

Future Declaration

Throughout the course of our discussion we have found the problems that we share among all of our countries.

There are environmental issues such as pollution from a weakly regulated laws, inequality and poverty arising from corruption, unawareness of animal lives. We would like to work towards the future where we would all be free of these problems.

Declared by:

Stella, Babe, Julia, Angela, Akemi, Benz

Date: 27 July, 2018

Future Declaration

- Akemi -Implementing the City Revitalization plan for Nihonbashi. Merging of traditional and modern styles/element. The traditional elements to attract people and the modern elements to create convenience. Portrayal of the truth behind the history. The past with Portugese conquistador. Acceptance of the bad to move toward the better future
- Benz/Babe- The cleanliness (rules and implementation) the city revitalization plan. (developing the new out of the old.
- Caring animal requires closer care because animals cannot communicate their needs directly.
- Angela- Environmental Care, the Aquarium increases people interaction with animals to promote the mindfulness of animal.
- Stella-The Washi-paper, production in Tanzania.
- Babe-The washi-paper, demonstration of the process to promote awareness for the importance of paper (uses of natural resources)
- Julia- The river transportation, solving the road traffic issue
- Akemi-impressed with the continuity of the washi-process. Keeping the tradition of creating high quality products even though it requires a lot of time and resources to make.
