizations.

For financial instruments classified as Level 3, significant changes in fair value occurring when unobservable inputs are changed to reasonably possible alternative assumptions are not expected.

Transfers between levels are recognized on the day when the event or change in circumstances that caused the transfer occurred. In the years ended March 31, 2021 and 2020, there are no financial instruments for which a significant transfer was made between levels.

The breakdown of movements in financial instruments measured at fair value on a recurring basis that were classified as Level 3 in the fair value measurement hierarchy is as follows:

	Yen (millions)			
	2021		2020	
	Financial assets measured at FVTPL	Financial assets measured at FVTOCI	Financial assets measured at FVTPL	Financial assets measured at FVTOCI
Balance at beginning of year.....	-	64,603	-	85,580
Purchase.....	36,272	4,322	-	4,479
Sales.....	-	(2,041)	-	(18,317)
Gains (losses) (*1).....	5,845	42,195	-	(7,139)
Balance at end of year.....	42,117	109,079	-	64,603

(*1) Gains (losses) is related to financial assets measured at FVTPL for the year ended March 31, 2021, and are included in "Finance income" in the consolidated statements of profit or loss.

Gains (losses) are related to financial assets measured at FVTOCI for the years ended March 31, 2021 and 2020, and are included in "Financial assets measured at fair value through other comprehensive income" in the consolidated statements of comprehensive income.

32. Major subsidiaries

(1) Composition of the Group

Major subsidiaries of the Company as of March 31, 2021 are as follows:

Name	Principal businesses (*1)	Location	Ratio of voting rights (%)
Panasonic Ecology Systems Co., Ltd.	Life Solutions	Japan	100.0
Panasonic Smart Factory Solutions Co., Ltd.	Connected Solutions	Japan	100.0
KMEW Co., Ltd. (*2)	Life Solutions	Japan	50.0
Panasonic Liquid Crystal Display Co., Ltd.	Industrial Solutions	Japan	100.0
SANYO Electric Co., Ltd.	Life Solutions, Automotive, Industrial Solutions, Other, Corporate	Japan	100.0
Panasonic System Solutions Japan Co., Ltd.	Connected Solutions	Japan	100.0
Panasonic Consumer Marketing Co., Ltd.	Appliances	Japan	100.0
Panasonic Corporation of North America	Appliances, Life Solutions, Connected Solutions, Automotive, Industrial Solutions, Other, Corporate	U.S.A.	100.0
Panasonic Avionics Corporation	Connected Solutions	U.S.A.	100.0
Husmann Corporation	Appliances	U.S.A.	100.0
Panasonic do Brasil Limitada	Appliances, Connected Solutions, Automotive, Industrial Solutions, Other	Brazil	100.0
Panasonic Holding (Netherlands) B.V.	Corporate	Netherlands	100.0
Panasonic Europe B.V.	Corporate	Netherlands	100.0
Ficosa International S.A.	Automotive	Spain	69.0
Panasonic AVC Networks Czech s.r.o.	Appliances	Czech Republic	100.0
Panasonic Asia Pacific Pte. Ltd.	Appliances, Life Solutions, Connected Solutions, Industrial Solutions, Corporate	Singapore	100.0
Panasonic India Pvt. Ltd.	Appliances, Connected Solutions, Automotive, Industrial Solutions, Corporate	India	100.0
Panasonic Taiwan Co., Ltd.	Appliances, Life Solutions, Automotive, Industrial Solutions	Taiwan	69.8
Panasonic Corporation of China	Appliances, Life Solutions, Connected Solutions, Corporate	China	100.0
Panasonic Appliances Air-Conditioning (Guangzhou) Co., Ltd.	Appliances	China	67.8
Panasonic Automotive Systems Dalian Co., Ltd.	Automotive	China	60.0

(*1) The column "Principal businesses" indicates the segments in which the subsidiaries are classified. For subsidiaries that do not belong to any segment, the segments of the products being handled are disclosed if it is a sales company, otherwise it is described as "Corporate."

(*2) Although the ratio of voting rights is 50.0%, KMEW Co., Ltd. is treated as a consolidated subsidiary because the Company controls it through involvement in its manufacturing and sale activities.

As a change in major subsidiaries during the year ended March 31, 2021, the Company transferred its semiconductor business, mainly operated by Panasonic Semiconductor Solutions Co., Ltd. (PSCS) in September 2020. As a result, PSCS is no longer a consolidated subsidiary.

There is no significant change in major subsidiaries and these ratio of voting rights excluding the above.

(2) Subsidiaries with material non-controlling interests

There were no individually material non-controlling interests as of March 31, 2021 and 2020.

(3) Changes in ownership interests in subsidiaries that did not result in a loss of control

There were no individually material changes in the Company's ownership interests in its subsidiaries that did not result in a loss of control in the years ended March 31, 2021 and 2020.

(4) Gain or loss due to changes in ownership interests in subsidiaries resulting in loss of control

Material gain or loss due to changes in the Company's ownership interests in its subsidiaries resulting in loss of control of subsidiaries in the year ended March 31, 2021 are as follows:

Automotive prismatic battery business

On April 1, 2020, the Company transferred the automotive prismatic battery business of SANYO Electric Co., Ltd., a subsidiary of the Company, through a company split to Prime Planet Energy & Solutions, Inc. ("PPES"), for which the shares are held by Panasonic Equity Management Japan G.K. ("PEMJ"), a subsidiary. At the same time, all equity shares of Panasonic Automotive Energy Dalian Co., Ltd. held by Panasonic Corporation of China, a subsidiary, were transferred to PPES. In addition, on the same date, certain shares of PPES held by PEMJ were transferred to Toyota Motor Corporation, which resulted in PPES becoming a joint venture. The Company's ownership ratio in PPES after these transfers is 49%. Consequently, PPES became an entity accounted for using the equity method by the Company and is no longer a subsidiary.

A gain of 27,676 million yen recognized as a result of the execution of a series of the transactions was recognized in "Other income (expenses), net" in the consolidated statement of profit or loss for the year ended March 31, 2021. Of this amount, the gain from remeasurement of the retained interests in the former subsidiary at fair value was 13,561 million yen. The gain is allocated to the "Automotive" segment.

Material gain or loss due to changes in the Company's ownership interests in its subsidiaries resulting in loss of control of subsidiaries in the year ended March 31, 2020 are as follows:

Security system business

The Company resolved at the board of directors meeting held on May 31, 2019 to transfer the security system business. On November 20, 2019, Panasonic transferred the shares of Panasonic i-PRO Sensing Solution Co., Ltd., which was a 100%-owned consolidated subsidiary that operated the security system business, to PSP Holdings Co., Ltd. which is a subsidiary of Polaris Capital Group Co., Ltd.

A gain of 21,570 million yen on the business transfer was recognized in "Other income (expenses), net" in the consolidated statement of profit or loss for the year ended March 31, 2020. Of this amount, the gain from remeasurement of the retained interests in the former subsidiary at fair value was 4,314 million yen. The gain is allocated to the "Connected Solutions" segment.

Housing-related business

The Company resolved at the board of directors meeting on May 9, 2019 to enter into a business- integration contract toward the establishment of a new joint venture related to town development business with Toyota Motor Corporation. On January 7, 2020, Panasonic Homes Co., Ltd., Panasonic Construction Engineering Co., Ltd, Matsumura-Gumi Corporation, and their subsidiaries became subsidiaries of the joint venture, Prime Life Technologies Corporation, through a joint share transfer. Accordingly, they are no longer consolidated subsidiaries of the Company.

A gain of 99,561 million yen on the joint share transfer was recognized in "Other income (expenses), net" in the consolidated statement of profit or loss for the year ended March 31, 2020. Of this amount, the gain from remeasurement of the retained interests in the former subsidiaries at fair value was 49,766 million yen. The gain is allocated to the "Life Solutions" segment.

(5) Cash flows by proceeds from loss of control of subsidiaries or other businesses

The cash flows by proceeds from loss of control of subsidiaries or other businesses and the amount of the assets and liabilities in the subsidiaries or other businesses at the time when control was lost during the years ended March 31, 2021 and 2020 are as follows:

	Yen (millions)	
	2021	2020
Total consideration received.....	261,138	264,939
Portion of consideration consisting of cash and cash equivalents.....	144,038	90,939
Cash and cash equivalents in the subsidiaries or other businesses over which control is lost.....	13,628	42,647
Cash flows by proceeds from loss of control of subsidiaries or other businesses.....	130,410	48,292
Amount of assets and liabilities in the subsidiaries or other businesses at the time when control is lost (summarized by each major category)		
Current assets (except for cash and cash equivalents).....	95,018	192,104
Non-current assets.....	213,185	424,104
Current liabilities.....	71,393	168,511
Non-current liabilities.....	14,701	345,170

33. Related party transactions

(1) Transactions with associates and joint ventures

Transactions and balances of receivables and payables of the Company with associates and joint ventures are as set out below.

Transactions with associates and joint ventures are conducted on general terms and conditions similar to arm's length transactions.

1) Balances of the Company's receivables from and payables to associates and joint ventures

	Yen (millions)	
	March 31	
	2021	2020
Associates:		
Receivables.....	24,353	19,634
Payables.....	69,182	87,770
Joint ventures:		
Receivables.....	12,429	12,678
Payables.....	16,495	2,248

2) Amounts of the Company's sales to and purchases from associates and joint ventures

	Yen (millions)	
	2021	2020
Associates:		
Sales.....	77,028	55,838
Purchases.....	235,281	254,583
Joint ventures:		
Sales.....	44,512	2,789
Purchases.....	102,679	6

(2) Remuneration for key management personnel

Remuneration for key management personnel (Directors and Outside Directors) of Panasonic is as follows:

	Yen (millions)	
	2021	2020
Basic remuneration.....	587	639
Performance based remuneration.....	307	186
Share based payments.....	100	73
Total.....	994	898

34. Non-cash transactions

Significant non-cash transactions are as follows:

	Yen (millions)	
	2021	2020
Additions to right-of-use assets (*1).....	87,177	107,026

(*1)The figure for the year ended March 31, 2020 includes right-of-use assets recorded as "Investment property."

35. Commitments for acquisition of assets, etc.

Commitments as of March 31, 2021 and 2020 principally include purchase contracts for property, plant and equipment, etc. with total outstanding amounts of 20,228 million yen and 29,030 million yen respectively.

36. Disposal groups held for sale

Components of "Assets held for sale" and "Liabilities directly associated with assets held for sale" are as follows:

	Yen (millions)	
	March 31, 2021	March 31, 2020
Assets held for sale:		
Trade receivables and contract assets.....	1,427	5,496
Inventories.....	227	37,630
Property, plant and equipment.....	1,655	164,845
Right-of-use assets.....	1,105	12,867
Other.....	3,687	42,516
Total.....	8,101	263,354
Liabilities directly associated with assets held for sale:		
Trade payables.....	982	28,017
Lease liabilities.....	1,115	14,995
Other.....	787	45,593
Total.....	2,884	88,605

"Assets held for sale" and "Liabilities directly associated with assets held for sale" as of March 31, 2020 are assets and liabilities mainly related to the automotive prismatic battery business and the semiconductor business.

On April 1, 2020, the Company transferred the automotive prismatic battery business of SANYO Electric Co., Ltd., a subsidiary of the Company, through a company split to Prime Planet Energy & Solutions, Inc. ("PPES"), for which the shares are held by Panasonic Equity Management Japan G.K. (PEMJ), a subsidiary. At the same time, all equity shares of Panasonic Automotive Energy Dalian Co., Ltd. held by Panasonic Corporation of China, a subsidiary, were transferred to PPES. In addition, on the same date, certain shares of PPES held by PEMJ were transferred to Toyota Motor Corporation, which resulted in PPES becoming a joint venture. The Company's ownership ratio in PPES after these transfers is 49%. Consequently, PPES became an entity accounted for using the equity method by the Company and is no longer a subsidiary.

In addition, on September 1, 2020, the Company transferred the semiconductor business to Nuvoton Technology Corporation, under the umbrella of the Winbond Electronics Corporation group, a Taiwan-based semiconductor company.

37. Contingent liabilities

Litigation, etc.

The Company is subject to a number of legal proceedings including civil litigation related to trade, tax, products or intellectual properties, or governmental investigations. The Company has been dealing with various litigations and investigations. Depending upon the outcome of these different proceedings, the Company may be subject to an uncertain amount of settlements or fines, and accordingly the Company has accrued for certain probable and reasonably estimated amounts for the settlements and fines.

Panasonic Corporation and one of its subsidiaries, SANYO Electric Co., Ltd., are subject to litigation in North America related to an anti-trust matter concerning their rechargeable battery business.

Other than this matter, there are a number of legal actions against the Company. Management is of the opinion that damages, if any, resulting from these actions, will not have a material effect on the Company's consolidated financial statements.

The ability to predict the outcome of these actions and proceedings is difficult to assess given that certain of the investigations and legal proceedings are still at an early stage, present novel legal theories, involving a large number of parties or are taking place in jurisdictions outside of Japan where the laws are complex or unclear. Accordingly, the Company is unable to estimate the losses or range of losses for the actions and proceedings where there is only a reasonable possibility that a loss exceeding the amounts already recognized may have been incurred.

38. Subsequent events

- (1) Acquisition of the shares of Blue Yonder, a U.S. software provider (to make Blue Yonder a wholly owned subsidiary)

The Board of Directors of the Company resolved on April 23, 2021 the additional acquisition of 80% shares of Blue Yonder Holding, Inc. ("Blue Yonder"), an entity accounted for using the equity method, and making it a wholly-owned subsidiary. In addition, an agreement to acquire the remaining shares of Blue Yonder was reached among the Company, Blue Yonder, New Mountain Capital and Blackstone Group Inc., the substantial existing shareholders of Blue Yonder. The acquisition is to be made by the Company and its U.S. subsidiary, as a result, the Company will acquire all the shares of Blue Yonder together with the 20% of shares already held by the Company.

Through the agreement, the Company will obtain from Blue Yonder, a software provider specialized in supply chain software, its expertise in the supply chain packaging software business and recurring business, as well as its state-of-the-art artificial intelligence (AI) and machine learning (ML) technologies, further accelerating the evolution of the Gemba Process business. In addition, the Company will accelerate the transformation by adopting and integrating Blue Yonder's agile corporate culture, strengthening the operation capabilities (such as improving cost competitiveness) of the own supply chain business.

The consideration of the acquisition is estimated to be USD 7.1 billion, including USD 5.6 billion for the additional shares and the reimbursement of its outstanding debts.

- (2) Renewal of commitment line contracts

In June 2021, the commitment line contracts totaling 700,000 million yen originally executed in June 2018 were renewed due to the maturity of the contracts, and the Company entered into agreements to secure a three-year commitment line totaling 600,000 million yen with several banks.

Independent auditor's report

To the Board of Directors of Panasonic Corporation:

Opinion

We have audited the accompanying consolidated financial statements of Panasonic Corporation ("the Company") and its consolidated subsidiaries (collectively referred to as "the Group"), which comprise the consolidated statement of financial position as at March 31, 2021, and the consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the year then ended, and notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at March 31, 2021, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards prescribed in Article 93 of "the Regulation on Terminology, Forms, and Preparation Methods of Consolidated Financial Statements" (hereinafter referred to as "IFRS").

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note 38 to the consolidated financial statements. The Company, on April 23, 2021, entered into a definitive agreement under which Blue Yonder Holding, Inc. will become a wholly owned subsidiary of the Company. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Appropriateness of the Company's judgment as to whether an impairment loss should be recognized on goodwill allocated to the Hussmann Corporation division

The key audit matter	How the matter was addressed in our audit
<p>In the consolidated statement of financial position, Panasonic Corporation (the "Company") and its consolidated subsidiaries recognized goodwill of ¥86,540 million allocated to the Hussmann Corporation division (the "Hussmann division"). The goodwill arose when the Company acquired control of Hussmann Corporation.</p> <p>As described in Note 3, "Significant accounting policies, (11) Impairment of Non-Financial Assets" to the consolidated financial statements, an impairment test on goodwill is performed annually. In the impairment testing, when the recoverable amount of a cash-generating unit ("CGU") or a group of CGUs to which goodwill has been allocated is less than the carrying amount, the carrying amount is reduced to the recoverable amount, and the resulting decrease in the carrying amount is recognized as an impairment loss.</p> <p>In the current fiscal year, management used the fair value less costs of disposal as the recoverable amount in the impairment testing on goodwill allocated to the Hussmann division, and the fair value was measured using a combination of the discounted cash flow method and a comparable listed company analysis. These measurements were based on the business plan of the Hussmann division which included assumptions, such as market forecasts, prospects for market share increases through sales promotion measures and expected cost reductions. Management's judgments on these assumptions had a significant effect on the measurement of the recoverable amount.</p> <p>In addition, the determination of an appropriate calculation method and the selection of input data for estimating the discount rate used for the measurement under the discounted cash flow method and the valuation multiples used for the measurement under the comparable listed company analysis required a high degree of expertise in valuation.</p> <p>We, therefore, determined that our assessment of the appropriateness of the Company's judgment as to whether an impairment loss should be recognized on goodwill allocated to the Hussmann division was of most significance in our audit of the consolidated financial statements for the current fiscal year, and accordingly, a key audit matter.</p>	<p>The primary procedures we performed to assess whether the Company's judgment as to whether an impairment loss should be recognized on goodwill allocated to the Hussmann division was appropriate included the following:</p> <p>(1) Internal control testing</p> <p>We tested the design and operating effectiveness of certain of the Company's internal controls relevant to the measurement of the fair value less costs of disposal used in the impairment testing on goodwill allocated to the Hussmann division. In this assessment, we focused our testing on controls related to the estimate of key assumptions adopted in the business plan of the Hussmann division.</p> <p>(2) Assessment of the reasonableness of key assumptions adopted in the business plan of the Hussmann division</p> <p>In order to assess the reasonableness of key assumptions adopted by management in preparing the business plan of the Hussmann division, we inquired of management of the Hussmann division about the basis on which each assumption was developed. In addition, we:</p> <ul style="list-style-type: none"> • compared the market forecasts with applicable market research results published by external research companies; • evaluated the reasonableness of the prospects for market share increases by understanding the contents of the sales promotion measures, giving consideration to actual market share increases achieved through similar measures undertaken in the past and the recent actual orders received from customers; • evaluated the reasonableness of the expected cost reductions by understanding the specific contents of the cost reduction measures, giving consideration to the progress of those measures; • assessed whether there was any potential effect on the judgment as to whether an impairment loss should be recognized if the future cash flows were estimated by incorporating the effect of specific uncertainty into the business plan, after considering the results of our evaluation of the reasonableness of key

	<p>assumptions as well as our assessment of the past business plan including the cause of variances with actual results.</p> <p>(3) Assessment of the reasonableness of the estimated discount rate and the valuation multiples</p> <p>With the assistance of valuation specialists within our network firms, we assessed the appropriateness of the respective calculation methods used to estimate the discount rate and the valuation multiples, and assessed the reasonableness of the discount rate and the valuation multiples by comparing them with a reasonable range independently calculated using information including market and financial data obtained from an external financial information provider.</p>
--	--

Responsibilities of Management and Audit & Supervisory Board Members and Audit & Supervisory Board for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with IFRS and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Audit & Supervisory Board Members and Audit & Supervisory Board are responsible for overseeing the directors' performance of their duties with regard to the design, implementation and maintenance of the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of our audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the objective of the audit is not to express an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate whether the presentation and disclosures in the consolidated financial statements are in accordance with IFRS, the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with Audit & Supervisory Board Members and Audit & Supervisory Board regarding, among other matters, the planned scope and timing of the audit, significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Audit & Supervisory Board Members and Audit & Supervisory Board with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with Audit & Supervisory Board Members and Audit & Supervisory Board, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Interest required to be disclosed by the Certified Public Accountants Act of Japan

We do not have any interest in the Group which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

TRANSLATION

Following is an English translation of the Independent Auditor's Report filed under the Financial Instruments and Exchange Act of Japan. This report is presented merely as supplemental information.

There are differences between an audit of internal control over financial reporting under the Financial Instruments and Exchange Act and an audit of internal control over financial reporting conducted under the attestation standards established by the American Institute of Certified Public Accountants.

In an audit of internal control over financial reporting under the Financial Instruments and Exchange Act, the auditors express an opinion on management's report on internal control over financial reporting, and do not express an opinion on the Company's internal control over financial reporting taken as a whole.

Independent Auditor's Report on the Financial Statements and Internal Control Over Financial Reporting

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Panasonic Corporation ("the Company") and its consolidated subsidiaries (collectively referred to as "the Group") provided in the "V Consolidated Financial Statements" section in the company's Annual Securities Report, which comprise the consolidated statement of financial position as at March 31, 2021, and the consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the year then ended, and notes to the consolidated financial statements, in accordance with Article 193-2, paragraph (1) of the Financial Instruments and Exchange Act of Japan.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at March 31, 2021, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards prescribed in Article 93 of "the Regulation on Terminology, Forms, and Preparation Methods of Consolidated Financial Statements" (hereinafter referred to as "IFRS").

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Japan, and we have fulfilled

our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

As discussed in “Subsequent events”, the Company, on April 23, 2021, entered into a definitive agreement under which Blue Yonder Holding, Inc. will become a wholly owned subsidiary of the Company.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Appropriateness of the Company’s judgment as to whether an impairment loss should be recognized on goodwill allocated to the Hussmann Corporation division	
The key audit matter	How the matter was addressed in our audit
<p>In the consolidated statement of financial position, Panasonic Corporation (the “Company”) and its consolidated subsidiaries recognized goodwill of ¥86,540 million allocated to the Hussmann Corporation division (the “Hussmann division”). The goodwill arose when the Company acquired control of Hussmann Corporation.</p> <p>As described in Note 3, “Significant accounting policies, (11) Impairment of Non-Financial Assets” to the consolidated financial statements, an impairment test on goodwill is performed annually. In the impairment testing, when the recoverable amount of a cash-generating unit (“CGU”) or a group of CGUs to which goodwill has been allocated is less than the carrying amount, the carrying amount is reduced to the recoverable amount, and the resulting decrease in the carrying amount is recognized as an impairment loss.</p> <p>In the current fiscal year, management used the fair value less costs of disposal as the recoverable amount in the impairment testing on goodwill allocated to the Hussmann division, and the fair value was measured using a combination of the discounted cash flow method and a comparable listed company analysis. These measurements were based on the business plan of the Hussmann division which included assumptions, such as market forecasts, prospects for market share increases through sales promotion measures and expected cost reductions. Management’s judgments on these assumptions had a significant effect on the measurement of the recoverable amount.</p> <p>In addition, the determination of an appropriate calculation method and the selection of input data for estimating the discount rate used for the measurement under the discounted cash flow method and the valuation multiples used for the measurement under the comparable listed company analysis required a high degree of expertise in valuation.</p> <p>We, therefore, determined that our assessment of the appropriateness of the Company’s judgment as to whether an impairment loss should be recognized on goodwill allocated to the Hussmann division was of most significance in our audit of the consolidated</p>	<p>The primary procedures we performed to assess whether the Company’s judgment as to whether an impairment loss should be recognized on goodwill allocated to the Hussmann division was appropriate included the following:</p> <p>(1) Internal control testing</p> <p>We tested the design and operating effectiveness of certain of the Company’s internal controls relevant to the measurement of the fair value less costs of disposal used in the impairment testing on goodwill allocated to the Hussmann division. In this assessment, we focused our testing on controls related to the estimate of key assumptions adopted in the business plan of the Hussmann division.</p> <p>(2) Assessment of the reasonableness of key assumptions adopted in the business plan of the Hussmann division</p> <p>In order to assess the reasonableness of key assumptions adopted by management in preparing the business plan of the Hussmann division, we inquired of management of the Hussmann division about the basis on which each assumption was developed. In addition, we:</p> <ul style="list-style-type: none"> • compared the market forecasts with applicable market research results published by external research companies; • evaluated the reasonableness of the prospects for market share increases by understanding the contents of the sales promotion measures, giving consideration to actual market share increases achieved through similar measures undertaken in the past and the recent actual orders received from customers; • evaluated the reasonableness of the expected cost reductions by understanding the specific contents of the cost reduction measures, giving consideration to the progress of those measures; • assessed whether there was any potential effect on the judgment as to whether an impairment loss

<p>financial statements for the current fiscal year, and accordingly, a key audit matter.</p>	<p>should be recognized if the future cash flows were estimated by incorporating the effect of specific uncertainty into the business plan, after considering the results of our evaluation of the reasonableness of key assumptions as well as our assessment of the past business plan including the cause of variances with actual results.</p> <p>(3) Assessment of the reasonableness of the estimated discount rate and the valuation multiples</p> <p>With the assistance of valuation specialists within our network firms, we assessed the appropriateness of the respective calculation methods used to estimate the discount rate and the valuation multiples, and assessed the reasonableness of the discount rate and the valuation multiples by comparing them with a reasonable range independently calculated using information including market and financial data obtained from an external financial information provider.</p>

Responsibilities of Management and Audit & Supervisory Board Members and Audit & Supervisory Board for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern and disclosing, as applicable, matters related to going concern in accordance with IFRS.

Audit & Supervisory Board Members and Audit & Supervisory Board are responsible for overseeing the directors' performance of their duties with regard to the design, implementation and maintenance of the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of our audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The selection and application of audit procedures depends on the auditor's judgment.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the objective of the audit is not to express an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate whether the presentation and disclosures in the consolidated financial statements are in accordance with IFRS, the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with Audit & Supervisory Board Members and Audit & Supervisory Board regarding, among other matters, the planned scope and timing of the audit, significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Audit & Supervisory Board Members and Audit & Supervisory Board with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with Audit & Supervisory Board Members and Audit & Supervisory Board, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Audit of the Internal Control Report

Opinion

We also have audited the accompanying internal control report of Panasonic Corporation as at March 31, 2021, in accordance with Article 193-2, paragraph (2) of the Financial Instruments and Exchange Act of Japan.

In our opinion, the accompanying internal control report, which states that the internal control over financial reporting was effective as at March 31, 2021, presents fairly, in all material respects, the results of the assessments of internal control over financial reporting in accordance with assessment standards for internal control over financial reporting generally accepted in Japan.

Basis for Opinion

We conducted our audit of the Internal Control Report in accordance with auditing standards for internal control over financial reporting generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Internal Control Report section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the internal control report in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Audit & Supervisory Board Members and Audit & Supervisory Board for the Internal Control Report

Management is responsible for the design and operation of internal control over financial reporting and the preparation and fair presentation of the internal control report in accordance with assessment standards for internal control over financial reporting generally accepted in Japan.

Audit & Supervisory Board Members and Audit & Supervisory Board are responsible for overseeing and examining the design and operation of internal control over financial reporting.

Internal control over financial reporting may not completely prevent or detect financial statement misstatements.

Auditor's Responsibilities for the Audit of the Internal Control Report

Our objectives are to obtain reasonable assurance about whether the internal control report is free from material misstatement based on our audit of the internal control report and to issue an auditor's report that includes our opinion.

As part of our audit in accordance with auditing standards for internal control over financial reporting generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Perform procedures to obtain audit evidence about the results of the assessments of internal control over financial reporting in the internal control report. The procedures for the audit of the internal control report are selected and performed, depending on the auditor's judgment, based on significance of effect on the reliability of financial reporting.
- Evaluate the overall presentation of the internal control report, including the appropriateness of the scope, procedures and results of the assessments that management presents.
- Obtain sufficient appropriate audit evidence about the results of the assessments of internal control over financial reporting in the internal control report. We are responsible for the direction, supervision and performance of the audit of the internal control report. We remain solely responsible for our audit opinion.

We communicate with Audit & Supervisory Board Members and Audit & Supervisory Board regarding, among other matters, the planned scope and timing of our audit of the internal control report, the results thereof, material weaknesses in internal control identified during our audit of internal control report, and those that were remediated.

We also provide Audit & Supervisory Board Members and Audit & Supervisory Board with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Interest required to be disclosed by the Certified Public Accountants Act of Japan

We do not have any interest in the Group which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

(2-1, Nihombashi Kabuto-cho, Chuo-ku, Tokyo) Nagoya Stock Exchange, Inc. (8-20, Sakae 3-chome, Naka-ku, Nagoya)

1. Matters Related to Basic Framework of Internal Control over Financial Reporting

Mr. Yuki Kusumi, Representative Director, President, and Mr. Hirokazu Umeda, Director, are responsible for establishing and maintaining internal control over financial reporting of Panasonic Corporation (the "Company") and have established and maintained internal control over financial reporting in accordance with the basic framework for internal control set forth in the "On the Setting of the Standards and Practice Standards for Management Assessment and Audit concerning Internal Control Over Financial Reporting (Council Opinions)" published by the Business Accounting Council.

The internal control over financial reporting is designed to achieve its objectives to the extent reasonable through the effective function and combination of its basic elements. Therefore, there is a possibility that internal control over financial reporting may not completely prevent or detect misstatements.

2. Matters Related to Scope of Assessment, Record Date, and Assessment Procedure

We assessed the effectiveness of our internal control over financial reporting on the record date as of March 31, 2021. We made this assessment in accordance with assessment standards for internal control over financial reporting generally accepted in Japan.

In making this assessment, we evaluated internal control which may have a material effect on the entire financial reporting on a consolidated basis ("company-level controls") and based on the result of this assessment, we appropriately selected business processes to be evaluated, analyzed these selected business processes, identified key controls that may have a material impact on the reliability of our financial reporting, and assessed the design and operation of these key controls. These procedures have allowed us to evaluate the effectiveness of our internal controls. We determined the required scope of assessment of internal control over financial reporting for the Company, as well as its consolidated subsidiaries and equity-method affiliates, from the perspective of the materiality that may affect the reliability of our financial reporting. The materiality that may affect the reliability of our financial reporting is determined taking into account the materiality of quantitative and qualitative impacts. We confirmed that we had reasonably determined the scope of assessment of internal controls over business processes in light of the results of assessment of company-level controls conducted for the Company, its consolidated subsidiaries and equity-method affiliates. We did not include those consolidated subsidiaries and equity-method affiliates which do not have any quantitatively or qualitatively material impact on the consolidated financial statements in the scope of assessment of company-level controls.

Regarding the scope of assessment of internal control over business processes, we accumulated business units in descending order of total revenues (after elimination of intercompany transactions) for the previous fiscal year, and those business units whose combined amount of revenues reaches approximately two-thirds of total revenues on a consolidated basis were selected as significant business units.

For the selected significant business units, we included, in the scope of assessment those business processes leading to revenues, accounts receivables and inventories. Further, not only for selected significant business units, but also for other business units, we added to the scope of assessment, those business processes having greater materiality considering their impact on the financial reporting, those business processes relating to greater likelihood of material misstatements in significant accounts involving estimates or forecasts as these significant accounts that may have a material impact on our business objectives; or those business processes relating to businesses or operations dealing with high-risk transactions.

3. Matters Related to Results of Assessment

As a result of the assessment above, we concluded that our internal control over financial reporting was effective as of March 31, 2021

4. Supplementary Matters

None.

5. Special Notes

None.
